Prevention  
In cooperation with Central  
WA University**

**Bombing Prevention for First  
Responders**

**August 14, 2008 8 am - 4:30 pm**

**Central Washington University  
Black Hall Room 150  
Ellensburg, WA**

This free workshop is designed to enhance and reinforce the participant's knowledge, skills, and abilities in relation to the threat of improvised explosive device (IED) prevention measures and planning protocols. This workshop reviews the current development of strategies requiring collaboration of numerous agencies across multiple localities, disciplines and level of government. The workshop outlines specific bombing prevention actions that reduce vulnerability and mitigate the risk of terrorist IED attacks utilizing explosives.
