Subject: Time for an FSP question relative to a multi-agency oil spill  
team?

Hi Keith,

I am on a temporary assignment in Houston helping Marcia McNutt with some of the science teams working on the Deepwater Horizon spill. I represent USGS on the Joint Analysis Group (JAG), which is analyzing data on subsurface dispersed oil. They have drafted some ideas on how to handle product review and distribution, and I wanted to get your thoughts on how that process relates to/integrates with FSP. Any chance you have some time for a (hopefully) quick conversation on Monday or Tuesday? If so, what is a good day/time?

Mark
