SECTION G

CONTRACT ADMINISTRATION DATA

G.1 CORRESPONDENCE PROCEDURES

To promote timely and effective administration, correspondence submitted under this Contract shall include the Contract number and be subject to the following procedures:

- (a) Technical Correspondence. Technical correspondence (as used herein, excludes technical correspondence where patent or technical data issues are involved and correspondence which proposes or otherwise involves waivers, deviations, or modifications to the requirements, terms, or conditions of this Contract) shall be addressed to the U.S. Department of Energy (DOE) ORP Contracting Officer's Representative (COR), with an information copy addressed to the DOE-ORP Contracting Officer and DOE-ORP Correspondence Control.
- (b) Other Correspondence. All other correspondence, except Contractual issues, shall be addressed to the COR with information copies of the correspondence to the Contracting Officer (CO), ORP Manager, DOE-ORP Correspondence Control, and the U.S. Department of Energy, Richland Operations Office (RL) Patent Counsel (when patent or technical data issues are involved). For Contractual issues (includes Contractor initiated correspondence and Contractor responses to CO-signed correspondence), the correspondence shall be addressed to the CO, with information copies to the ORP Manager and the others as listed above. G.9 REPORTS AND DRAWINGS

The following requirements apply to submission of all data deliverables.

- (a) The Contractor shall ensure that all data deliverables are as follows:

- (1) Legible, sequentially numbered, and securely bound; and
 - (2) Clear, concise English using precise technical writing.
- (b) The Contractor shall prepare and submit reports as follows:
- (1) Title page or cover sheet that identifies author, deliverable(s), and date;
 - (2) Text on standard 8 ½" x 11" letter size paper (one-way foldouts or larger sizes may be included with report text); and
 - (3) Other requirements identified in Section C, Standard 1, *Management Products and Controls*.
- (c) The Contractor shall prepare and submit drawings in accordance with American National Standards Institute (ANSI)/American Society of Mechanical Engineers (ASME) Standard Y-14 series, Drafting Standards and shall be assigned a unique number by the Contractor.
- (d) The Contractor shall submit deliverables, as follows:
- (1) One reproducible hard copy with attachments and enclosures and one electronic copy of all to the COR. (M127)
 - (2) One reproducible hard copy with attachments and enclosures to the DOE-ORP Correspondence Control.
 - (3) All electronic files shall be editable and have all functions normally available in the software for which the data was originally generated. Electronic files will be complete and consist of all data used or developed by the Contractor to generate the submission. The Contractor shall also provide a list of the electronic files included in the submission, documenting the specific deliverable for which the electronic files pertain, and the software and version used. In the event that the Contractor uses an internal proprietary software package, a copy shall be provided to DOE-ORP.
- (e) The Contractor shall maintain configuration control over changes to information provided to the Contractor by DOE-ORP or Government contractors, including and not limited to drawings, specifications, electronic files, letter reports, calculations, analysis reports, etc., as appropriate, using Contractor's established policies and procedures. The Contractor shall assign their own identifying number to information that they either create or change.

G.10 SAFETY REGULATION OFFICIAL

- (a) The Director of the ORP Safety Regulation Division will have the authority for: 1) stopping work if the Contractor fails to provide the required levels of radiological, nuclear, and process safety; 2) authorizing the resumption of work upon completion of corrective actions; and 3) providing regulatory approval relating to authorizing start of construction, and initiation of radiologically hot operations. The Safety Regulatory Official's authority for radiological, nuclear and process safety is independent and distinctly severable from ORP line management organizations. The Safety Regulation Division intends to utilize pre-established processes and action criteria whenever possible in order to minimize the impact to the Contractor. The Contractor may be entitled to an equitable adjustment in Contract target cost, fee elements, schedule, and/or baseline for any additional delay or costs resulting from the issuance of a stop work order hereunder by the Safety Regulation

Division unless the issuance of such stop work order was the result of actions of the Contractor that were not in conformance with the terms of the Contract.

(b) The Safety Regulation Official is:

Mr. William J. Taylor (M103)
Safety Regulation Official
U. S. Department of Energy
Office of River Protection
