

Register at 51 FR 31901. The weight of imported pork and pork products is converted to a carcass weight equivalent by utilizing conversion factors which are published in the Department's Statistical Bulletin No. 697 "Conversion Factors and Weights and Measures." These conversion factors take into account the removal of bone, weight lost in cooking or other processing, and the nonpork components of pork products. Secondly, the carcass weight equivalent is converted to a live animal equivalent weight by dividing the carcass weight equivalent by 70 percent, which is the average dressing percentage of porcine animals in the United States. Thirdly, the equivalent value of the live porcine animal is determined by multiplying the live animal equivalent weight by an annual average market price for barrows and gilts based on information reported by USDA, AMS, LGMN Branch. Finally, the equivalent value is multiplied by the applicable assessment rate of 0.45 percent due on imported pork and pork products. The end result is expressed in an amount per pound for each type of pork or pork product. To determine the amount per kilogram for pork and pork products subject to assessment under the Act and Order, the cent per pound assessments are multiplied by a metric conversion factor 2.2046 and carried to the sixth decimal.

The formula in the preamble for the Order at 51 FR 31901 contemplated that it would be necessary to recalculate the equivalent live animal value of imported pork and pork products to reflect changes in the annual average price of domestic barrows and gilts to maintain equity of assessments between domestic porcine animals and imported pork and pork products.

The average annual market price decreased from \$51.30 per hundredweight in 1997 to \$31.82 per hundredweight in 1998, a decrease of about 38 percent. This decrease would result in a corresponding decrease in assessments for all HTS numbers listed in the table in § 1230.110, 63 FR 45935; August 28, 1998, of an amount equal to sixteen-hundredths of a cent per pound, or as expressed in cents per kilogram, thirty-three hundredths of a cent per kilogram. Based on the most recent available Department of Commerce, Bureau of Census, data on the volume of imported pork and pork products available for the period January 1, 1998, through December 31, 1998, the proposed decrease in assessment amounts would result in an estimated \$888,000 decrease in assessments over a 12-month period.

This proposed rule provides for a 30-day comment period. This comment

period is appropriate because the proposed rule simply provides for an adjustment in the per pound assessment levels on imported pork and pork products to reflect changes in live hog prices which occurred from 1997 to 1998. These live hog prices form the basis for the assessments. This adjustment, if adopted, should be made effective as soon as possible to promote optimum equity.

SUPPLEMENTARY INFORMATION: On May 25, 1999, the Commission received a Petition for Rulemaking from Mary Clare Wohlford, William T. Wohlford and Martin T. Mortimer regarding the Commission's candidate debate regulations at 11 CFR 110.13. Paragraph (c) of that section states, *inter alia*, that "[f]or all debates, staging organization(s) must use pre-established objective criteria to determine which candidates may participate in a debate." *Id.* The petitioners assert that the objective criteria for inclusion in Presidential and Vice Presidential debates should be established by the Commission itself, and not left to the discretion of debate staging organizations. Therefore, the petition urges the Commission to revise this paragraph to set forth "mandatory criteria for participation in Presidential and Vice Presidential Debates." Petition at 1.

Specifically, the petition recommends that the debates be open to any candidate that (1) has the mathematical potential to win the election in that he or she is on the ballot in enough states to earn 270 Electoral College votes; and (2) has proven his or her viability by having spent at least \$500,000 on the campaign by the end of the month preceding the date of the first scheduled debate held on or after September 1 of the election year. In addition, the petition recommends that candidates have equal access to debates held before September 1 without regard to the above requirements.

[Docket No. 99-09]

RIN 1557-AB69

Community Development Corporations, Community Development Projects, and Other Public Welfare Investments

AGENCY: Office of the Comptroller of the Currency, Treasury.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Office of the Comptroller of the Currency (OCC) is proposing to amend part 24, the regulation governing national bank investments that are designed primarily to promote the public welfare. This proposal simplifies the prior notice and self-certification requirements that apply to national banks' public welfare investments; expands the types of investments that a national bank may self-certify by removing geographic restrictions; and permits eligible national banks with assets of less than \$250 million to self-certify any public welfare investment. The OCC is also seeking comment on whether to modify the methods of demonstrating community support or participation currently prescribed by part 24, and whether the OCC could simplify or streamline the procedures and standards contained in part 24. The proposal encourages national banks to make public welfare investments by making it easier to comply with the applicable procedures.

DATES: Comments must be received on or before August 9, 1999.

SUPPLEMENTARY INFORMATION:

Background

The OCC is proposing to amend 12 CFR part 24, which contains the rules relating to national banks' investments in community development corporations (CDCs), community development (CD) projects, and other public welfare investments. Part 24 implements 12 U.S.C. 24(Eleventh), which authorizes national banks to make investments designed primarily to promote the public welfare, including the welfare of low- and moderate-income communities and families, subject to certain percentage of capital limitations. (The investments authorized pursuant to 12 U.S.C. 24(Eleventh) are collectively referred to in this proposal as "public welfare investments"). The purpose of this proposal is to make burden-reducing changes that will make it easier for national banks to use the public welfare investment authority that the statute and regulation provide.

The OCC originally adopted part 24 in 1993 and substantially revised the regulation, pursuant to its Regulation Review Program, in 1996. See 58 FR 68464 (Dec. 27, 1993) (final regulation); 61 FR 49654 (Sept. 23, 1996) (1996 amendments). The 1996 amendments encouraged national banks to make public welfare investments by eliminating unnecessarily burdensome provisions and streamlining the part 24 procedures. Among other things, the 1996 amendments: modified the test for determining whether an investment primarily promotes the public welfare; streamlined the investment self-certification and prior approval
