Note:  
- Aberrations, such as negative expenditure rates or those over 100 percent, usually result from errors or adjustments in 9130 reporting for prior periods being corrected in current period reports. They are a result of reporting on a cumulative basis and an ETA policy that limits the States' ability to correct closed quarterly reports.

Note:  
- Aberrations, such as negative expenditure rates or those over 100 percent, usually result from errors or adjustments in 9130 reporting for prior periods being corrected in current period reports. They are a result of reporting on a cumulative basis and an ETA policy that limits the States' ability to correct closed quarterly reports.
