Funds in the amount of \$	are hereby prevalidated for the about Centralized Billing Activity.	
Signature:	Authorizing Certifying Official	Dete
	Authorizing Certifying Official	Date
Overview		

Prevalidation must occur prior to the execution of all source documents that obligate funds. As an internal fund control procedure, a statement that funds are available must be certified by an individual with delegated authority.

Purpose

The purpose of prevalidation is to certify that the funds in the amount and for the purpose requested are available for obligation and appropriately charged to the fund and project identified. Prevalidation ensures that the obligations incurred do not exceed apportioned obligational authority.
