33%	23%
	18% 18% 19% 14% 15% 14%

## West Virginia physical health and nutrition data

## Seat belt use among high school students (grades 9-12), 2009 PH2

Percent of high school students who:	West Virginia	United States
Sometimes, most of the time, or always wore a seat belt (when riding in a car driven by someone else)		
Total	86%	90%
Male	84%	88%
Female	89%	92%

## Facts about adolescent substance abuse in West Virginia

## Alcohol-related behaviors among high school students (grades 9-12), 2009 $^{\underline{SA1}}$

Percent of high school students who:	West Virginia	United States
Drank alcohol for the first time before age 13 years (other		
than a few sips)		
Total	23%	21%
Male	27%	24%
Female	18%	18%
Had at least one drink of alcohol on at least one day (during the 30 days before the survey)		
Total	40%	42%
Male	41%	41%
Female	40%	43%
Had five or more drinks of alcohol in a row within a couple of hours on at least one day (during the 30 days before the survey)		
Total	27%	24%
Male	29%	25%
Female	25%	23%
Drove when drinking alcohol one or more times (during the 30 days before the survey)		
Total	8%	10%
Male	9%	12%
Female	6%	8%
Rode with a driver who had been drinking alcohol one or more times (during the 30 days before the survey)		
Total	26%	28%
Male	25%	28%
Female	26%	29%

## West Virginia substance abuse data

## Tobacco-related behaviors among high school students (grades 9-12), 2009 $\frac{\text{SA1}}{\text{Colorest}}$

Percent of high school students who:	West Virginia	United States
Never tried cigarette smoking (even one or two puffs)		
Total	45%	54%
Male	47%	54%
Female	43%	54%
Smoked cigarettes on at least one day (during the 30 days before the survey)		
Total	22%	19%
Male	21%	20%
Female	22%	19%
Tried to quit smoking cigarettes (among students who currently smoked, during the 12 months before the survey)		
Total	51%	51%
Male	49%	48%
Female	54%	54%
Used chewing tobacco, snuff, or dip on at least one day (during the 30 days before the survey)		
Total	14%	9%
Male	24%	15%
Female	4%	2%

## Marijuana use among high school students (grades 9-12), 2009 SA1

Percent of high school students who:	West Virginia	United States
Ever used marijuana one or more times (during their life)		
Total	39%	37%
Male	40%	39%
Female	38%	34%

## West Virginia substance abuse data

## Cocaine use among high school students (grades 9-12), 2009 SA1

Percent of high school students who:	West Virginia	United States
Used any form of cocaine one or more times (powder, crack, or freebase) (during the 30 days before the		
survey)		
Total	3%	3%
Male	4%	4%
Female	2%	2%

## Nonmedical use of pain relievers, ages 12-17, 2006-2007 SA2

Percent of adolescents ages 12-17 who:	West Virginia	United States
Used pain relievers for nonmedical reasons in the	7%	7%
past year	770	770

## Needing but not receiving treatment for substance use, ages 12-17, 2006-2007 SA2

Percent of adolescents ages 12-17 who:	West Virginia	United States
Needed but did not receive treatment for alcohol use in the past year	4%	5%
Needed but did not receive treatment for illicit drug use in the past year	4%	4%

## Facts about adolescent relationships in West Virginia

#### Bullying among high school students (grades 9-12), 2009<sup>HR1</sup>

Percent of high school students who:	West Virginia	United States
Were bullied on school property (during the 12 months before the survey)		
Total	23%	20%
Male	21%	19%
Female	26%	21%

#### Violence among high school students (grades 9-12), 2009<sup>HR1</sup>

Percent of high school students who:	West Virginia	United States
Carried a weapon on at least one day (during the 30 days before the survey)		
Total	24%	17%
Male	38%	27%
Female	10%	7%
Carried a gun on at least one day (during the 30 days before the survey)		
Total	10%	6%
Male	17%	10%
Female	3%	2%
Were in a physical fight one or more times (during the 12 months before the survey)		
Total	32%	31%
Male	38%	39%
Female	24%	23%
Were injured in a physical fight one or more times (during the 12 months before the survey)		
Total	4%	4%
Male	5%	5%
Female	3%	2%

## West Virginia adolescent relationships data

#### Violence at school among high school students (grades 9-12), 2009<sup>HR1</sup>

	**	
Percent of high school students who:	West Virginia	United States
Carried a weapon on school property on at least one day (during the 30 days before the survey)		
Total	7%	6%
Male	10%	8%
Female	3%	3%
Did not go to school because they felt unsafe at school or on their way to or from school, on at least one day (during the 30 days before the survey)		
Total	8%	5%
Male	8%	5%
Female	8%	5%
Were threatened or injured with a weapon on school property one or more times (during the 12 months before the survey)		
Total	9%	8%
Male	12%	10%
Female	6%	5%
Were in a physical fight on school property one or more times (during the 12 months before the survey)		
Total	11%	11%
Male	14%	15%
Female	8%	7%

## Sexual relationships among high school students (grades 9-12), $2009^{\frac{HR1}{1}}$

Percent of high school students who:	West Virginia	United States
Have ever had sexual intercourse		
Total	54%	46%
Male	54%	46%
Female	55%	46%

## West Virginia adolescent relationships data

#### Dating violence among high school students (grades 9-12), 2009 HR1

Percent of high school students who:	West Virginia	United States
Were hit, slapped, or physically hurt on purpose by their boyfriend or girlfriend (during the 12 months before the survey)		
Total	14%	10%
Male	15%	10%
Female	12%	9%
Were ever physically forced to have sexual intercourse (when they did not want to)		
Total	11%	7%
Male	8%	5%
Female	14%	10%

#### Supportive neighborhoods, ages 12-17, 2005-2006 HR2

Percent of adolescents ages 12-17 who:	West Virginia	United States
Live in a supportive neighborhood, <sup>△</sup> according to		
parent		
Total	88%	85%

<sup>&</sup>lt;sup>A</sup> Supportive neighborhood information is reported by parents and is based on the statements: people in my neighborhood help each other out; we watch out for each other's children in this neighborhood; there are people I can count on in this neighborhood; if my child were outside playing and got hurt or scared, there are adults nearby who I trust to help my child. Parents were asked whether they strongly agree, somewhat agree, somewhat disagree, or strongly disagree with each statement. Choosing a "disagree" option on more than one statement removes someone from living in a supportive neighborhood.

#### Positive social skills, ages 12-17, 2005-2006 HR2

Percent of adolescents ages 12-17 who:	West Virginia	United States
Consistently exhibit positive social skills, <sup>+</sup> according to parent		
Total	93%	93%

<sup>&</sup>lt;sup>+</sup> Positive social skills is a composite measure of four positive social skills. Positive social skills are reported by parents and include respect for teachers and neighbors; getting along well with other children; trying to understand other people's feelings; and trying to resolve conflicts with classmates, family, or friends

#### **Data notes**

- Race/ethnicity totals do not add to state totals because figures for American Indian and Asian or Pacific Islanders may include teens of Hispanic origin.
- \* Figure does not meet standards of reliability or precision; fewer than 6 births.

Data from the National Survey on Drug Use and Health and the National Survey of Children's Health have been rounded to the nearest whole number.

N/A: data do not exist on this measure for this state.
