## Table 5.1a Petroleum and Other Liquids Overview, Selected Years, 1949-2010

<sup>1</sup> Crude oil (including lease condensate) production; natural gas plant liquids production; and processing gain (refinery and blender net production minus refinery and blender net inputs). Beginning in 1981, also includes fuel ethanol (minus denaturant) production. Beginning in 2001, also includes biodiesel production.

<sup>2</sup> Net imports equal imports minus exports. Includes petroleum (excluding biofuels) net imports. Beginning in 1993, also includes fuel ethanol (minus denaturant) net imports. Beginning in 2001, also includes biodiesel net imports. Beginning in 2009, also includes a small amount of other biofuels (such as bio-jet fuel and bio-ETBE) imports.

<sup>3</sup> Includes petroleum and biofuels stock withdrawals (stock change multiplied by -1); petroleum adjustments; and biodiesel balancing item.
<sup>4</sup> Includes estimated consumption of petroleum and, beginning in 1981, estimated consumption of fuel

<sup>4</sup> Includes estimated consumption of petroleum and, beginning in 1981, estimated consumption of fuel ethanol minus denaturant. Beginning in 2001, also includes estimated consumption of biodiesel. Techniques used to estimate consumption vary depending on the product. Petroleum product supplied is used as an approximation of petroleum consumption, which is adjusted to exclude biofuels in order to prevent double counting. See Note 1, "Petroleum Products Supplied and Petroleum Consumption" at end of Section 5 and footnote 4 on Table 1.3. Estimated consumption of fuel ethanol minus denaturant in 2010 is calculated as fuel ethanol refinery and blender net inputs minus fuel ethanol adjustments minus the amount of denaturant in fuel ethanol consumed. For other years, see sources in Table 10.3. Estimated consumption of biodiesel in 2010 is calculated as biodiesel production plus biodiesel net imports minus biodiesel stock change. For other years, see sources in Table 10.4.

P=Preliminary.

Web Pages: • See http://www.eia.gov/totalenergy/data/annual/#petroleum for all data beginning in 1949. • For related information, see http://www.eia.gov/petroleum/ and http://www.eia.gov/renewable/.

Sources: **Production**: Tables 5.1b, 10.3, and 10.4. **Net Imports**: Tables 5.1b, 10.3, and 10.4; and U.S. Energy Information Administration (EIA), *Petroleum Supply Annual (PSA), Petroleum Supply Monthly (PSM),* and earlier publications—see sources for Table 5.1b. **Balancing Item**: Calculated as estimated consumption minus production and net imports. **Estimated Consumption**: Tables 5.1b, 10.3, and 10.4; and EIA, PSA, PSM, and earlier publications—see sources for Table 5.1b.
