Judy and Tim,

Can you get this started? HREC members can help.

Thanks!

Suzette

Accounting for the Spilled Oil and Ensuring the Safety of Seafood from the Gulf
Importance: High

Folks - Please review the draft NOAA testimony attached. There is discussion here on the NRDA process, the use of dispersants and the oil budget reports. Interior and USGS are mentioned a few times in here and we need to make sure we're getting a fair shake. Please give this a thorough scrubbing to ensure this is an accurate portrayal of our work and theirs!

I'll need any comments or edits no later than 3:00 TOMORROW 8.17.

Note, this has been sent out through the regular referral process, so you may see it pop up in your inbox again.

Thanks, Dominic
