

## Correction to Perinatal Guidelines

The July 31, 2012, edition of the [Perinatal Guidelines](#) has been amended to correct an error regarding zidovudine dosing in infants included in a footnote to [Table 6, \*Clinical Scenario Summary Recommendations for Antiretroviral Drug Use by Pregnant HIV Infected Women and Prevention of Perinatal Transmission of HIV-1 in the United States.\*](#)

The Table 6 footnote now directs readers to [Table 9, \*Recommended Neonatal Dosing for Prevention of Mother-to-Child Transmission of HIV,\*](#) for the correct dosing recommendation.
