Subject: URL for public DWH data web site

Hi Bob,

Here is the URL I mentioned earlier, for the site that Dr. McNutt and DOE set up for sharing data relative to the Deepwater Horizon spill.

<http://www.energy.gov/open/oilspilldata.htm>

Worth considering as an option for serving JAG-related data and products. If we start leaning in that direction, I can facilitate some conversations with the DOE web folks.

Mark
