BILLING CODE 7020-02-P

DEPARTMENT OF JUSTICE

[AAG/A Order No. 018-2005]

Privacy Act of 1974; Modification of System of Records

Pursuant to the provisions of the
Privacy Act of 1974, 5 U.S.C. 552a,
notice is given that the Department of
Justice proposes to modify the
Departmentwide system of records
entitled, "Department of Justice
Regional Data Exchange System
(RDEX)" DOJ-012, previously published
in full text in the **Federal Register** on
July 11, 2005 (70 FR 39790).

This system is being modified as
follows:

(1) The Categories Of Individuals
Covered By The System And The
Categories Of Records In The System are
being modified to reflect that
information in RDEX that originated
with the Bureau of Alcohol, Tobacco,
Firearms, and Explosives (ATF), the
Drug Enforcement Administration
(DEA), and the Federal Bureau of
Investigation (FBI) will no longer be
limited to information from the State of
Washington field offices of those
components. This modification is
necessary due to the expansion of the
RDEX pilot project to include other
regional sharing initiatives;

(2) The Purpose Of the System is
being modified to reflect that in
addition to consolidating certain law
enforcement information from other
Department of Justice systems, in some
instances RDEX will include
information from such other systems
that has been structured in order to
facilitate sharing initiatives; and

(3) The System Managers and
Addresses portion of the notice is being
modified to reflect that requests for
information about the RDEX system
generally should be sent to the FBI
rather than the Chief Information
Officer, Justice Management Division, as
it was subsequently determined that the
FBI would serve as the system and
security administrator for RDEX.

The RDEX system is part of the
Department's Law Enforcement
Information Sharing Program (LEISP).
The expansion of the RDEX pilot

program to include other regional
sharing initiatives and the concomitant
modifications to the RDEX system
notice to reflect such expansion serve to
further the LEISP's principal purpose of
ensuring that Department of Justice
criminal law enforcement information is
available for users at all levels of
government so that they can more
effectively investigate, disrupt, and
deter criminal activity, including
terrorism, and protect the national
security.

The Department is providing a report
of this modification to OMB and
Congress.

Dated: November 22, 2005.

Paul R. Corts,

*Assistant Attorney General for
Administration.*

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals covered by this system
include individuals who are referred to
in potential or actual cases or matters of
concern to the Federal Bureau of Prisons
(BOP), the United States Marshals
Service (USMS), the Bureau of Alcohol,
Tobacco, Firearms, and Explosives
(ATF), the Drug Enforcement
Administration (DEA), and the Federal
Bureau of Investigation (FBI). Because
the system contains audit logs regarding
queries, individuals who use the system
to conduct such queries are also
covered.

CATEGORIES OF RECORDS IN THE SYSTEM:

The system consists of unclassified
criminal law enforcement records
collected and produced by the BOP, the
USMS, the ATF, the DEA, and the FBI,
including: investigative reports and
witness interviews from both open and
closed cases; criminal event data (*e.g.*,
characteristics of criminal activities and
incidents that identify links or patterns);
criminal history information (*e.g.*,
history of arrests, nature and disposition
of criminal charges, sentencing,
confinement, and release); and
identifying information about criminal
offenders (*e.g.*, name, address, date of
birth, birthplace, physical description).
The system also consists of audit logs
that contain information regarding
queries made of the system.

PURPOSE OF THE SYSTEM:

This system is maintained for the
purpose of ensuring that Department of

Justice criminal law enforcement information is available for users at all levels of government so that they can more effectively investigate, disrupt, and deter criminal activity, including terrorism, and protect the national security. RDEX furthers this purpose by consolidating, and in some instances structuring, certain law enforcement information from other Department of Justice systems in order that it may more readily be available for sharing with other law enforcement entities.
