Subject RE: Friends of Todd Young DFAR

Robert,

The Friends of Todd Young committee has declined the option for a hearing before the Commission to present legal arguments concerning the findings in the draft report.

If possible, would you be so kind and notify us a few days before the audit becomes public? As you probably understand, we have a great interest in this audit and we would like to stay up to date on all public/private activities involved with it.

We do appreciate all of the great communication you've provided the Friends of Todd Young committee thus far.

Thank you again,

Kevin Broghamer
