1. **Introduction.** This Directive and Standard provides the text for Standard Article 29 and addresses related requirements. Paragraph 6 of PEC P10 indicates which contracts require Standard Article 29. In general, Standard Article 29 is required in contracts where the contractor has or is expected to have responsibility for the operation and maintenance (O&M) of federally owned or funded facilities. It affirms the contractor's responsibilities for controlling undesirable plants and animals in the performance of its O&M responsibilities.
2. **Applicability.** This Directive and Standard applies to Reclamation staff and officials involved in the contracting process, as defined at Paragraph 3.A. of PEC P10, for contracts requiring Standard Article 29 under Paragraph 6 of PEC P10.
3. **Definitions.** See Paragraph 3 of PEC P10.
4. **Responsibilities.** See Paragraph 4 of PEC P10.

¹The Department of the Interior Manual, Part 609, Weed Control Program, requires the implementation of Integrated Pest Management for the control of pests on Reclamation lands. The authorities for this requirement are contained in numerous public laws, Executive Orders, and Federal regulations, the most significant of which are cited above.

PEST MANAGEMENT²

(a) The Contractor is responsible for complying with applicable Federal, State, and local laws, rules, and regulations related to pest management in performing its responsibilities under this contract.

(b) The Contractor is responsible for effectively avoiding the introduction and spread of, and for otherwise controlling, undesirable plants and animals, as defined by the Contracting Officer, on or in Federal project lands, Federal project waters, and Federal project works for which and to the extent that the Contractor has operation and maintenance responsibility. The Contractor is responsible for exercising the level of precaution necessary in meeting this responsibility, including inspecting its vehicles and equipment for reproductive and vegetative parts, foreign soil, mud or other debris that may cause the spread of weeds, invasive species and other pests, and removing such materials before moving its vehicles and equipment onto any Federal land or out of any area on Federal project land where work is performed.

(c) Where decontamination is required prior to entering Federal project land, it shall be performed at the point of prior use, or at an approved offsite facility able to process generated cleaning wastes. Upon the completion of work, the Contractor will perform any required decontamination within the work area before moving the vehicles and equipment from Federal project lands.

(d) Programs for the control of undesirable plants and animals on Federal project lands, and in Federal project waters and Federal project works for which the Contractor has operation and maintenance responsibility will incorporate Integrated Pest Management (IPM) concepts and
