

CHANGING YOUR ADDRESS

Men who register with Selective Service are required, by law, to inform the Agency whenever they change their address. Such notification must be made within 10 days of moving, and if the man has not yet reached age 26. Men are no longer required to notify Selective Service of address changes once they are 26 years old or older.

Currently, a man must notify Selective Service of a change of address by one of five available methods:

- Submit a change of address online through this Web site. Go to this page address: <https://www.sss.gov/RegVer/wfAddressChange.aspx>, and follow the on-screen directions; or,
- Complete and mail back Selective Service Form B, which is the tear-off "Change of Information" form every man receives in the mail with his registration acknowledgment card, shortly after he registers; or,
- Obtain, complete, and mail back a Selective Service change of address form (SSS Form 2) at any post office; or,
- Call toll free during business hours; 1-888-655-1825 and press "00" after connecting to speak with an operator; or,
- Send e-mail to dmcsupport@sss.gov. The Subject Line of the e-mail message should be "Change of Address Notice," and the message must include the man's name, social security number, date of birth, old address and new address.

NOTE: When reporting an address change, a man may request for a new registration acknowledgment card, which will be in the form of a letter, showing the new address. Due to the volume of requests, it takes about 30 days to send a new registration acknowledgment letter.
