

PY 2003 WIA Summary Report—Younger Youth
(Derived from PY 2003 WIASRD Records)

The following guidelines should be used when reviewing the Younger Youth summary report:

- The first section of the summary is the only section where raw numbers of exiters are provided; all other sections provide percentages.
- Users are cautioned to note that the reported percentages are based on the valid information that was submitted by states. Some characteristic and outcome data is missing from the file because not all data elements are required for all exiters, nor are all data elements correctly submitted. Therefore, if one calculates the raw number of individuals with a given characteristic by using the percentage provided and the total number of exiters, one must make the assumption that the missing information, if provided, would have been provided in the same proportions to the valid information.
- The section on outcomes represents a different cohort of exiters than the characteristic data so that a full year of outcomes can be reported. Additionally, because not all exiters are included in the performance measures per exclusions that are part of the definitions of these measures, users should not calculate the raw number of individuals who achieved these outcomes from the exiter counts.

Note: Characteristics and services are based on exiters from April 2003 to March 2004 in the PY 2003 WIASRD Submission. Outcomes are based on varying exit groups as specified. Missing data are excluded from some percentages.

¹ Among exiters from April 2003 to June 2003.

² All outcomes exclude individuals who were institutionalized, deceased, or had health/medical that precluded continuation of services or entry into employment at exit.

³ Goal attainment rate is calculated for all goals set for exiters from April 2003 to March 2004, regardless of the program year in which they were attained or expired. This calculation differs from the performance measure.
