See footnotes at end of table.

Nonfatal occupational injury and illness incidence rates¹ of total recordable cases by quartile distribution and employment size group, private industry, 1996 — Continued

Industry, SIC Code, ² and employment size group	Average incidence rates for all establishments: (mean)	One-quarter of the establishments had a rate lower than or equal to: (1st quartile)	One-half of the establishments had a rate lower than or equal to: (Median)	Three-fourths of the establishments had a rate lower than or equal to: (3rd quartile)
Management and public relations (SIC 874)				
250 - 999	3.5	0.7	0.9	4.6
1,000+	2.9	0.5	1.5	4.9

¹ The incidence rates represent the number of injuries and illnesses per 100 full-time workers and were calculated as: (N/EH) x 200,000, where

N = number of injuries and illnesses
 EH = total hours worked by all employees during the calendar year
 200,000 = base for 100 equivalent full-time workers (working 40 hours per week, 50 weeks per year).

² *Standard Industrial Classification Manual*, 1987 Edition.

³ Excludes farms with fewer than 11 employees.

⁴ Data conforming to OSHA definitions for mining operators in coal, metal, and nonmetal mining and for employers in railroad transportation are provided to BLS by the Mine Safety and Health Administration, U.S. Department of Labor; and the Federal Railroad Administration, U.S. Department of Transportation. Independent mining contractors are excluded from the coal, metal, and nonmetal mining industries.

⁵ Incidence rate less than 0.05.

⁶ In 1996, air courier operations previously classified in Industry Groups 421, 422, 423, 452, 473, and 478 were reclassified to Industry Group 451. As a result, the 1996 estimates for these SIC's and Major Industry Groups 42, 45, and 47 are not comparable to those for prior years. In addition, the 1996 estimates for transportation and public utilities may have more variability than those for prior years.

NOTE: Totals for divisions and 2- and 3-digit SIC codes include data for industries not shown separately. Quartile data are not available for industries with less than 15 observations.

n.e.c. = not elsewhere classified.

— Data not available.
