Hi Steve. I already informed Marcia that the JAG was going to be submitting its first product, and that there was no USGS authorship. She was pleased to hear about the pending report, and is eager to see it. So thanks!

Mark

All,

Attached find the "final" version of the report and separately the talking points. I intend to submit to the NIC tonite with your concurrence. Mark please inform your leadership about your decision about authorship, or I can tell Dr. McNutt directly.
