The complaint alleges violations of section 337 of the Tariff Act of 1930, as amended (19 U.S.C. § 1337), in the importation into the United States, the sale for importation, and the sale within the United States after importation of certain computer forensic devices and products containing the same by reason of infringement of three United States patents. The notice of investigation names numerous respondents.

On July 24, 2012, the presiding administrative law judge issued an initial determination (Order No. 51) extending the target date by four months, until April 29, 2013. No petitions for review of the ID were filed.

The Commission has determined not to review the ID.
