

Appendix E – Index

Acceptable Separation Distance (ASD), definition – F2,
 Steps for evaluation of site for calculation of – 20-24,
 Methods for calculation of – 24
 ASD principles – 25-27,
 Summary flowchart (analysis steps) – A5-A6,
 Examples – 30-38,
 Chart (Thermal Radiation) – C25-C26
 Chart (Blast-Overpressure) – C27-C28
 Barrier, definition – F2
 Blast-overpressure, definition – F2,
 Applicability – 10,
 Review of the standard – 13-15,
 Compliance process – 17-18,
 Flowchart illustrating procedure for calculation of ASD for – A3,
 Examples – 30-34
 Bleve, definition – F2
 Buried container – definition – F2
 Exclusions to the guidance – 6
 Combustion, definition – F2
 Container, definition – F2,
 Information on containers – 22-23
 Guidelines on container evaluation – 21-22
 Unit conversion factors for volume calculation – (Table I) – C2,
 Container conversion chart (Dimensions to Gallons) – C5-C19
 Dike, definition – F3,
 ASD calculation guideline and facts for containers with or without – 25,
 Diked area, definition – F3,
 ASD calculation facts for containers with or without – 23,
 Guidelines on container evaluation – 21-22
 Fire width, definition – F3,
 Worksheet #1 for calculation of (undiked container)- B2,
 Worksheet #2 for calculation of (diked container) – B3
 Flash point, definition – F3
 Hazard, definition – F3
 Hazardous gas, definition – F3,
 Specific hazardous gases (24 CFR 51C) – (Table IV) – C3
 Hazardous liquid, definition – F3,
 Specific hazardous liquids (24 CFR 51C) – (Table III) – C3
 Hazardous product (or substances), definition – F3,
 Specific hazardous substances – (Tables III, IV, V and VI) – C3-C4
 Mitigation, definition – F4,
 Flowchart illustrating analysis – 45, A4
 Scenarios – 46-49
 Pulse oximeter, definition – F4,
 Study on the determination of threshold temperature for burning injury – 12-13
 Scaled distance, definition – F5,
 Mathematical formula – 13
 Standoff distance – as the numerator of the mathematical formula for determining the –
 13

Thermal radiation, definition – F5,

Applicability – 10,

Review of the standard – 12-13,

Compliance process – 17-18,

Flowchart illustrating procedure for calculation of ASD for – A2-A3

Examples – 30-38

TNT equivalent weight, definition – F5,

As the denominator of the mathematical formula for determining the scaled distance - 13

DRAFT
