

## Qualified Facilities 27-Aug-12

DRMS has reviewed these facilities in the past and has no reason to believe that they do not meet the standards specified in DRMS contracts. Inclusion of facilities to the Qualified List does not constitute a determination of the acceptability of these facilities for the requirements of any specific DRMS contract or relieve the contractor of any responsibility for performing specific DRMS contracts in accordance with each contract's terms and conditions.

"HAZARDOUS" Facilities are RCRA permitted TSDFs qualified for RCRA and non-RCRA waste

"NOT REGULATED" Facilities are non-RCRA facilities qualified for non-RCRA wastes. Occasionally, when authorized by the applicable regulatory authority, "NR" facilities may be qualified for select RCRA or state regulated hazardous wastes.

"PCB" Facilities are TSCA permitted facilities qualified for PCB wastes.

"HAZARDOUS WASTE PCB" Facilities are both TSCA and RCRA permitted facilities qualified for PCB, RCRA and non-RCRA waste

"UNIVERSAL WASTE" Facilities are Universal Waste Handler/Destination facilities qualified for Universal wastes.

C.37 / C.2.4.1 - Facilities with a "37" are those facilities which have a current DRMS approved Fuels Blending Plan.

C.39 / C.2.4.1 - Facilities with a "39" are those facilities which have a current DRMS approved Antifreeze Recycling Plan.

C.68 / C.2.4.1 - Facilities with a "68" are those facilities which have a current DRMS approved Battery Recycling Plan.

C.72 / C.2.4.1 - Facilities with a "72" are those facilities which have a current DRMS approved Fluorescent Light Plan.

Each contractor must submit their Plan per clause per contract. The Plan is good for the life of the contract and will be filed in the official contract folder. One contractor cannot piggy-back on to another contractor's Plan. A contractor may send one Plan with a cover letter listing each of their contracts that will use the Plan.
