

petition (see 40 CFR 268.5(f)). FMC/Astaris also must continue to submit a monthly report describing the progress being made toward design, construction, and operation of the LDR Treatment Plant. The monthly progress report also must identify any delay, or possible delay in developing this treatment capacity and describe the actions being taken in response to the delay (see 40 CFR 268.5(g)). The monthly progress report must be submitted every thirty days, by the 26th day of each month for the duration of this CBC extension renewal, until June 26, 2002.

Four copies of each monthly progress report must be submitted to the following address: Chief, Analysis and Information Branch, U.S. Environmental Protection Agency, Office of Solid Waste (5302W), 1200 Pennsylvania Avenue, NW., Washington, D.C. 20460.

A copy of the monthly progress report also must be provided to EPA Region 10 at the following address: Director, Office of Waste and Chemicals Management, U.S. Environmental Protection Agency 1200 Sixth Avenue, Seattle, WA 98101.

A copy of the monthly progress report must be provided to the Shoshone-Bannock Tribes at the following address: Director, CERCLA/RCRA Program, Shoshone-Bannock Tribes, P.O. Box 306, Fort Hall, Idaho 83203.

EPA can revoke this CBC extension renewal if FMC/Astaris fails to make a good-faith effort to meet the schedule for completion; if EPA denies or revokes any required permit; if conditions certified in the CBC extension renewal application change; or for a violation of any law or regulations in parts 260–266 and 268 (see § 268.5(g)). No further extension of the LDR effective date for these five hazardous wastes is allowed.

V. Administrative Requirements

Today, the EPA is approving the FMC/Astaris request for a one-year renewal of their existing CBC extension of the effective date of the RCRA land disposal restrictions, for a facility located on Tribal Lands. This action will have a substantial direct effect on the people of the Shoshone-Bannock Tribes and the Ft. Hall Business Council, as it will permit this facility to continue treating, storing, or disposing of five waste streams as currently managed in on-site surface impoundments until May 26, 2002.

Executive Order 13175, entitled “Consultation and Coordination with Indian Tribal Governments” (65 FR 67249, November 6, 2000), requires EPA to develop an accountable process to ensure “meaningful and timely input by tribal officials in the development of regulatory policies that have tribal

implications.” “Policies that have tribal implications” is defined in the Executive Order to include regulations and other actions that have “substantial direct effects on one or more Indian tribes, on the relationship between the Federal government and the Indian tribes, or on the distribution of power and responsibilities between the Federal government and Indian tribes.”

EPA has concluded that this decision has tribal implications, as it has a substantial direct effect on the people of the Shoshone-Bannock Tribes (on whose lands the Pocatello facility is located) and the Ft. Hall Business Council. Consistent with the Executive Order and EPA’s Indian policy, EPA has ensured the meaningful and timely input of tribal officials of the Ft. Hall Business Council in the development of this decision.

EPA has had numerous meetings and calls with Tribal government officials from May 2000 to April 2001. For example, on May 2, 2000, Elizabeth Cotsworth (Director-EPA Office of Solid Waste) met with the Ft. Hall Business Council in Pocatello, Idaho to consult with the Tribes regarding FMC’s request for a CBC extension. On June 9, 2000, Tim Fields (Assistant Administrator-EPA Office of Solid Waste and Emergency Response), met the Ft. Hall Business Council on the same issue. EPA has specifically solicited comment on this CBC extension from the elected officials of the Ft. Hall Business Council, and in recent months, Chuck Findley (Acting EPA Region 10 Administrator) has had several meetings and telephone conversations with the Ft. Hall Business Council to discuss the CBC extension and the HTDF option as an alternative to the LDR system.

Other consultation measures have included staff level discussions to obtain feedback from the Tribes on information provided by FMC/Astaris, providing the Tribes with an advance copy of draft **Federal Register** notices of Proposed Decision for their review and comment prior to publishing the notices, and inviting the Tribes to participate in all meetings held with FMC/Astaris on the CBC extension, as described in previous **Federal Register** notices addressing the CBC extension.

Finally, in the spirit of Executive Order 13175, and consistent with EPA policy to promote communications between EPA and tribal governments, EPA will continue to consult with the Tribes after this decision on all matters relating to the FMC/Astaris facility which affect the Tribes’ interests.

As discussed in the March 16, 2001 (66 FR 15243) **Federal Register** notice, Executive Order 13132, entitled

“Federalism,” this notice also does not have federalism implications. It will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132. Thus, the requirements of this Executive Order do not apply to this action.
