SUMMARY: Notice is hereby given that the U.S. International Trade Commission has determined not to review the presiding administrative law judge's ("ALJ") initial determination ("ID") (Order No. 48) terminating the above-captioned investigation as to certain claims of United States Patent No. 6,425,893 ("the '893 patent").

SUPPLEMENTARY INFORMATION: The Commission instituted this investigation on December 12, 2007, based on a complaint filed by SanDisk Corporation ("SanDisk"). The complaint alleged violations of section 337 of the Tariff Act of 1930 (19 U.S.C. § 1337) in the importation into the United States, the sale for importation, and the sale within the United States after importation of certain flash memory controllers, drives, memory cards, media players, and products containing the same by reason of infringement of various claims of five United States

patents, including the '893 patent. The investigation has since been terminated as to two of the patents. The complaint named nearly fifty respondents.

On September 23, 2008, SanDisk filed an unopposed motion to terminate the investigation as to all asserted claims of the '893 patent with respect to respondents Phison Electronics Corp.; Kingston Technology Co., Inc.; Kingston Technology Corp.; MemoSun, Inc.; and Skymedi Corporation. SanDisk also moved to terminate the investigation as to claims 12-14, 17, 30, 36, 37, 39, 41, and 58 of the '893 patent with respect to the remaining respondents.

On October 7, 2008, the ALJ issued the subject ID terminating the investigation as requested. No petitions for review of this ID were filed.

The Commission has determined not to review the ID.

The authority for the Commission's determination is contained in section 337 of the Tariff Act of 1930, as amended (19 U.S.C. § 1337), and in section 210.42 of the Commission's Rules of Practice and Procedure (19 C.F.R. § 210.42).

By order of the Commission.
