

# Save energy and money with Energy Insights Online.

The “how” and “when” of electricity consumption can return huge savings

Energy Insights Online monitors your electricity consumption via special recording meters and converts this data into simple, easy-to-understand usage graphs and reports that you can access anywhere via the Internet.

- Develop more effective curtailment strategies
- Examine energy usage trends
- Compare energy usage history
- Lower monthly demand charges
- Improve "cost-based accounting" procedures
- And more!
- Validate machine or process efficiency upgrades

The screenshot shows the 'ENERGY USAGE DATA' interface. It includes a 'Request Management' section with a 'Request Management' icon and a 'Customize Request Listing' section with an 'Export to Excel' button. Below these is a table with columns for Request ID, Building Name, Request Creation Date, Status, Start Date, End Date, Units, Confirmed, and Owned By. The table lists several buildings with their respective request details.
