**[Making Cities Safer...before
disaster strikes poster]**

Making Cities Safer...

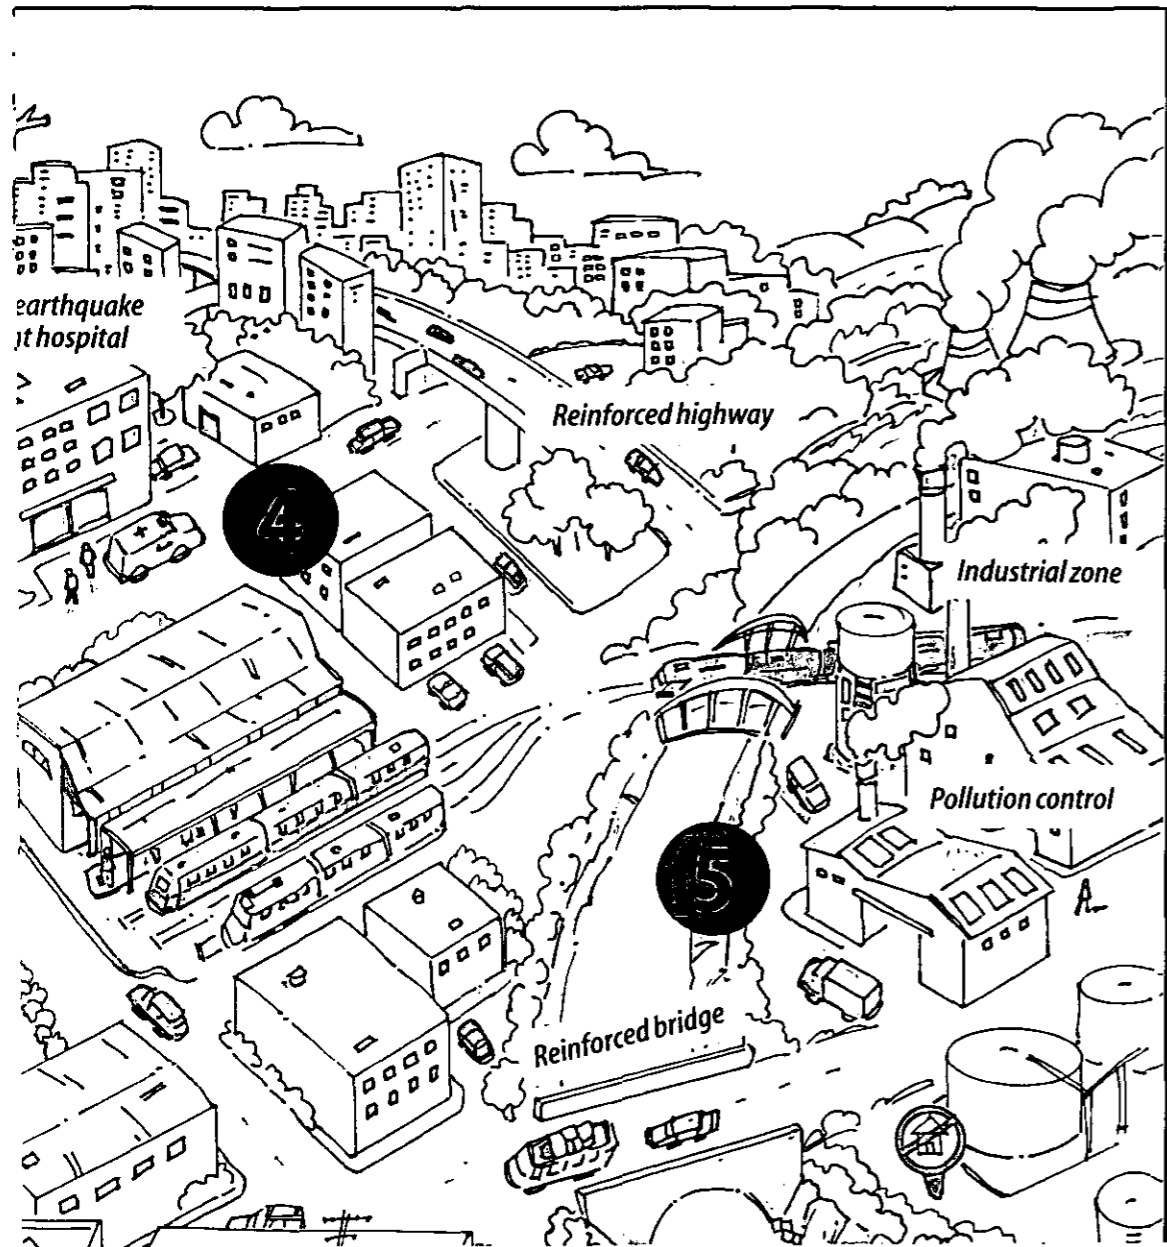

Cities at Risk (unsafe practices)

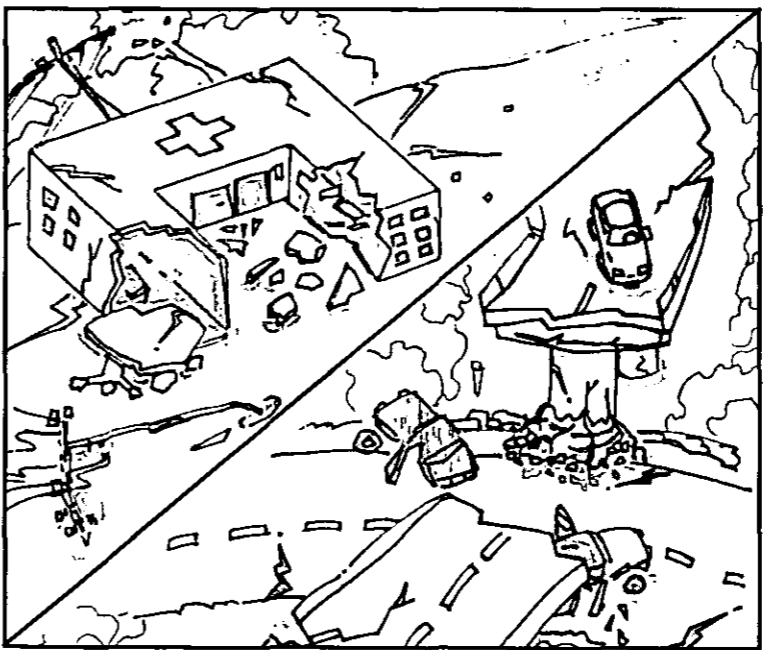

● Makeshift housing on unstable slopes.
● Deforestation

before disaster strikes

Cities at Risk (unsafe practices)

4 Inappropriately built and poorly maintained essential facilities and services

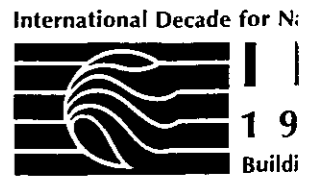

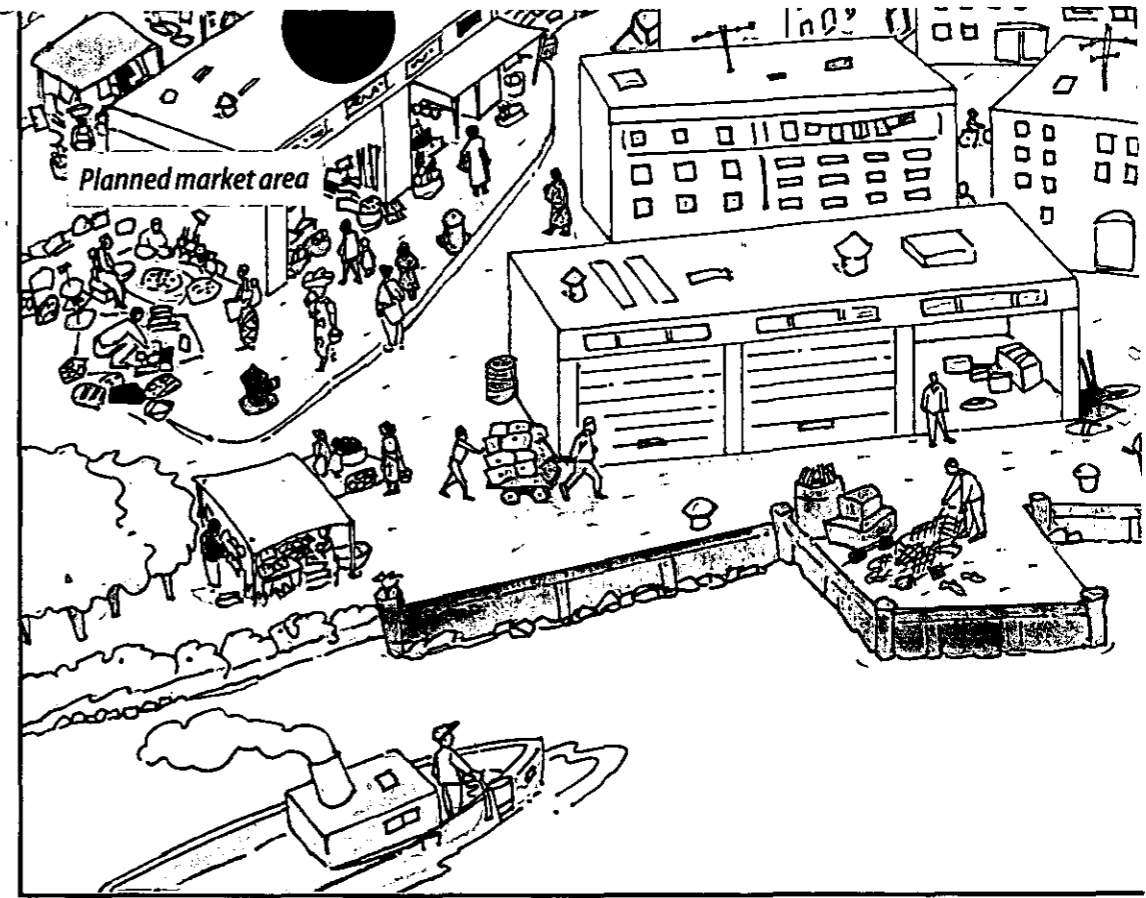

CLINTON LIBRARY PHOTOCOPY

● Inadequate emergency planning and warning. Unmarked evacuation routes.

● Lack of urban planning. No safety measures. Lack of open space.

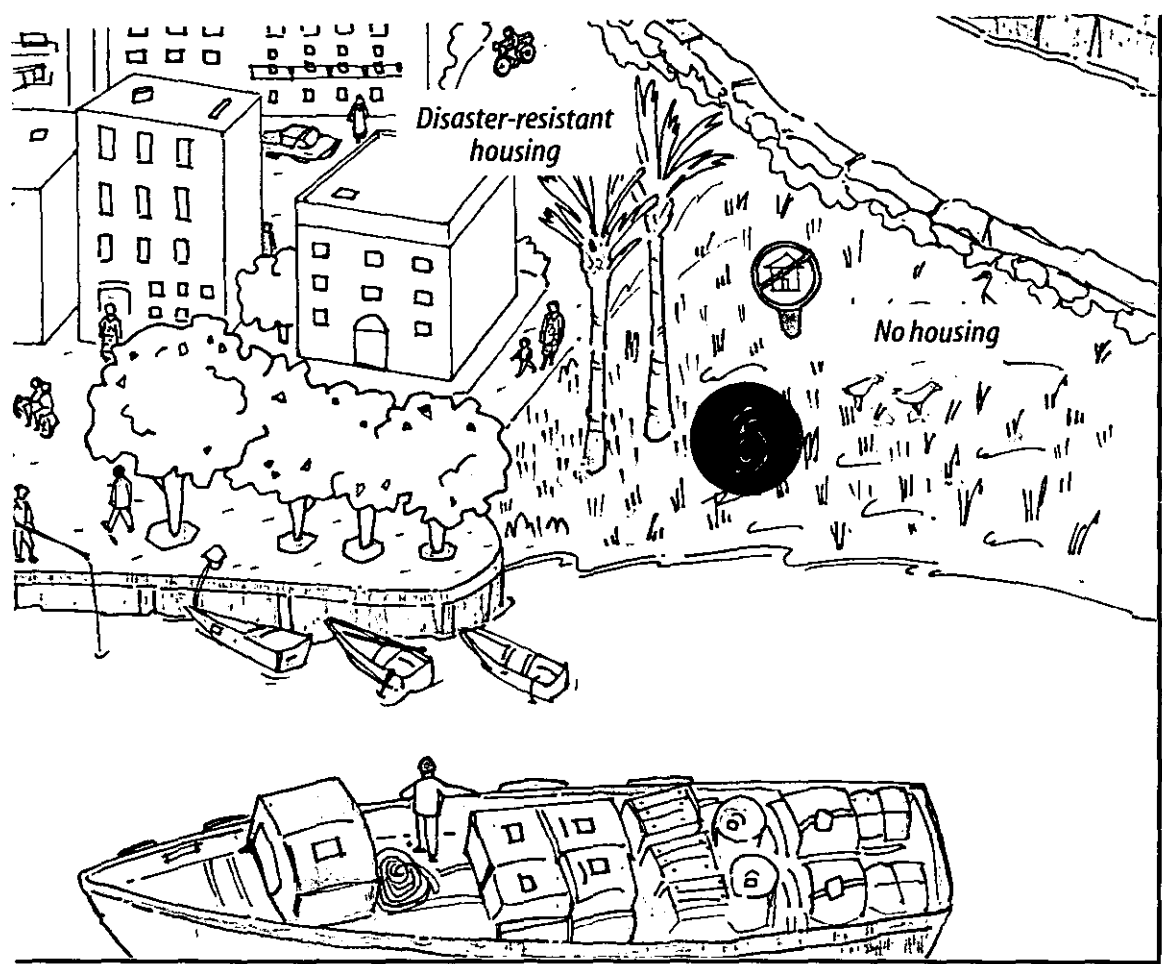

A Stop Disasters initiative as part of the 1996 Cities at Risk Awareness

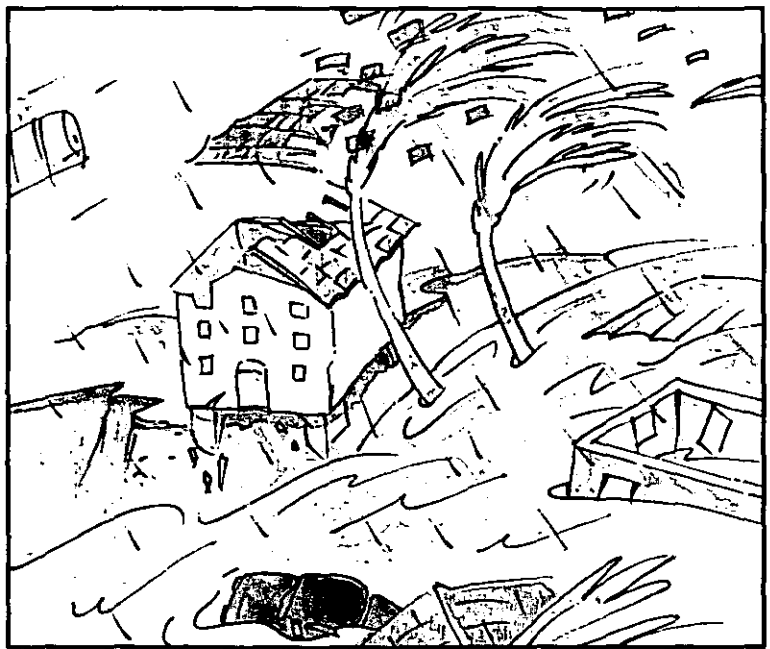

Supported by the UK Overseas Development Administration. Concept adapted from a poster by

Design: Marilyn Langfeld

5 Housing and industry too close to each other. Bad management of industrial wastes. Technological disaster risks.

6 Inappropriately constructed buildings in high risk locations.
