DLA GUIDE FOR PROCUREMENTS

Each item in the Federal Supply System is assigned to a specific Source of Supply (SOS) for management. The DLA buys 6.4 million of those items for the Military Services through designated Contracting Offices. This booklet lists which Federal Supply Class (FSC) is managed by which DLA SOS; meaning, which DLA Supply Chain is designated as the integrated materiel manager at the wholesale level for one or more consumable items of supply in the FSC. Items under a specific FSC may be managed by multiple Supply Chains; therefore, this is not intended to be a definitive list on DLA-managed items.

Note: DLA is not responsible for the introduction of new or improved items, or for research and development on new items.

If you are interested in selling to DLA, use this booklet to determine if DLA buys it, and where the commodity or service is procured. Then call the appropriate small business office listed below to get advice and counsel on competing for DLA contracts.
