

identification card, in NMAC

19.15.4.9.4; and

(4) NMSA 70-5-10, requiring deposit of fees into the State's general fund.

B. RSPA incorporates and reaffirms its determination in PD-22(R) that Federal hazardous material transportation law preempts the requirements in:

(1) NMAC 19.15.4.10.1, with respect to the requirement for an annual inspection of the cargo containment and safety equipment on vehicles based outside New Mexico, but that this requirement is not preempted with respect to vehicles based within New Mexico;

(2) NMSA 70-5-7(A) and NMAC 19.15.4.9.1 through 19.15.4.9.5, with regard to requirements for a motor vehicle driver domiciled outside of New Mexico to take an examination and obtain an identification card, but that these requirements are not preempted with respect to motor vehicle drivers domiciled in New Mexico or non-drivers who dispense LP gas; and

(3) NMAC 19.15.4.15.1, requiring intrastate and interstate motor carriers that move, load, or unload LP gas in New Mexico to pay an annual license fee.

IV. Final Agency Action

In accordance with 49 CFR 107.211(d), this decision constitutes RSPA's final agency action on ATA's application for a determination of preemption as to certain requirements in New Mexico's LNG and CNG Act (NMSA Chapter 70, Article 5) and LP Gas Standards (NMAC Title 19, Chapter 15, Part 4). Any party to this proceeding may bring a civil action in an appropriate district court of the United States for judicial review of this decision not later than 60 days after publication of this decision in the **Federal Register**.

Issued in Washington, DC, on September 17, 2003.

Associate Administrator for Hazardous Materials Safety.

DEPARTMENT OF TRANSPORTATION

BUREAU OF TRANSPORTATION STATISTICS

Agency Information Collection; Activity Under OMB Review; Report of Passengers Denied Confirmed Space—BTS Form 251

AGENCY: Bureau of Transportation Statistics (BTS), DOT.

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995, Public Law 104-13, the Bureau of

Transportation Statistics invites the general public, industry and other governmental parties to comment on the continuing need for and usefulness of DOT requiring U.S. and foreign air carriers that operate scheduled passenger service with large aircraft to submit reports on their oversales practices. Large aircraft are aircraft designed to carry over 60-seats. Carriers submit the quarterly Form 251 "Report of Passengers Denied Confirmed Space." Carriers do not report oversales of inbound international flights because the protection provisions of 14 CFR part 250 do not apply to these flights. The Department uses Form 251 to monitor the compliance by U.S. and foreign air carriers to the oversales provisions of Part 250.

DATES: Written comments should be submitted by November 21, 2003.

ADDRESSES: Comments should be directed to: Office of Airline Information, K-25, Room 4125, Bureau of Transportation Statistics, 400 Seventh Street, SW., Washington, DC 20590-0001, FAX NO. 366-3383 or EMAIL bernard.stankus@bts.gov.

Comments: Comments should identify the OMB # 2138-0018. Persons wishing the Department to acknowledge receipt of their comments must submit with those comments a self-addressed stamped postcard on which the following statement is made: Comments on OMB # 2138-0018. The postcard will be date/time stamped and returned.

FOR FURTHER INFORMATION CONTACT: Bernie Stankus Office of Airline Information, K-25, Room 4125, Bureau of Transportation Statistics, 400 Seventh Street, SW., Washington, DC 20590-0001, (202) 366-4387.

SUPPLEMENTARY INFORMATION:

OMB Approval No.: 2138-0018.

Title: Report of Passengers Denied Confirmed Space.

Form No.: BTS Form 251.

Type Of Review: Extension of a currently approved collection.

Respondents: Large U.S. and foreign air carriers.

Number of Respondents: 110.

Number of Responses: 440.

Total Annual Burden: 2,220 hours.

Needs and Uses: BTS Form 251 is a one page report on the number of passengers holding confirmed space that were voluntarily or involuntarily denied boarding. Carriers must report whether the bumped passengers were provided alternate transportation and/or compensation, and the amount of the payment. The report allows the Department to monitor the effectiveness of its oversales rule and take enforcement action when necessary.

The involuntary denied-boarding rate has steadily decreased over the years from 4.38 per 10,000 enplanements in 1980 to .99 for the first six months of the year 2003. This decrease occurred at a time when air carrier load factors have increased. These statistics demonstrate the effectiveness of the "volunteer" provision, which has reduced the need for more intrusive regulation.

The rate of denied boarding can be examined as an air carrier continuing fitness factor. This rate provides an insight into a carrier's policy on treating overbooked passengers and its compliance disposition. A rapid increase in the rate of denied boardings often is an indicator of operational difficulty.

Because the rate of denied boarding is published in the *Air Travel Consumer Report*, travelers and travel agents can select carriers with low bumping incidents when booking a trip.

The Confidential Information Protection and Statistical Efficiency Act of 2002 (44 U.S.C. 3501 note), requires a statistical agency to clearly identify information it collects for non-statistical purposes. BTS hereby notifies the respondents and the public that BTS uses the information it collects under this OMB approval for non-statistical purposes including, but not limited to, publication of both Respondent's identity and its data, submission of the information to agencies outside BTS for review, analysis and possible use in regulatory and other administrative matters.

Donald W. Bright,

*Director, Office of Airline Information,
Bureau of Transportation Statistics.*
