15                   “(5) PROCEDURE.—

16                           “(A) ASSESSMENT.—A civil penalty under  
17           paragraph (1), (2) or (3) shall be assessed by

19           after opportunity for a hearing provided in ac-  
20           cordance with this subparagraph and section  
21           554 of title 5, United States Code. Before issu-  
22           ing such an order, the Secretary shall give writ-  
23           ten notice to the person to be assessed a civil

6 vestigation.

7 “(B) AMOUNT.—In determining the  
8 amount of a civil penalty under this subsection,  
9 the Secretary shall take into account the na-

11 violation or violations and, with respect to the  
12 violator, ability to pay, effect on ability to con-  
13 tinue to do business, any history of prior such

15 other matters as justice may require.

16 “(C) MODIFICATION.—The Secretary may  
17 compromise, modify, or remit, with or without  
18 conditions, any civil penalty which may be as-  
19 sessed under paragraph (1), (2) or (3). The  
20 amount of such penalty, when finally deter-  
21 mined, or the amount agreed upon in com-

24 “(6) HEARINGS.—Any person who requested, in  
25 accordance with paragraph (5)(A), a hearing re-

4       with the United States Court of Appeals for the Dis-

14       curred, or in such court for the district where the  
15       defendant is found or transacts business, and proc-

18       the defendant may be found.

19       “(8) RULE OF CONSTRUCTION.—Nothing in  
20       this subsection shall be construed as requiring the  
21       Secretary to report for the institution of proceedings  
22       minor violations of this chapter whenever the Sec-  
23       retary believes that the public interest will be ade-  
24       quately served by a suitable written notice or warn-  
25       ing.

1           “(9) COMPLIANCE.—If any person fails to pay  
2           an assessment of a civil penalty under this sub-  
3           section—

4                   “(A) after the order making the assess-  
5                   ment becomes final, and if such person does not  
6                   file a petition for judicial review of the order in  
7                   accordance with paragraph (6); or

8                   “(B) after a court in an action brought  
9                   under paragraph (6) has entered a final judg-  
10                  ment in favor of the Secretary;

11           the Attorney General shall recover the amount as-  
12           sessed (plus interest at currently prevailing rates  
13           from the date of the expiration of the 60-day period  
14           referred to in paragraph (6) or the date of such final  
15           judgment, as the case may be) in an action brought  
16           in any appropriate district court of the United  
17           States. In such an action, the validity, amount, and  
18           appropriateness of such penalty shall not be subject  
19           to review.

20                   “(10) ADDITIONAL REMEDIES.—The remedies  
21                   provided for in this subsection shall be in addition  
22                   to and not in substitution for any other remedies  
23                   provided by law.

24                   “(b) SEIZURE.—

1           “(1) IN GENERAL.—Any tobacco product that  
2           is adulterated or misbranded when introduced into  
3           or while in interstate commerce or while held for  
4           sale (whether or not the first sale) after shipment in  
5           interstate commerce, or which may not, under this  
6           chapter be introduced into interstate commerce,  
7           shall be liable to be proceeded against while in inter-  
8           state commerce, or at any time thereafter, on libel  
9           of information and condemned in any district court  
10          of the United States or United States court of a  
11          Territory within the jurisdiction of which the article  
12          is found. No libel for condemnation shall be insti-  
13          tuted under this Act, for any alleged misbranding if  
14          there is pending in any court a libel for condemna-  
15          tion proceeding under this Act based upon the same  
16          alleged misbranding, and not more than one such  
17          proceeding shall be instituted if no such proceeding  
18          is so pending, except that such limitations shall not  
19          apply—

20                   “(A) when such misbranding has been the  
21                   basis of a prior judgment in favor of the United  
22                   States, in a criminal, injunction, or libel for  
23                   condemnation proceeding under this Act; or

24                   “(B) when the Secretary has probable  
25                   cause to believe from facts found, without hear-

1           ing, by the Secretary or any officer or employee  
2           of the Department that the misbranded tobacco  
3           product is dangerous to health, or that the la-  
4           beling of the misbranded product is fraudulent.

5           In any case where the number of libel for condemna-  
6           tion proceedings is limited as provided in this para-  
7           graph, the proceeding pending or instituted shall, on  
8           application of the claimant, seasonably made, be re-  
9           moved for trial to any district agreed upon by stipu-  
10          lation between the parties, or, in case of failure to  
11          so stipulate within a reasonable time, the claimant  
12          may apply to the court of the district in which the  
13          seizure has been made, and such court (after giving  
14          the United States attorney for such district reason-  
15          able notice and opportunity to be heard) shall by  
16          order, unless good cause to the contrary is shown,  
17          specify a district of reasonable proximity to the  
18          claimant's principal place of business to which the  
19          case shall be removed for trial.

20               “(2) SCOPE.—Any adulterated or misbranded  
21          tobacco product shall be liable to be proceeded  
22          against at any time on libel of information and con-  
23          demned in any district court of the United States or  
24          United States court of a Territory within the juris-  
25          diction of which they are found.

1           “(3) PROCESS.—

2                   “(A) IN GENERAL.—The tobacco product  
3           proceeded against under this subsection shall be  
4           liable to seizure by process pursuant to the  
5           libel, and the procedure in cases under this sub-  
6           section shall conform, as nearly as may be, to  
7           the procedure in admiralty, except that on de-  
8           mand of either party any issue of fact joined in  
9           any such case shall be tried by jury.

10                   “(B) SAME CLAIMANTS.—When libel for  
11           condemnation proceedings under this sub-  
12           section, involving the same claimant and the  
13           same issues of adulteration or misbranding, are  
14           pending in 2 or more jurisdictions, such pend-  
15           ing proceedings, upon application of the claim-  
16           ant seasonably made to the court of one such  
17           jurisdiction, shall be consolidated for trial by  
18           order of such court, and tried in—

19                   “(i) any district selected by the claim-  
20           ant where one of such proceedings is pend-  
21           ing; or

22                   “(ii) a district agreed upon by stipula-  
23           tion between the parties.

24           If no order for consolidation is made under this  
25           subparagraph within a reasonable time, the

1 claimant may apply to the court of one such ju-  
2 risdiction, and such court (after giving the  
3 United States attorney for such district reason-  
4 able notice and opportunity to be heard) shall  
5 by order, unless good cause to the contrary is  
6 shown, specify a district of reasonable proximity  
7 to the claimant's principal place of business, in  
8 which all such pending proceedings shall be  
9 consolidated for trial and tried. Such order of  
10 consolidation shall not apply so as to require  
11 the removal of any case the date for trial of  
12 which has been fixed. The court granting such  
13 order shall give prompt notification thereof to  
14 the other courts having jurisdiction of the cases  
15 covered thereby.

16 “(4) SAMPLE.—The court at any time after sei-  
17 zure up to a reasonable time before trial shall by  
18 order allow any party to a condemnation proceeding,  
19 the attorney or agent of such party, to obtain a rep-  
20 resentative sample of the tobacco product seized and  
21 a true copy of the analysis, if any, on which the pro-  
22 ceeding is based and the identifying marks or num-  
23 bers, if any, of the packages from which the samples  
24 analyzed were obtained.

25 “(5) DISPOSAL.—

1           “(A) IN GENERAL.—Any tobacco product  
2           condemned under this subsection shall, after  
3           entry of the decree, be disposed of by destruc-  
4           tion or sale as the court may, in accordance  
5           with the provisions of this section, direct and  
6           the proceeds thereof, if sold, less the legal costs  
7           and charges, shall be paid into the Treasury of  
8           the United States, but such article shall not be  
9           sold under such decree contrary to the provi-  
10          sions of this Act or the laws of the jurisdiction  
11          in which sold.

12           “(B) DELIVERY FOR DESTRUCTION.—  
13          After entry of a decree under subparagraph (A)  
14          and upon the payment of the costs of such pro-  
15          ceedings and the execution of a good and suffi-  
16          cient bond conditioned that such tobacco prod-  
17          uct shall not be sold or disposed of contrary to  
18          the provisions of this Act or the laws of any  
19          State or Territory in which sold, the court may  
20          by order direct that such product be delivered  
21          to the owner thereof to be destroyed or brought  
22          into compliance with the provisions of this Act  
23          under the supervision of an officer or employee  
24          duly designated by the Secretary, and the ex-  
25          penses of such supervision shall be paid by the

1 person obtaining release of the article under  
2 bond.

3 “(C) IMPORTER PRODUCTS.—If a tobacco  
4 product to which this paragraph applies was  
5 imported into the United States and the person  
6 seeking its release establishes—

7 “(i) that the adulteration, misbrand-  
8 ing, or violation did not occur after the to-  
9 bacco product was imported; and

10 “(ii) that the person had no cause for  
11 believing that it was adulterated, mis-  
12 branded, or in violation before it was re-  
13 leased from customs custody;

14 the court may permit the product to be deliv-  
15 ered to the owner for exportation in lieu of de-  
16 struction upon a showing by the owner that all  
17 of the conditions of section 801(e) can and will  
18 be met.

19 “(D) EQUIPMENT.—

20 “(i) IN GENERAL.—The provisions of  
21 subparagraph (A) shall, to the extent  
22 deemed appropriate by the court, apply to  
23 any equipment or other thing which is not  
24 otherwise within the scope of such para-

1 graph and which is referred to in this sub-  
2 section.

3 “(ii) REQUIREMENTS.—Whenever in  
4 any proceeding under this subsection, in-  
5 volving the condemnation of any equipment  
6 or thing (other than a tobacco product) is  
7 decreed, the court shall allow the claim of  
8 any claimant, to the extent of such claim-  
9 ant’s interest, for remission or mitigation  
10 of such forfeiture if such claimant proves  
11 to the satisfaction of the court—

12 “(I) that the owner has not com-  
13 mitted or caused to be committed any  
14 prohibited act referred to in this sub-  
15 section and has no interest in any to-  
16 bacco product referred to herein;

17 “(II) that the owner has an in-  
18 terest in such equipment or other  
19 thing as owner or lienor or otherwise,  
20 acquired by the owner in good faith;  
21 and

22 “(III) that the owner at no time  
23 had any knowledge or reason to be-  
24 lieve that such equipment or other  
25 thing was being or would be used in,

1 or to facilitate, the violation of laws of  
2 the United States relating to tobacco  
3 products in violation of this chapter.

4 “(6) EXPENSES.—When a decree of condemna-  
5 tion is entered against a tobacco product, court costs  
6 and fees, and storage and other proper expenses,  
7 shall be awarded against the person, if any, inter-  
8 vening as claimant of the tobacco product.

9 “(7) REMOVAL FOR <sup>Trial</sup> ~~TRIAL~~.—In the case of re-  
10 moval for trial of any case as provided by paragraph  
11 (1)—

12 “(A) the clerk of the court from which re-  
13 moval is made shall promptly transmit to the  
14 court in which the case is to be tried all records  
15 in the case necessary in order that such court  
16 may exercise jurisdiction; and

17 “(B) the court to which such case was re-  
18 moved shall have the powers and be subject to  
19 the duties for purposes of such case, which the  
20 court from which removal was made would have  
21 had, or to which such court would have been  
22 subject, if such case had not been removed.

23 “(8) INSPECTIONS.—

24 “(A) IN GENERAL.—If during an inspec-  
25 tion conducted under this chapter of a facility

1 or a vehicle, a tobacco product which the officer  
2 or employee making the inspection has reason  
3 to believe is adulterated or misbranded is found  
4 in such facility or vehicle, such officer or em-  
5 ployee may order the tobacco product detained  
6 (in accordance with regulations prescribed by  
7 the Secretary) for a reasonable period which  
8 may not exceed 20 days unless the Secretary  
9 determines that a period of detention greater  
10 than 20 days is required to institute an action  
11 under paragraph (1) or subsection (c), in which  
12 case he may authorize a detention period of not  
13 to exceed 30 days. Regulations of the Secretary  
14 prescribed under this subparagraph shall re-  
15 quire that before a tobacco product may be or-  
16 dered detained under this paragraph the Sec-  
17 retary or an officer or employee designated by  
18 the Secretary approve such order. A detention  
19 order under this paragraph may require the la-  
20 beling or marking of a tobacco product during  
21 the period of its detention for the purpose of  
22 identifying the product as detained. Any person  
23 who would be entitled to claim a tobacco prod-  
24 uct if it were seized under paragraph (1) may  
25 appeal to the Secretary a detention of such de-

1 vice under this paragraph. Within 5 days of the  
2 date an appeal of a detention is filed with the  
3 Secretary, the Secretary shall after affording  
4 opportunity for an informal hearing by order  
5 confirm the detention or revoke it.

6 “(B) LIMITATIONS.—

7 “(i) IN GENERAL.—Except as author-  
8 ized by clause (ii), a tobacco product sub-  
9 ject to a detention order issued under sub-  
10 paragraph (A) shall not be moved by any  
11 person from the place at which it is or-  
12 dered detained until—

13 “(I) released by the Secretary; or

14 “(II) the expiration of the deten-  
15 tion period applicable to such order,  
16 whichever occurs first.

17 “(ii) PERMISSIVE REMOVAL.—A to-  
18 bacco product subject to a detention order  
19 under subparagraph (A) may be moved—

20 “(I) in accordance with regula-  
21 tions prescribed by the Secretary; and

22 “(II) if not in final form for ship-  
23 ment, at the discretion of the manu-  
24 facturer of the tobacco product for the

1                   purpose of completing the work re-  
2                   quired to put it in such form.

3           “(c) RECALL AUTHORITY.—

4                   “(1) IN GENERAL.—If the Secretary finds that  
5                   there is a reasonable probability that a tobacco prod-  
6                   uct has been distributed in violation of this chapter  
7                   in a manner that would pose a greater threat to  
8                   public health than the threat normally posed to pub-  
9                   lic health by similar tobacco products, the Secretary  
10                  shall issue an order requiring the appropriate person  
11                  (including the manufacturers, importers, distribu-  
12                  tors, or retailers of the product) to immediately  
13                  cease distribution of such product. The order shall  
14                  provide the person subject to the order with an op-  
15                  portunity for an informal hearing, to be held not  
16                  later than 10 days after the date of the issuance of  
17                  the order, on the actions required by the order and  
18                  on whether the order should be amended to require  
19                  a recall of such (device) If, after providing an oppor-  
20                  tunity for such a hearing, the Secretary determines  
21                  that inadequate grounds exist to support the actions  
22                  required by the order, the Secretary shall vacate the  
23                  order.

24                  “(2) AMENDMENT TO ORDER.—

*Handwritten note:*  
~~for~~ tobacco product

1           “(A) IN GENERAL.—If, after providing an  
2           opportunity for an informal hearing under  
3           paragraph (1), the Secretary determines that  
4           the order should be amended to include a recall  
5           of the tobacco product with respect to which the  
6           order was issued, the Secretary shall, except as  
7           provided in subparagraphs (B) and (C), amend  
8           the order to require a recall. The Secretary  
9           shall specify a timetable in which the device re- *tobacco*  
10          call will occur and shall require periodic reports *product*  
11          to the Secretary describing the progress of the  
12          recall.

13           “(B) LIMITATIONS.—An amended order  
14          under subparagraph (A)—

15                   “(i) shall not include recall of a to-  
16                   bacco product from individuals; and

TOBACCO SMOKE**

Sec. 301. Standards to reduce involuntary exposure to tobacco smoke.

Sec. 401. Severability.

**1 SEC. 2. FINDINGS.**

2 (a) **GENERAL FINDINGS.**—Congress makes the fol-  
3 lowing findings:

4 (1) Tobacco is an addictive substance the use of  
5 which constitutes the Nation’s number 1 preventable  
6 cause of death.

7 (2) Nicotine is a highly addictive drug. Sub-  
8 stantial evidence exists that the tobacco industry has  
9 altered the amounts of nicotine in tobacco products,  
10 and added chemicals to make the nicotine in such  
11 products stronger, in order to make such products  
12 more additive than they would naturally be. As such,  
13 it is appropriate for Congress to regulate tobacco  
14 products and nicotine.

15 (3) The use of tobacco products by the nation’s  
16 children is a serious and growing public health prob-  
17 lem that results in new generations of tobacco-de-  
18 pendent children and adults.

1           (4) There is a consensus within the scientific,  
2           public health, and medical communities that cur-  
3           rently marketed tobacco products are inherently un-  
4           safe and cause cancer, heart disease, and other seri-  
5           ous adverse health effects.

6           (5) Virtually all new users of tobacco products  
7           are under the age of 18. Tobacco industry advertis-  
8           ing and marketing is directed at adolescents and as  
9           such, sweeping new restrictions on the sale, pro-  
10          motion, and distribution of such products are need-  
11          ed.

12          (6) The Office on Smoking and Health of the  
13          Centers for Disease Control and Prevention has  
14          found that more than 70 percent of the nation's  
15          50,000,000 current smokers have tried unsuccess-  
16          fully to quit, and about 20,000,000 try to quit each  
17          year, with little success.

18          (7) Current research shows that new and cost-  
19          effective treatments are available that could dramati-  
20          cally improve the success rate of smoking cessation  
21          attempts.

22          (8) While State laboratory models, such as  
23          those developed in California and Massachusetts,  
24          demonstrate that comprehensive programs to reduce  
25          tobacco use can be effective, tobacco-related re-

1 search, including policy-oriented, programmatic, be-  
2 havioral, public health, and biomedical research  
3 should be a substantial component of a national pro-  
4 gram to prevent and reduce the use of tobacco prod-  
5 ucts.

6 (9) Enhancing the available prevention, re-  
7 search, and treatment resources with respect to to-  
8 bacco will allow our Nation to address more effec-  
9 tively the problems associated with the use of to-  
10 bacco products.

11 (10) States have been instrumental in reducing  
12 smoking rates, and States should continue to play a  
13 leading role in tobacco control efforts.

14 (11) While the Synar amendment has estab-  
15 lished the importance of restricting access to tobacco  
16 products as a way to reduce smoking among teens,  
17 most teens who smoke buy cigarettes themselves.  
18 Thus, greater emphasis must be placed on the en-  
19 forcement of effective restrictions on access and the  
20 elimination of marketing and advertising to children  
21 and teens.

22 (b) FINDINGS RELATING TO ADVERTISING.—Con-  
23 gress makes the following findings:

24 (1) In 1995, the tobacco industry spent close to  
25 \$4,900,000,000 to attract new users, retain current

1 users, increase current consumption, and generate  
2 favorable long-term attitudes toward smoking and  
3 tobacco use.

4 (2) Tobacco product advertising often  
5 misleadingly portrays the use of tobacco as socially  
6 acceptable and healthful.

7 (3) Tobacco product advertising is regularly  
8 seen by individuals under the age of 18, and individ-  
9 uals under the age of 18 are regularly exposed to to-  
10 bacco product promotional efforts.

11 (4) Through advertisements during and spon-  
12 sorship of sporting events, tobacco has become  
13 strongly associated with sports and has become por-  
14 trayed as an integral part of sports and the healthy  
15 lifestyle associated with rigorous sporting activity.

16 (5) Children are exposed to substantial and un-  
17 avoidable tobacco advertising, that leads to favorable  
18 beliefs about tobacco use, plays a role in leading  
19 young people to overestimate the prevalence of to-  
20 bacco use, and increases the number of young people  
21 who begin to use tobacco.

22 (6) Tobacco advertising helps increase the size  
23 of the tobacco market by increasing consumption of  
24 tobacco products including increasing tobacco sales  
25 to young people.

1           (7) Children are more influenced by tobacco ad-  
2           vertising than adults, they smoke the most adver-  
3           tised brands, and children as young as 3 through 6  
4           years of age can recognize a character associated  
5           with smoking.

6           (8) Tobacco company documents indicate that  
7           young people are an important and often crucial seg-  
8           ment of the tobacco market.

9           (9) Comprehensive advertising restrictions will  
10          have a positive effect on the smoking rates of young  
11          people.

12          (10) Constitutionally permissible restrictions on  
13          advertising are necessary to reduce youth smoking.

14 **SEC. 3. GOALS AND PURPOSES.**

15          (a) GOALS.—It is a goal of this Act to—

16               (1) decrease and prevent youth smoking and to-  
17               bacco product use and reduce the marketing of to-  
18               bacco products to young Americans;

19               (2) decrease and prevent tobacco use by all  
20               Americans by encouraging public education and  
21               smoking cessation programs and to decrease the ex-  
22               posure of individuals to environmental (second-hand)  
23               smoke;

24               (3) develop effective strategies to prevent the  
25               underage use of tobacco products;

1           (4) advance our knowledge of the health effects  
2 of nicotine and tobacco products on the human body,  
3 the factors that influence behavior related to the use  
4 and nonuse of tobacco products, and the factors that  
5 influence successful cessation efforts;

6           (5) establish the authority of the Secretary with  
7 respect to the types of tobacco products that may be  
8 lawfully sold; and

9           (6) invest tobacco revenues in important public  
10 health priorities, such as smoking cessation, public  
11 health education and health promotion, counter-ad-  
12 vertising.

13 (b) PURPOSES.—It is the purpose of this Act to—

14           (1) provide for the funding by the tobacco in-  
15 dustry of an aggressive enforcement program relat-  
16 ing to tobacco advertising and distribution, including  
17 a State-administered retail licensing system to pre-  
18 vent minors from obtaining tobacco products;

19           (2) subject the tobacco industry to severe finan-  
20 cial penalties in the event that underage tobacco  
21 usage does not decline radically over the next 10  
22 years;

23           (3) provide annual payments to the States to  
24 fund comprehensive tobacco education and use pre-  
25 vention programs at the State and community levels;

1           (4) provide annual payments to States to fund  
2 effective smoking cessation treatment efforts at the  
3 State and community levels;

4           (5) provide for the establishment of national  
5 standards to control the manufacturing of tobacco  
6 products and the ingredients used in such products;

7           (6) provide certain regulatory powers to the  
8 Secretary of Health and Human Services to encour-  
9 age the development and marketing by the tobacco  
10 industry of "less hazardous tobacco products", in-  
11 cluding the power to regulate the level of nicotine in  
12 such products;

13           (7) provide for the establishment of a national  
14 education-oriented counter advertising and tobacco  
15 use prevention campaign to be funded through the  
16 National Tobacco Settlement Trust Fund; and

17           (8) establish a minimum Federal standard to  
18 limit smoking in public places, including the halls of  
19 Congress.

4           tion.

5           “(B) CONTENTS OF NOTICE.—A notice of

14 publication of the notice, either deny the request and  
15 provide a written response explaining the reasons for  
16 the denial, or give notice of an intent to initiate such

18 “(3) REGULATION FOR ESTABLISHMENT.—

19 “(A) IN GENERAL.—After the expiration of  
20 the period for comment on a notice of proposed  
21 rulemaking published under paragraph (1) with  
22 respect to a health risk reduction standard, and  
23 after consideration of such comments and any  
24 report from the tobacco products advisory com-

1                   “(i) promulgate a regulation establish-  
2                   ing a health risk reduction standard and

5                   to in subsection (c); or

6                   “(ii) publish a notice terminating the

14                  no such regulation may take effect before the  
15                  expiration of the 1-year period beginning on the  
16                  date of its publication and such date or dates  
17                  shall be established so as to minimize economic  
18                  loss to, and disruption or dislocation of, domes-  
19                  tic and international trade, unless the Secretary  
20                  determines that an earlier effective date is nec-  
21                  essary for the protection of the public health.

22                  “(4) AMENDING OR REVOKING OF STAND-  
23                  ARDS.—

24                  “(A) IN GENERAL.—The Secretary, upon

5 bacco product.

6 “(B) EFFECTIVENESS OF AMENDMENT.—

7 The Secretary may declare a proposed amend-  
8 ment of a health risk reduction standard under  
9 this section to be effective on and after its pub-  
10 lication in the Federal Register and until the  
11 effective date of any final action taken on such  
12 amendment if the Secretary determines that  
13 making it so effective is in the public interest.  
14 A proposed amendment of a health risk reduc-  
15 tion standard made so effective under the pre-  
16 ceding sentence may not prohibit, during the  
17 period in which it is so effective, the introduc-  
18 tion or delivery for introduction into interstate  
19 commerce of a tobacco product which conforms  
20 to such standard without the change or changes  
21 provided by such proposed amendment.

22 “(c) REGULATION OF THE COMPOSITION OF TO-  
23 BACCO PRODUCTS.—

1           “(1) IN GENERAL.—The Secretary may adopt a  
2 health risk reduction standard under this section  
3 that requires—

4           “(A) the modification of a tobacco product  
5 in a manner that involves—

6           “(i) the gradual modification of nico-  
7 tine yields of the product;

8           “(ii) the reduction or elimination of  
9 other harmful constituents, ingredients (in-  
10 cluding tobacco additives), substances,  
11 compounds and properties of the product  
12 in accordance with subsection (d)(4)(B),  
13 including the establishment of levels of nic-  
14 otine and other components, ingredients  
15 (including tobacco additives), and constitu-  
16 ents of the product, or smoke emitted by  
17 such products; or

18           “(iii) other changes to reduce the like-  
19 lihood of cigarette induced fires;

20           “(B) effective not earlier than the expira-  
21 tion of the 10-year period beginning on the date  
22 of enactment of this chapter, the reduction of  
23 nicotine yields of a tobacco product to zero; or

24           “(C) effective not earlier than the expira-  
25 tion of the 10-year period beginning on the date

1 of enactment of this chapter, the prohibition of  
2 cigarettes or smokeless tobacco.

3 “(2) OBJECTIVE.—Tobacco product health risk  
4 reduction standards established under this section  
5 shall—

6 “(A) have as their objective reducing the  
7 overall health risks to the public, including the  
8 reduction in risk to the consumers of such prod-  
9 ucts, to individuals who reduce or cease the use  
10 of such products, and to individuals who do not  
11 initiate the use of such products;

12 “(B) where necessary to meet the objec-  
13 tives in subparagraph (A), include require-  
14 ments—

15 “(i) with respect to the construction,  
16 components, constituents, ingredients (in-  
17 cluding tobacco additives), and properties  
18 of the product, including the establishment  
19 of levels of nicotine and other components,  
20 ingredients (including tobacco additives),  
21 and constituents of the product, or smoke  
22 emitted by such products taking into ac-  
23 count the technological feasibility of such  
24 requirements;

1                   “(ii) specifying the procedures for the  
2                   testing of such products, including devising  
3                   procedures to be used by tobacco product  
4                   manufacturers, the Secretary, or other ap-  
5                   propriate entities, to measure relevant  
6                   health-related characteristics of such prod-  
7                   ucts;

8                   “(iii) for the testing of such products,  
9                   including devising procedures to be used by  
10                  manufacturers, the Secretary, or other ap-  
11                  propriate entities to measure the relevant  
12                  health related characteristics of such prod-  
13                  ucts to assess the conformity of such prod-  
14                  ucts with the applicable health risk reduc-  
15                  tion standards; and

16                  “(iv) to limit the sale and distribution  
17                  of tobacco products to the extent author-  
18                  ized by this chapter;

19                  “(C) as required under section 905, pre-  
20                  scribe certain conditions pertaining to the label-  
21                  ing and advertising of tobacco products; and

22                  “(D) comply with regulations promulgated  
23                  by the Secretary that specify the health risk as-  
24                  sessment procedures for the testing of tobacco  
25                  and nontobacco constituents contained in to-

1 tobacco products and determinations concerning  
2 such products under subsection (d).

3 “(3) CONSIDERATIONS.—In determining wheth-  
4 er to require a modification or prohibition described  
5 in paragraph (1), the Secretary shall identify, make  
6 available for public comment, and consider relevant  
7 factors including whether the modification or prohi-  
8 bition—

9 “(A) will result in a significant reduction  
10 in the health risks associated with the use of  
11 the tobacco product, constituent, or component  
12 involved;

13 “(B) will result in a significant increase in  
14 the number of individuals seeking tobacco prod-  
15 uct cessation or withdrawal treatments, includ-  
16 ing an assessment of the effectiveness and ac-  
17 cessibility of such treatments;

18 “(C) will result in any possible countervail-  
19 ing effects on the health of adolescent tobacco  
20 users, adult tobacco users, or non-tobacco  
21 users, such as the creation of a significant de-  
22 mand for, and supply of, contraband products  
23 specifically including other tobacco products  
24 that do not meet the requirements of this chap-  
25 ter;

1           “(D) is technologically feasible for com-  
2           mercial manufacturing; and

3           “(E) is likely to be accepted by and afford-  
4           able to adult consumers of tobacco products.

5           “(4) PROCEDURE FOR GENERAL PROHIBITION  
6           OF TOBACCO PRODUCTS AND ELIMINATION OF NICO-  
7           TINE.—

8           “(A) NONDELEGATION.—The Secretary  
9           may not delegate the authority provided under  
10          this section to promulgate a regulation that re-  
11          sults in a general prohibition of cigarettes or  
12          smokeless tobacco or the reduction of nicotine  
13          yields of a tobacco product to zero.

14          “(B) CONGRESSIONAL REVIEW.—In ac-

5           subparagraph (A) in previous years if new data  
6           becomes available to that manufacturer. Such  
7           regulations may require that a manufacturer

10          become available during the previous year.

11           “(C) JOINT SUBMISSION.—At the discre-

8                   not harmful in the quantities used under  
9                   the intended conditions of use.

10                  “(4) REGULATORY ACTION.—

11                   “(A) ABSENCE OF A RISK ASSESSMENT.—

12                  Not later than 12 months after the date of en-

20                  manufacturer for the ingredient, substance, or  
21                  compound.

25                  PROVAL, OR DISAPPROVAL.—The Secretary

1 shall approve or disapprove of, or condi-  
2 tion, the use of the ingredient, substance,  
3 or compound that was the subject of the  
4 assessment under this subsection within  
5 180 days of the date on which the health  
6 risk assessment is received and provide no-  
7 tice of such approval, conditional approval,  
8 or disapproval to the manufacturer. The  
9 manufacturer may continue to use ingredi-  
10 ents, substances, or compounds that are  
11 the subject of such an assessment until the  
12 Secretary disapproves or conditions such  
13 ingredient, substance, or compound. The  
14 Secretary shall establish a procedure to  
15 allow manufacturers adequate time to com-

6           “(iii) GENERAL APPLICABILITY.—At  
7           the discretion of the Secretary, the ap-  
8           proval, conditional approval, or disapproval

11          tion be made generally applicable to to-  
12          bacco product manufacturers or a sub-  
13          group of such manufacturers. In the case  
14          of a conditional approval, the Secretary  
15          shall develop a procedure to enable manu-  
16          facturers to certify that the condition will  
17          be complied with.

18          “(iv) INACTION BY SECRETARY.—If  
19          the Secretary fails to act with respect to  
20          an assessment during the period referred  
21          to in clause (i), the manufacturer submit-  
22          ting the assessment may continue to use  
23          the ingredient, substance, or compound in-  
24          volved until such time as the Secretary  
25          makes a final decision, or the succeeding

1 annual risk assessment is submitted by the  
2 manufacturer and the ingredient, sub-  
3 stance, or compound is subsequently dis-  
4 approved or conditioned. The Secretary  
5 shall establish a procedure to allow manu-

7 any such condition or disapproval.

16 violation of section 301 if such product is in compli-  
17 ance with such regulation, and the requirements of  
18 sections 904 and 905.

19 “(f) EVALUATION.—The Secretary shall periodically  
20 evaluate tobacco product health risk reduction standards  
21 to determine whether such standards should be amended  
22 to reflect new medical, scientific, or technological informa-  
23 tion.

14 **“SEC. 907. REDUCED RISK TOBACCO PRODUCTS.**

15       “(a) REQUIREMENTS.—

16           “(1) IN GENERAL.—For purposes of this chap-  
17 ter, the term ‘Reduced Risk Tobacco Product’  
18 means a tobacco product that delivers nicotine to the  
19 human body while simultaneously delivering 1 or  
20 more other toxic substances to the human body, and  
21 which the Secretary designates as a Reduced Risk  
22 Tobacco product under paragraph (2).

23           “(2) DESIGNATION.—A product shall be des-  
24 ignated by the Secretary as a Reduced Risk Tobacco  
25 Product if—

1           “(A) the Secretary finds that the product  
2           has the potential to reduce harm to individuals  
3           and overall public health caused by a tobacco  
4           product, based on an application submitted by  
5           the manufacturer of the product (or other re-  
6           sponsible person) that—

7                   “(i) demonstrates, on the basis of  
8                   chemical analysis, that use of such product  
9                   results in ingestion or inhalation of a sub-  
10                  stantially lower yield of toxic substances  
11                  than use of conventional tobacco products  
12                  in the same category as the proposed re-  
13                  duced risk product; and

14                   “(ii) demonstrates, through appro-  
15                   priate testing on animals and humans, that  
16                   use of the product presents substantially  
17                   less risk to human health than use of con-  
18                   ventional tobacco products; and

19           “(B) the manufacturer (or other person) agrees  
20           to conduct studies of the long-term health effects of  
21           such product (in accordance with 1 or more proto-

8 other relevant information;

9           “(B) bears a label, as prescribed by the Sec-  
10 retary, concerning the product’s contribution to re-  
11 ducing harm to health; and

17 after the date on which a tobacco product is designated  
18 as a Reduced Risk Tobacco Product under this section the  
19 Secretary may, after providing an opportunity for an in-  
20 formal hearing, revoke such designation if the Secretary  
21 determines, based on information not available at the time  
22 of the designation, that—

23           “(1) the finding made under subsection  
24 (a)(2)(A) is no longer valid; or

1           “(2) the studies required under subsection  
2           (a)(2)(B) are not conducted on a timely basis.

3           “(c) STUDIES.—The Secretary, in consultation with  
4 the Tobacco Products Scientific Advisory Committee, shall  
5 conduct and support, through grants and contracts, stud-

8 death in the United States resulting from the use of to-  
9 bacco products.

10          “(d) REGULATION AS A NEW DRUG.—Any tobacco  
11 product accompanied by a claim to diagnose, cure, miti-  
12 gate, treat, or prevent a disease, not including statements  
13 that the Secretary may permit for reduced risk tobacco  
14 products under this section, will be subject to regulation  
15 as a new drug under section 505.

16          “(e) DEVELOPMENT OF REDUCED RISK TOBACCO  
17 PRODUCT TECHNOLOGY.—

18           “(1) NOTIFICATION OF SECRETARY.—The man-  
19 ufacturer of a tobacco product shall provide written  
20 notice to the Secretary upon the development or ac-  
21 quisition by the manufacturer of any technology that  
22 would reduce the risk of such products to the health  
23 of the user for which the manufacturer is not seek-  
24 ing designation as a ‘Reduced Risk Tobacco Prod-  
25 uct’ under subsections (a) and (b).

1           “(2) DETERMINATION.—Within 6 months of  
2           the date on which a notice is received by the Sec-

5           notice is likely to result in tobacco products that are  
6           less hazardous to the health of users.

7           “(3) CONFIDENTIALITY.—The Secretary shall,  
8           not later than 180 days after the date of enactment  
9           of this chapter, promulgate regulations to provide a  
10          manufacturer with appropriate confidentiality pro-  
11          tections with respect to technology that is the sub-  
12          ject of a determination under paragraph (2), but in  
13          no case will require the disclosure to the public of  
14          any trade secret or confidential commercial informa-  
15          tion.

16          “(4) LICENSING.—

17                 “(A) IN GENERAL.—With respect to any

6           Such regulations shall contain procedures for  
7           the resolution of fee disputes between manufac-  
8           turers under this subparagraph through the use  
9           of expert arbitrators.

10       “(f) REQUIREMENT OF MANUFACTURE AND MAR-  
11       KETING.—

12           “(1) PURPOSE.—It is the purpose of this sub-  
13           section to provide for a mechanism to create incen-  
14           tives that help ensure that tobacco products that are  
15           designed to be less hazardous to the health of users  
16           are developed, tested, and made available to consum-  
17           ers.

18           “(2) DETERMINATION.—Upon a determination  
19           by the Secretary that the manufacture of a tobacco  
20           product that is less hazardous to the health of users  
21           is technologically and commercially feasible, the Sec-  
22           retary may, in accordance with this subsection and  
23           through the issuance or amendment of a health risk  
24           reduction standard under section 903—

9           “(4) as requested, review other safety, depend-

9           “(a) APPLICATION OF SECTION.—

10           “(1) IN GENERAL.—Not later than 60 days  
11 after the effective date of any regulation under this  
12 chapter establishing, amending, or revoking a health  
13 risk reduction standard for a tobacco product, any  
14 person adversely affected by such regulation may file  
15 a petition with the United States Court of Appeals  
16 for the District of Columbia or for the circuit where-  
17 in such person resides or has its principal place of  
18 business for judicial review of such regulation. A  
19 copy of the petition shall be transmitted by the clerk  
20 of the court to the Secretary or other officer des-  
21 ignated by him for that purpose.

22           “(2) RECORD OF PROCEEDING.—The Secretary  
23 shall file in the court under paragraph (1) the  
24 record of the proceedings on which the Secretary

1 based the regulation involved as provided for in sec-  
2 tion 2112 of title 28, United States Code.

3 “(3) DEFINITION.—For purposes of this sec-

13 tion, as being relevant to such regulation.

14 “(b) ADDITIONAL DATA, VIEWS, AND ARGUMENTS.—  
15 If the petitioner applies to the court under this section  
16 for leave to adduce additional data, views, or arguments  
17 respecting the regulation being reviewed and shows to the  
18 satisfaction of the court that such additional data, views,  
19 or arguments are material and that there were reasonable  
20 grounds for the petitioner’s failure to adduce such data,  
21 views, or arguments in the proceedings before the Sec-  
22 retary, the court may order the Secretary to provide addi-  
23 tional opportunity for the oral presentation of data, views,  
24 or arguments and for written submissions. The Secretary  
25 may modify such findings, or make new findings by reason

1 of the additional data, views, or arguments so taken and  
2 shall file with the court such modified or new findings,  
3 and the recommendations of the Secretary, if any, for the

7       “(c) STANDARD FOR REVIEW.—Upon the filing of the  
8 petition under subsection (a) judicial review of a regula-

19 certiorari or certification, as provided for in section 1254  
20 of title 28, United States Code.

21       “(e) OTHER REMEDIES.—The remedies provided for  
22 in this section shall be in addition to and not in lieu of  
23 any other remedies provided for by law.

24       “(f) STATEMENT OF REASONS.—To facilitate judicial  
25 review under this section or under any other provision of

1 law of a regulation issued under this chapter, each such  
2 regulation shall contain a statement of the reasons for its  
3 issuance and the basis, in the record of the proceedings  
4 held in connection with its issuance, for its issuance.

5 **“SEC. 911. AUTHORITY TO ASSESS AND USE FEES.**

6       “(a) **IN GENERAL.**—The Secretary shall, not later

12 under this chapter.

13       “(b) **TOBACCO PRODUCT FEE.**—The Secretary shall

20 where the Secretary does not receive payment of a fee as-  
21 sessed under subsection (b) within 30 days after it is due,  
22 such fee shall be treated as a claim of the United States  
23 Government subject to subchapter II of chapter 37 of title  
24 31, United States Code.

1 from or in addition to, any requirement applicable  
2 under sections 902, 903, 904, 905, and 907.

11 oral hearing, exempt from subsection (a), under such con-  
12 ditions as may be prescribed in such regulation, a require-  
13 ment of such State or political subdivision applicable to  
14 a tobacco product if—

15 **“(1)** the requirement is more stringent than a  
16 requirement applicable under the provisions de-  
17 scribed in subsection (a)(3) which would be applica-  
18 ble to the tobacco product if an exemption were not  
19 in effect under this subsection; or

20 **“(2)** the requirement—

21 **“(A)** is required by compelling local condi-  
22 tions; and

23 **“(B)** compliance with the requirement  
24 would not cause the tobacco product to be in

1 violation of any applicable requirement of this  
2 chapter.

3 **“SEC. 913. RECALL AUTHORITY.**

4 “(a) IN GENERAL.—If the Secretary finds that there  
5 is a reasonable probability that a tobacco product has been  
6 distributed in violation of this chapter in a manner that  
7 would pose a greater threat to public health than the  
8 threat normally posed to public health by similar tobacco  
9 products, the Secretary shall issue an order requiring the  
10 appropriate person (including the manufacturers, import-  
11 ers, distributors, or retailers of the product) to imme-  
12 diately cease distribution of such product. The order shall  
13 provide the person subject to the order with an oppor-  
14 tunity for an informal hearing, to be held not later than  
15 10 days after the date of the issuance of the order, on  
16 the actions required by the order and on whether the order  
17 should be amended to require a recall of such product.  
18 If, after providing an opportunity for such a hearing, the  
19 Secretary determines that inadequate grounds exist to  
20 support the actions required by the order, the Secretary  
21 shall vacate the order.

22 “(b) AMENDMENT TO ORDER.—

23 “(1) IN GENERAL.—If, after providing an op-  
24 portunity for an informal hearing under subsection  
25 (a), the Secretary determines that the order should

1 be amended to include a recall of the tobacco prod-  
2 uct with respect to which the order was issued, the  
3 Secretary shall, except as provided in paragraphs (2)  
4 and (3), amend the order to require a recall. The  
5 Secretary shall specify a timetable in which the to-  
6 bacco product recall will occur and shall require  
7 periodic reports to the Secretary describing the  
8 progress of the recall.

9 “(2) LIMITATIONS.—An amended order under  
10 paragraph (1)—

11 “(A) shall not include recall of a tobacco  
12 product from individuals; and

13 “(B) shall provide for notice to individuals  
14 subject to the risks associated with the use of  
15 such product.

16 **“SEC. 914. SEVERABILITY AND STATEMENT OF AUTHORITY.**

17 “(a) SEVERABILITY.—If any provision of this chapter  
18 or the application thereof to any person or circumstance  
19 is held invalid, the invalidity shall not affect the other pro-  
20 visions of this chapter and the application of such provi-  
21 sion to other persons or circumstances shall not be af-  
22 fected thereby.

23 “(b) TECHNICAL STATEMENT OF AUTHORITY.—The  
24 regulations describing the general provisions and the re-

20 to its authority under sections 5 and 12 of the Federal  
21 Trade Commission Act.

The Honorable James M. Jeffords  
Chairman  
Committee on Labor and Human Resources  
428 Dirksen Senate Office Building  
Washington, D.C. 20510-6300

Dear Senator Jeffords:

I write on behalf of Philip Morris Companies Inc., RJR Nabisco, Inc., Lorillard Tobacco Company, Brown & Williamson Tobacco Corporation, and United States Tobacco Company.

We have had an opportunity to review your mark of S. 1648, the Preventing Addiction to Smoking Among Teens Act. Unfortunately, the proposed substitute has not addressed any of the concerns the industry expressed about the bill as introduced. If anything, the substitute has enhanced our concerns, and represents a significant step backward in efforts to achieve comprehensive tobacco legislation. The industry cannot support any legislation that is so fundamentally flawed and involves such drastic infringements of its constitutional rights.

Many aspects of the proposed substitute are problematic. Industry representatives have raised these issues with your staff, and I will not attempt to list them here. The most troublesome, however, include (but are not limited to) the following areas:

- **Advertising.** The substitute would impose advertising restrictions by legislation, which would violate the First Amendment. As virtually all constitutional scholars who have addressed the issue have recognized, the extensive advertising restrictions to which the tobacco industry has agreed must be implemented through enforceable agreements with the federal government and the states. They cannot be imposed by statute or rule.
- **Look-back.** As part of the tobacco settlement, the industry agreed to a look-back provision that would require it to pay annually, up-front, the total value of the anticipated lifetime "profits" that would be earned from sales to any underage tobacco users in excess of the look-back targets. Even though the industry would comply fully with the many measures mandated to reduce underage tobacco use, the newly proposed

look-back mechanism could still confiscate tens of billions of dollars from the industry annually if the massive reductions in underage tobacco use were not fully achieved.

The amounts and allocation method of the proposed substitute could automatically operate to put the entire industry out of business and confiscate all of its assets, despite the industry's scrupulous adherence to the new regime. Such a confiscatory taking — without fault — cannot constitutionally be effected without the industry's consent. The industry cannot possibly consent to legislation containing the look-back provisions included in the substitute.

- **Trade secrets.** The substitute would permit FDA to disseminate the precise brand-by-brand recipes for each company's products -- highly valuable and competitively sensitive trade secrets that the companies would be compelled to submit to FDA. Such destruction of the companies' intellectual property, without just compensation, would violate the Taking Clause of the Fifth Amendment.
- **Back-door Prohibition.** The substitute would allow FDA to establish a back-door ban on tobacco products by establishing performance standards or ordering the manufacturers to produce "reduced risk" products that are not technologically feasible or will not be accepted by consumers. No one in this debate has advocated prohibition and it should not be provided for indirectly.
- **Preemption.** The substitute would largely abandon the 30-year policy of national uniformity in the regulation of cigarette advertising and labeling. It would overturn the *Cipollone* decision, and it would allow states to require health warnings in advertisements in addition to those required by the bill, and even to ban what little advertising the bill would continue to permit.
- **Documents.** The substitute appears to seek the public release of internal company documents containing trade secrets and communications protected by the attorney-client privilege. In addition to the Taking Clause violation, this automatic abrogation of the attorney-client privilege would abridge the companies' constitutional right to assistance of counsel.

The national tobacco settlement negotiated by the Attorneys General, representatives of the public health community, attorneys for class-action plaintiffs, and the tobacco industry marked a monumental step toward resolving the many issues relating to tobacco that have plagued our nation for decades, and achieving many of the public health community's most important goals, including steps intended to accomplish sharp reductions in underage tobacco use. While Congress and the President ultimately must determine the precise terms of any

national tobacco legislation, the fact is that the basic elements of the settlement agreement represent a carefully balanced compromise among parties with divergent and even antagonistic interests, which would significantly advance public health objectives while allowing the tobacco industry to move into the future on a new footing.

Any measure as extreme and unbalanced as the proposed substitute places any resolution of these issues in jeopardy. We are certain that this is not your intention. We hope you will reconsider the elements in the substitute that we have identified above, and the others that we have raised with your staff, before you proceed to markup.

As always, we would be happy to discuss this or any other issue with you.

Sincerely,

J. Phil Carlton

Senator Unveils Public Health Tobacco Bill

By Joanne Kenen

WASHINGTON (Reuters) - A key senator has introduced a tobacco bill that expands the authority of the Food and Drug Administration but does not address such touchy issues as how much cigarettes should cost or whether the industry should get any protection from lawsuits.

Sen. James Jeffords, a Vermont Republican and chairman of the Senate Labor and Human Relations Committee, drafted a bill that goes further in some respects than the proposed settlement negotiated by the tobacco companies and the states suing them last June.

It does not address financial and legal questions outside his committee's jurisdiction.

The Jeffords bill gives the FDA greater authority over nicotine than contemplated in the industry-backed proposal, and it significantly increases the penalties the companies would have to pay if they fail to meet targets for reducing youth smoking.

Instead of \$80 million for each percentage point off the goal, penalties would be as high as \$500 million a point.

Under current law, the FDA regulates products that must be "safe and effective." Since Jeffords said Thursday it is "ludicrous" to try to have cigarettes fit such criteria, his bill sets up a new category of FDA authority to cover tobacco and nicotine.

The FDA could reduce nicotine levels if the scientific evidence warranted it, but could not ban tobacco products. Such a decision, should it ever occur, would require Congressional approval, he said.

"The bill gives the FDA strong, effective and unambiguous authority to regulate cigarettes and nicotine," Jeffords told a news conference, also attended by Republican co-sponsors Sens. Susan Collins of Maine and Mike Enzi of Wyoming.

Enzi is also pushing a separate bill that would create a fund to pay smokers' medical bills and take the burden off Medicare and Medicaid.

However, in testimony before Jeffords' committee earlier this week, FDA deputy commissioner for policy William Schultz criticized some of the mechanisms Jeffords used. Schultz said it would "place

unacceptable limits on FDA's authority and future flexibility to regulate tobacco products."

By putting certain provisions into federal law, rather than agency-issued regulations, the FDA would be limited in its "authority to make future adjustments in regulating tobacco products" or to react to new scientific developments.

The bill bans cigarette vending machines and requires states to pass, and enforce, strict laws prohibiting the sale and distribution of tobacco products to minors. Underage smokers would also face civil penalties themselves.

Some public health experts also objected to Jeffords move to put the CDC in charge of state enforcement efforts, not the FDA which has traditionally had more regulatory authority.

Under the Jeffords bill, the industry would make payments, which Jeffords did not characterize as a tax, that would fund a Tobacco Settlement Trust Fund. It would pay for anti-smoking programs and programs to help people quit smoking and related public health initiatives. Some money would also go to smoking-related research at the National Institutes of Health and the Centers for Disease Control.

It would require the Occupational Safety and Health Administration to set rules within a year about indoor air quality in the workplace.
