JOINT DECLARATIONS

In view of the entry into force of the Agreement between the United States of America and the European Community on Trade in Wine (the "Agreement"), the United States and the Community hereby jointly declare as follows, for so long as the Agreement remains in force.

On wine labelling dialogue

The Parties intend to engage in a constructive dialogue on wine labelling, with a view to contributing to the attainment of an agreement as provided in Article 10(1) of the Agreement. Discussions shall cover any item that either Party wishes to raise, including:

- the proportion of grapes that should derive from a place, variety or vintage year in order that references to such terms may be used on labels, with a view to agreeing to a harmonized level;
- references to category, class or type of wine, with a view to recognizing common terms;
- the specifications, including tolerances and numerical intervals, for references to alcohol percentage, with a view to agreeing on common specifications.

On use of terms in point 1 of Appendix 1 of the Protocol

When any problem arises regarding the use of a term listed in point 1 of Appendix I on U.S. wine labels, the Parties intend to consult each other.

On future wine policy

The Parties intend to enter into a dialogue to better understand each other's wine policy, including any future policy developments. The dialogue may concern elements being discussed in the Doha Development Agenda (DDA), such as export subsidies, tariffs, domestic support and other issues under negotiation. The results of this dialogue may lead to common positions of the Parties in the DDA and could provide a useful insight into any future negotiations under Article 10 of the Agreement.

On future dialogues

The Parties intend to enter into a dialogue on geographical indications in connection with wine, with a view to better understanding each other's policy. In order to provide useful insights into any future negotiations under Article 10 of the Agreement, the Parties intend to enter into a dialogue on the matter of names of origin and the terms in Annex II of the Agreement, with a view to better understanding each other's policy and increasing recognition, as appropriate, of these names and terms in the Community and in the United States.

In addition, the Parties also intend to enter into dialogues on the following matters:

- terms referred to in Article 24 of Commission Regulation (EC) No 753/2002, as amended, with a view to coming to a better understanding of each other's positions on the use of these terms. The Parties are of the view that these terms do not constitute or create a new form of intellectual property;
- wine not covered by the Agreement;
- wine-making practices;
- certification; and
- creation of a joint committee on wine issues.

In relation to bilateral trade

The Parties hereby declare their intention to strive, in good faith and for a reasonable period of time, to resolve any bilateral issues concerning trade in wine, including any issues arising from the operation of Commission Regulation (EC) No 753/2002, as amended, through informal bilateral consultations, rather than through formal dispute settlement mechanisms.

On international cooperation

The Parties intend to conduct an exchange of views on issues related to and raised in plurilateral and multilateral organizations involved with wine matters affecting international trade and on how international cooperation on wine matters might best be structured.

DECLARATION BY THE UNITED STATES

on the use of certain terms with respect to wines exported from the United States

In view of the entry into force of the Agreement between the United States of America and the European Community on Trade in Wine, the United States hereby declares as follows.

The members of the wine producer organizations on July 1, 2005, listed below have each agreed, in respect of the use of the terms listed in Annex II of the Agreement that, for so long as the Agreement remains in force, wine exported from the United States shall be labelled consistent with rules applicable within the territory of the United States unless such labelling is inconsistent with the requirements of the importing Party.
