RE: Phone call from David E. Harris, Ph.D.

Apparently you've spoken to this man before. He gave me an awful lot of information, so I'm passing along as much as I was able to understand.

He wants to prefile legislation with the Missouri General Assembly before it convenes on January 8. He's interested in obtaining model legislation with respect to medicaid. He referred to the President's Health Security Plan of 9/93.

He spoke of the formation of a graduate school in Mt. Vernon, Missouri and something about the United States National Memorial Fund Institute for Research and Education. He also wants to keep Lt. Governor Roger Wilson and Congresswoman Pat Schroeder up to speed on all this.

His address is: David E. Harris, Ph.D.
