No. 11-134

July 20, 2011

NRC'S ACRS SUBCOMMITTEE ON PLANT OPERATIONS AND FIRE PROTECTION TO MEET JULY 28 IN ATLANTA, GA.

The Nuclear Regulatory Commission's Advisory Committee on Reactor Safeguards (ACRS) Subcommittee on Plant Operations and Fire Protection will hold a public meeting on Thursday, July 28, in Atlanta, Ga., and meet with Region II and its stakeholders to discuss the construction inspection program, the reactor oversight program, and other items of mutual interest.

The meeting will be held in Room M301 of the Atlanta Marriott at 265 Peachtree Center. Thursday's sessions will run from 8:30 a.m. through 5 p.m.; portions of the meeting may be closed to discuss proprietary information, as well as organizational and personnel matters.

The ACRS advises the Commission, independently from the NRC staff, on safety issues related to the licensing and operation of nuclear power plants as well as those issues in the areas of health physics and radiation protection. The ACRS subcommittee will gather information, analyze relevant issues and facts, and formulate proposed positions and actions as appropriate for deliberation by the full ACRS.

A complete agenda is available on the NRC's website. Anyone with questions or those wishing to make public statements during the meeting should contact Ilka Berrios at 301-415-3179.

###

NOTE: Anyone wishing to take photos or use a camera to record any portion of a NRC meeting should contact the Office of Public Affairs beforehand.
