

A Proposal for Adolescent Health
June 22, 1993

Background

The President's budget requests continued level funding (\$7.8 million) for the Adolescent Family Life Program (the so-called "Chastity Program") in FY 1994. However, in the absence of an Administration proposal to revise the program or Congressional action to reauthorize it, it is very likely that no funding will be included in the appropriation packages.

The House Appropriations Committee is scheduled to vote on the FY 1994 Labor/HHS Appropriations bill next week and the Senate Committee is also primed to begin action on HHS appropriations legislation.

Proposal

We propose retaining the FY 1994 Adolescent Family Life Program and using the current \$7.8 million as a vehicle for implementing part of a broader PHS adolescent health initiative. Essentially, the AFL authority would be revised to implement an adolescent health policy coordination function at the Office of the Assistant Secretary of Health (OASH) level through an Office of Adolescent Health authorized in the Preventive Health Amendments of 1992.

In order to implement this proposal, HHS needs to take immediate steps to secure a FY 1994 continued appropriation with a broader adolescent health focus.

The alternative is to leave the existing Family Life authority as is for FY 1994 and develop a funding proposal for the FY 1995 budget.
