	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
	D. OTHER (Specify type of modification and authority)

E. IMPORTANT: Contractor is not, is required to sign this document and return _____ 0 _____ copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)

A. The purpose of this modification is to require a weekly status report for the Beryllium Corrective Action Plan (CAP) in conjunction with Contract Modification No. 122.

B. AMH is directed to provide RL and an RL designated point of contact in the Mission Support Alliance organization with weekly progress reports on assigned corrective actions. The progress report shall consist of an up-to-date schedule showing percent completion, and shall be provided to RL and the designated MAS POC on a schedule as established by the RL Project Manager beginning from the date of receipt of this modification until all applicable actions in the CAP are completed and closure verification has been accomplished. Status meetings may also be scheduled, and additional status input requested, by the RL Project Manager as necessary.

MEMORANDUM FOR MATTHEW S. MCCORMICK
MANAGER
RICHLAND OPERATIONS OFFICE

DAVID A. BROCKMAN
MANAGER
OFFICE OF RIVER PROTECTION

FROM: INÉS R. TRIAY *Inés Triay*
ASSISTANT SECRETARY FOR
ENVIRONMENTAL MANAGEMENT

SUBJECT: Approval of Hanford Corrective Action Plan in Response to
Office of Health, Safety and Security Beryllium Inspection
Report

In your August 30, 2010, memorandum you provided me a corrective action plan (CAP) in response to the Office of Health, Safety and Security (HSS) inspection that I had requested for the implementation of the Hanford site-wide Chronic Beryllium Disease Protection Program (CBDPP). We understand you have coordinated drafts of the CAP with HSS and have received positive feedback on the direction taken to improve the CBDPP at the site.

Based on our review of the submitted CAP dated August 2010, the "Independent Oversight Inspection of the CBDPP CAP," is approved. HSS has also reviewed the CAP and concurs on the CAP approval.

The inclusion of our Hanford stakeholders in the CAP development process has led to a comprehensive set of corrective actions that will improve CBDPP implementation across the site. Those members of the Beryllium Awareness Group (BAG) and the Hanford Atomic Metals Trade Council (HAMTC) that provided cogent input to the CAP have my personal appreciation.

As you develop positions and processes outlined in the CAP, such as determination of the Hanford beryllium background and monitoring processes for characterizing facilities, it is imperative for you to:

- Continue to seek external subject matter experts that have relevant experience in monitoring and control of beryllium during cleanup activities;
- Ensure analytical/statistical basis that are supportive of positions and monitoring processes developed; and
- Continue to fully engage the BAG and the HAMTC and their members during the implementation of the CAP and improvement efforts for the site CBDPP.

I request that you closely monitor progress made against the CAP and provide frequent, at least weekly, status reports on the progress you are making. Please include the three items specifically delineated above in your status reports. Further, my Office of Standards and Quality Assurance staff onsite at Hanford and other Headquarters staff will participate in select validation and effectiveness review activities in conjunction with the Richland "Integrated Beryllium Oversight Team" that you specifically established to provide oversight of the CAP.

If you have any further questions, please call me or Dr. Steven L. Krahn, Deputy Assistant Secretary for Safety and Security Program at (202) 586-5151.
