

2008 National Healthcare Disparities Report—Errata

- Page 2: The data in Figure H.1 are correct but the bars were rendered inaccurately. The corrected figure appears below.

- Page 3: The asterisk and corresponding footnote in Figure H.2 should not appear.
- Page 56: In the last bullet, the Healthy People 2010 target should be 25%, as shown in Figure 2.12.
- Page 98: The title of Figure 2.41 should read as follows: Composite measure: Bloodstream infections (BSIs) or mechanical adverse events among central venous catheter (CVC) placements, Medicare hospital patients, by race, 2004-2006. In both bullets, the references to rates should be to percentages.
- Page 153: The title of Figure 3.9 should read as follows: People who were unable to get or delayed in getting needed medical care, dental care, or prescription medicines in the last 12 months for financial or insurance reasons, by race, ethnicity, income, education, and insurance status, 2005. The data represent the percentage among those who were unable to get or delayed in getting needed medical care, dental care, or prescription medicines who cited financial or insurance reasons. For example, 65% of people with access problems reported a financial reason for the problem.
- Page 248: In the third sentence of the second paragraph, a reference number was typeset incorrectly. At the end, 9.4%.⁵⁰ should read 9.4%.
