

NLWJC - Kagan

DPC - Box 058 - Folder-011

Washington DC - General

2/20/97 DC Mtg

Go through plan w/ Pres.

Some concerns:

- 1) DC coming out ahead?
- ⇒ 2) Sentencing. May be an opp. of determinate sentencing
- 3) Fed payment - DC wants to keep all or part
(FR - OK to make side ag re this)

Issues on what's not in plan

- Money for prisons / CRT but - not for ex

⇒ - not the over police
(opposed to federalizing
police -
FR pushing CRT to step up
active in police.)

Risk - Do we this - if city doesn't perform -
P will say 'what changed?'

Rubin: EHV says even if this, have been and continue
to erode.

Panel: Stabilization; not recovery.

our plan wait for P. to move back.

If want to accomplish her purposes - need to
do stuff on ex/police - this plan doesn't do it.

EB: This is the discussion the Pres wants to have

Panel - even dev part of this is as big as anything we've
done in empowerment communities

At least as id as any E2 we've ever proposed

Rams: can be new too small
now may not be able to finance larger one
perhaps we should do something about this.

RR: To really turn around a city - mind boggling cost.

FR: Even our plan depends on city why - which it
doesn't.
should have more modest goal - policy done -
just give them an op to succeed.

EB: Needs to hear about some
other options.

MO: He talks about ed/crime area + over
what more can we do - bully pulpit
Crime area
Ed area

FR: How late in our thinking - bc we wanted to
respect home rule
could just put it into receivership.

DB: Even tech assistance - it has
emerged - some this with.

EB - little time to plan
what needs to be done
problems in doing it
any options - smaller/more marginal things

AL - 1 event every 2 mos for principals
- max cabinet participation throughout March
- meeting every Sat in April
also on Thursday

DBS - Have to calibrate us, to chances of success.
Then will drive our actions/contract.
