

2007-2008

Senior Corps Tribal Projects

Senior Corps currently links more than 500,000 Americans age 55 and older to service opportunities. Their contributions of skills, knowledge, and experience make a real difference to individuals, nonprofits, and faith-based and other community organizations throughout the United States. Volunteers receive guidance and training so they can make a contribution that suits their talents, interests, and availability.

*The **Foster Grandparent Program (FGP)** connects volunteers age 60 and over with children and young people with exceptional needs. Volunteers mentor, support, and help some of the most vulnerable children in the United States. The **Senior Companion Program (SCP)** brings together volunteers age 60 and over with adults in their community who have difficulty with the simple tasks of day-to-day living. Companions help out on a personal level by assisting with shopping and light chores, interacting with doctors, or just making a friendly visit. **RSVP** connects volunteers age 55 and over with service opportunities in their communities that match their skills and availability. From building houses to immunizing children, from enhancing the capacity of non-profit organizations to improving and protecting the environment, RSVP volunteers put their unique talents to work to make a difference. CNCS currently funds 24 FGP, 14 SCP, and 12 RSVP projects that serve American Indian communities.*
