Central Utah Project Completion Act

The Central Utah Project Completion Act (CUPCA) was established by the Secretary of the Interior in order to carry out the responsibilities within the act. Section 201(e) of Public Law 102-575 states that the Secretary may not delegate his responsibilities under the Act to the Bureau of Reclamation. Therefore, all accountings must remain with the Office of the Secretary. The accounting services for CUPCA were initially supplied by the personnel from the Office of the Secretary in Washington, D.C., but in fiscal year 1997, it was determined to be more efficient to have those services performed by personnel with Reclamation's Upper Colorado Region (Region 4). Limited accounting services and the use of the Reclamation Federal Financial System are performed under an annual reimbursable support agreement between CUPCA and Reclamation.

For reporting under the Chief Financial Officer's (CFO) Act of 1990, CUPCA financial data must be submitted through the Office of the Secretary as part of their CFO reporting and must be removed from Reclamation's records for their CFO reporting.
