SIGIR calculates the GOI's contribution to reconstruction by summing the following amounts: Iraqi funds overseen by the CPA, the official capital budgets for 2003–2005, MOF-reported capital expenditures for 2006–2010, and the official capital budgets for 2011 and 2012. This total overstates the actual contribution made by the GOI because official capital budgets typically exceed capital expenditures. Certified expenditure data was not available from the MOF for 2003–2005 or 2011 and 2012.

During the quarter, the Central Bank of Iraq adjusted the Iraqi Dinar (IQD) to U.S. Dollar (USD) exchange rate downward from 1,170 IQD/USD to 1,166 IQD/USD. Due to this change, Iraqi budget values stated in USD throughout this report may differ from the values used in the January 2012 SIGIR Quarterly Report. However, the actual budget amounts (in IQD) remain unchanged.
