Initial SAMS Purpose

1983 – Original SAMS Purpose Statement

- To educate officers who have demonstrated a high degree of potential for serving as battalion and brigade commanders, as principal staff officers of divisions and corps, and as branch chiefs and deputy division chiefs on major command and Department of the Army level staffs or their equivalents.
- To provide a broad, deep military education in the science and art of war at the tactical and operational levels that goes beyond the Command and General Staff Officers Course.
- Seed the Army with officers annually who will produce a leavening influence on the Army by their competence and impact on other officers.
- The purpose of this course therefore is not only to train individuals to do certain key jobs better, but to create a multiplier effect in all areas of Army competence as these officers teach others.
