Reentry Defined

Key Dimensions of Promising Practice

Reentry refers to those activities and tasks that:

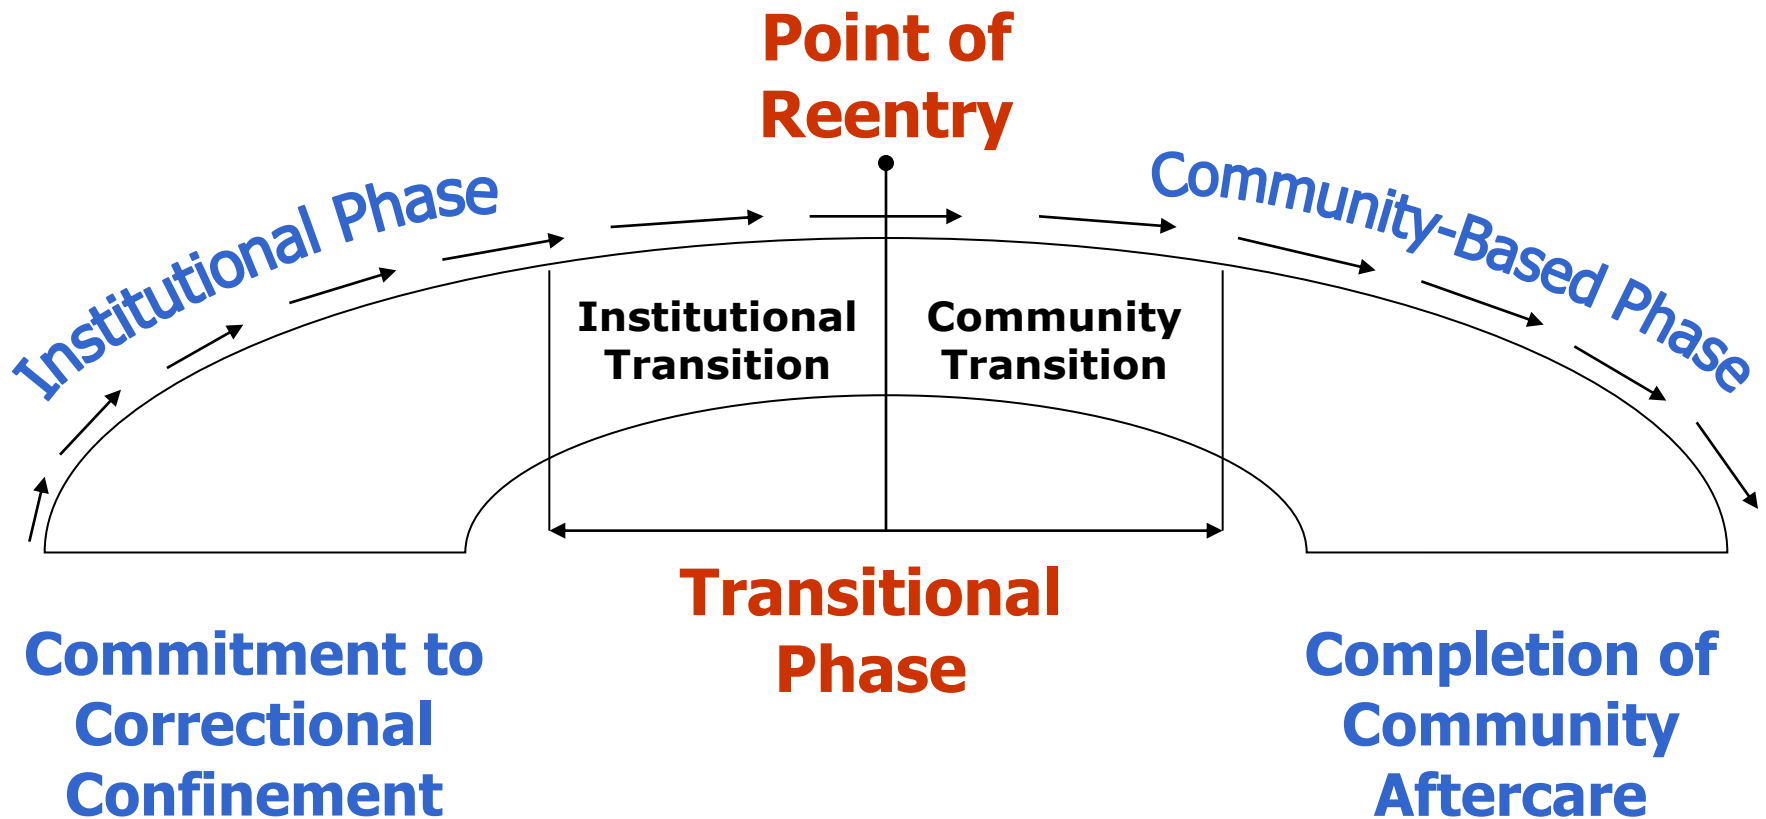

- Prepare out-of-home placed juveniles for reentry into the specific families and communities to which they will return
- Establish the necessary arrangements and linkages with the full range of public and private sector departments/organizations and individuals in the community that can address known risk and protective factors
- Ensure the delivery of prescribed services and supervision in the community

**As this definition implies,
the residential facility and the community
have a critical role to play in reentry.**

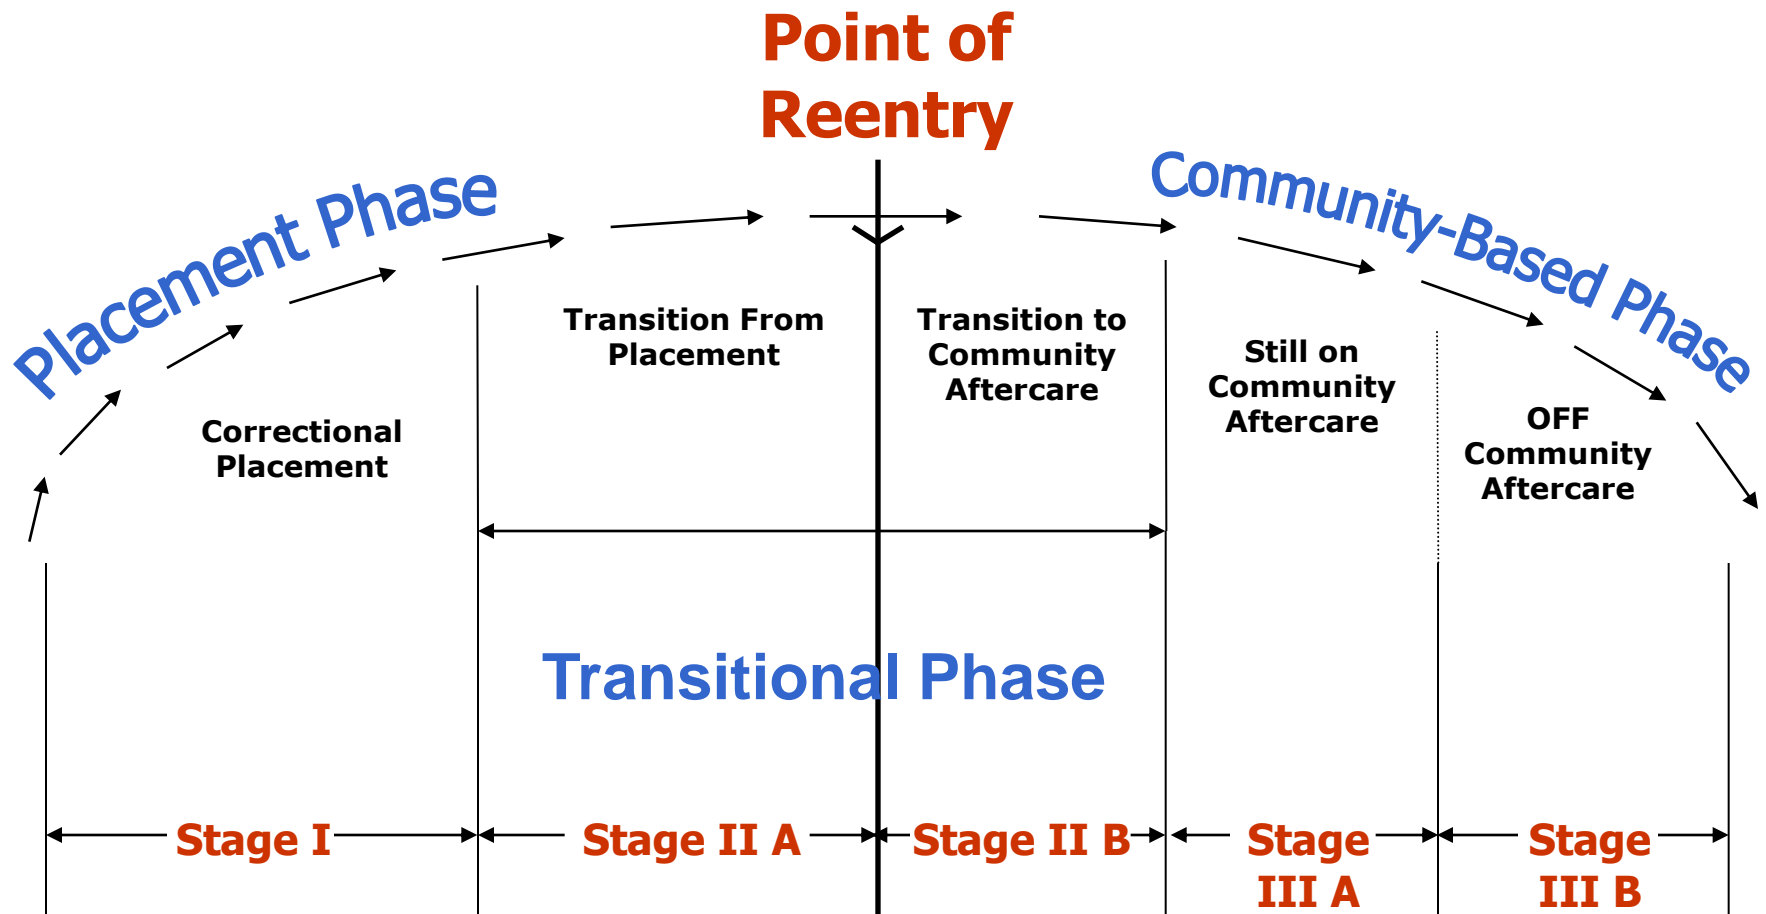

Reintegrative Continuum
