Apply Online For Medicare—Even If You Are Not Ready To Retire

What is Medicare?

Medicare is a federal health insurance plan for people who are age 65 or older. People who are disabled or have permanent kidney failure can get Medicare at any age.

Medicare has four parts—A, B, C and D. Hospital insurance (Part A) is free for insured people and helps pay for inpatient hospital care and certain follow-up services. If you are eligible, you should apply for Part A a few months before you turn age 65, even if you are covered by other health insurance.

The other three parts of Medicare require premium payments, and you may pay different amounts, depending on when you apply:

- Medical Insurance (Part B) helps pay for doctors' services, outpatient hospital care and other medical services.
- Medicare Advantage plans (Part C) are available in many areas. People with Parts A and B can choose to receive all of their health care services through a provider organization under Part C.
- Prescription drug coverage (Part D) helps pay for medications doctors prescribe for medical treatment.

For more information, ask for *Medicare* (Publication No. 05-10043) or go online to www.socialsecurity.gov/pubs/10043.html.

Who should use the online Medicare application?

You should, if you:

- Are within four months of turning age 65 or older;
- Want to sign up for Medicare benefits and do not currently have any Medicare coverage; and
- Do not want to apply for monthly Social Security retirement benefits at this time.

NOTE: *People who already are receiving Social Security retirement or disability benefits automatically will be enrolled in Medicare and do not need to complete the online application.*

Why should I apply online for Medicare benefits?

Applying online for Medicare benefits offers several advantages:

- You can start your application immediately—you do not have to wait for an appointment;
- You can apply from the comfort of your home, or from any computer;

- You can avoid a trip to a Social Security office, saving you time and money; and
- You do not have to complete the application in one sitting. If you need a break, you can stop working on the application and restart it again without losing any of the information you entered.
