(Dollars in Thousands)

FY 2013 Core Project Priority	FY 2013 Integrated Project Priority	Unit	Project Description	State	Tracts	Acres	FY 2013 President's Budget Core Request	FY 2013 President's Budget Collaborative Request	FY 2013 Integrated Request	Comments
N/A	1	Blackfoot River Special Recreation Management Area/Lewis and Clark National Historic Trail	Acquire parcels from TNC threatened with residential development to consolidate lands in support of biological diversity, T&E species habitat and preservation of a rural landscape (including a segment of the Lewis and Clark National Historic Trail).	MT	2	4,620	\$0	\$5,572	\$5,572	Leverages collaborative investments: - USFS: \$14.8 M - NPS: \$3.3 M - FWS: \$19.7 M Within Crown-Northern Rockies focal area.
1	2	Ironwood Forest National Monument	Acquire parcels from Arizona Land and Water Trust threatened by mining and residential development to consolidate lands, protect exceptional National Register archeological sites and preserve T&E species habitat (addressed in the recovery plan) near Tucson.	AZ	2	459	\$1,000	\$0	\$1,000	New project for BLM. Native American support. Within California and Southwest Desert focal area.
2	3	Carrizo Plain National Monument	Acquire parcels from Sequoia Rivers Land Trust threatened by commercial and industrial development to consolidate lands within the last remaining undeveloped remnant of the San Joaquin Valley ecosystem for remarkable T&E species habitat and archeologic/ceremonial values near Bakersfield.	CA	2	1,200	\$1,200	\$0	\$1,200	BLM "legacy" project. Native American support. Within California and Southwest Desert focal area.
3	4	Dominguez-Escalante National Conservation Area	Acquire parcels from Western Rivers Conservancy threatened with residential development to consolidate lands, protect critical habitat for multiple T&E species, preserve Gunnison River riparian habitat and enhance recreation opportunities near Grand Junction.	CO	2	304	\$575	\$0	\$575	BLM priority in FY 2012 (funded at \$3.5M). Project dedicated by the Secretary.
4	5	Upper Snake/South Fork Snake River Area of Critical Environmental Concern/Special Recreation Management Area	Acquire parcels (predominately conservation easements) from TCF and Teton Regional Land Trust threatened with residential and resort development to conserve and enhance significant scenic, recreational and significant T&E species habitat (including sage grouse) (rated by USFWS as the most valuable, biodiverse and unique ecosystem in Idaho) near Idaho Falls.	ID	5	1,160	\$1,750	\$0	\$1,750	Leverages collaborative investments: - USFS: \$3.8 M - NPS: \$8.0 M BLM "legacy" project. BLM priority in FY 2012 (funded at \$6M). Native American support. Within Crown-GYE focal area.
5	6	Red Cliffs National Conservation Area	Acquire parcels from TPL threatened with residential development, provide for continued community growth, improve critical T&E species habitat management (tortoise), provide recreational amenities to neighboring St. George and eliminate lawsuit threat from impatient inholders.	UT	3	154	\$4,000	\$0	\$4,000	BLM "legacy" project. Initiates complex phased acquisition of three parcels. Within California and Southwest Desert focal area.

**Bureau of Land Management**  
**Integrated FY 2013 Federal Land Acquisition Projects**  
(Dollars in Thousands)

FY 2013 Core Project Priority	FY 2013 Integrated Project Priority	Unit	Project Description	State	Tracts	Acres	FY 2013 President's Budget Core Request	FY 2013 President's Budget Collaborative Request	FY 2013 Integrated Request	Comments	
6	7	Cascade-Siskiyou National Monument	Acquire parcels from TCF and Pacific Forest Trust threatened with residential development and timber harvesting to consolidate lands, conserve and restore endemic T&E species habitat (including Northern Spotted owl) and connectivity (unmatched in the Cascade Range) and join segments of the Pacific Crest National Scenic Trail for recreational use.	OR	1	1,287	\$2,000	\$0	\$2,000	BLM "legacy" project. BLM priority in FY 2012 (funded at \$6M). Within Pacific Northwest focal area.	
7	8	California Wilderness	Acquire highly-leveraged parcels from Mohave Desert Land Trust, Friends of the Desert Mountains and Wilderness Land Trust threatened with commercial, industrial and residential development and unregulated OHV use to consolidate lands to preserve wilderness characteristics, T&E species habitat and increase opportunities for primitive recreation.	CA	8	3,800	\$3,068	\$0	\$3,068	BLM "legacy" project. Partners will consolidate into three closings. Within Pacific Northwest and California and Southwest Desert focal areas.	
8	9	California Coastal National Monument	Acquire oceanfront parcel (Phase II of II) from TPL which is being aggressively marketed for residential development to consolidate lands, provide for public environmental education and interpretation and protect critical habitat for some of the most critical T&E species, complimenting nearly \$10M of previously leveraged funds.	CA	1	407	\$4,500	\$0	\$4,500	Significant public interest. Legislation introduced to designate as inholding. Native American support. Within Pacific Northwest focal area.	
N/A	10	Lathrop Bayou Habitat Management Area	Acquire island parcel (not under contract) from TNC threatened with residential development to consolidate a small but productive T&E species habitat near Panama City.	FL	1	206	\$0	\$412	\$412	Leverages collaborative investments: - USFS: \$6.4 M - FWS: \$46.5 M New project for BLM. Within Longleaf Pine focal area.	
10	11	Red Rock Canyon National Conservation Area	Acquire parcel from TPL highly threatened with residential development from encroaching Las Vegas to consolidate lands, reduce environmental impact and improve scenic values within BLM's most-visited NLCS unit.	NV	1	3	\$500	\$0	\$500	BLM "legacy" project. Within California and Southwest Desert focal area.	
9	12	Sandy River Area of Critical Environmental Concern/Oregon National Historic Trail	Acquire parcels from Western Rivers Conservancy threatened with commercial and residential development to consolidate lands, preserve a scenic gorge and the interwoven Oregon National Historic Trail corridor, protect open space, recreational use and multiple T&E species habitat (with an emphasis on Northern Spotted owl and anadromous fisheries) near Portland.	OR	1	210	\$2,000	\$0	\$2,000	BLM "legacy" project. Nearing completion. Within Pacific Northwest focal area.

Core	Integrated	Unit	Project Description	State	Tracts	Acres	Request	Request	Funding	Comments
-	1	Crown of the Continent: Rocky Mtn Front, Blackfoot Valley & Swan Valley CAs, Red Rock Lakes NWR	The Crown contains some of the best intact ecosystems remaining in the lower 48. Habitat for wide variety of species - especially large mammals, such as grizzly. Conservation easements will protect working landscape.	MT	12	30,685		19,742	19,742	Leverages collaborative investments: - USFS: \$14.8 M - NPS: \$3.3 M - BLM: \$5.5 M
1	2	Dakota Grassland CA	Perpetual wetland and grassland easements will protect habitats in the Prairie Pothole Region	ND/SD	19	10,333	2,500		2,500	
2	3	Dakota Tallgrass Prairie WMA	Protect northern tallgrass prairie ecosystem and associated wildlife species. Only small percentage of original tallgrass prairie remains; area supports rich diversity of plant, animal and insect species	ND/SD	4	1,020	500		500	
3	4	Everglades Headwaters NWR/CA	Protect, restore, and conserve habitat for 278 federal and state listed species, including Florida panther, Florida black bear, Audubon's crested caracara, Florida scrub jay. Protect, restore, and conserve headwaters of Everglades Watershed, complementing restoration goals and protecting water supply for millions.	FL	3	750	3,000		3,000	
4	5	Flint Hills Legacy CA	Tallgrass prairie is one of most endangered ecosystems in nation, with less than 4% remaining. Conservation easements will enable ranchers to stay on land and protect working landscape.	KS	3	6,503	1,951		1,951	
5	6	Middle Rio Grande NWR	Primary purpose to "foster environmental awareness and outreach programs, and develop an informed and involved citizenry that will support fish and wildlife conservation."	NM	1	100	1,500		1,500	
6	7	Neches River NWR	Protect important remnant bottomland and associated habitats for migrating, wintering, and breeding waterfowl, and to protect the forest's diverse biological values and wetland functions of water quality improvement and flood control.	TX	1	640	1,000		1,000	
7	8	Silvio O. Conte NF&WR	Protect fisheries and wildlife resources and provide public access to refuge lands.	CT/NH VT/M A	1	1,041	1,500		1,500	
8	9	San Joaquin River NWR	Protect native grasslands and wetlands that are essential for long-term survival of the Aleutian Canada goose, and to protect a large piece of riparian habitat valuable to a variety of wildlife species.	CA	1	167	1,000		1,000	
9	10	Upper Mississippi River NW&FR	Habitat for critical feeding and resting coordors for waterfowl and other birds in Mississippi Flyway and protecting extensive wetland complexes that perform the functions of flood control and nutrient recycling	IA/IL/ MN/WI	2	335	1,000		1,000	
10	11	Northern Tallgrass Prairie NWR	Protect the prairie ecosystem and benefit grassland birds.	IA/MN	2	166	500		500	
11	12	Grasslands WMA	Protect important wintering area for the Pacific Flyway waterfowl populations.	CA	1	247	1,000		1,000	
-	13	Longleaf Pine: Okefenokee NWR	Acquisition would result in a 12-mile contiguous block of longleaf pine in southeast GA. Portions of the parcel near existing Service-managed longleaf pine habitat will soon be suitable as habitat for red-cockaded woodpeckers and indigo snakes and gopher tortoise.	GA/FL	2	9,886		13,636	13,636	Leverages collaborative investments: - USFS: \$6.4 M - BLM: \$0.4 M
12	14	Nisqually NWR	Preservation and enhancement of wintering and migration habitat for migratory birds and anadramous fish, including federally-listed threatened Chinook salmon. Protect wetland habitat vital to freshwater species, including the state-listed Oregon Spotted Frog and a diversity of migratory birds and anadramous fish, all within a rapidly urbanizing area	WA	4	208	1,000		1,000	

13	15	St. Vincent NWR	Permanent boat/barge access to St. Vincent Island for visitor services and habitat management purposes.	FL	1	5	1,000		1,000		
-	16	Longleaf Pine: St. Marks NWR	Suitable for longleaf pine restoration. Supports federally endangered flatwoods salamander, wood storks, Florida black bear, and variety of migratory and native birds, including nesting swallow-tailed kites. Breeding habitat for Swainson's warbler.	FL	2	16,456		32,912	32,912	Leverages collaborative investments: - USFS: \$6.4 M - BLM: \$0.4 M
