Represents or rounds to zero. ¹ GSE = government-sponsored enterprises. ² Syndicated loans to nonfinancial corporate business by nonprofits and domestic hedge funds. ³ Only those directly held and those in closed-end and exchange-traded funds.
 Other equities are included in mutual funds and life insurance and pension reserves. ⁴ See also Table 1217.

Table 1170. Financial Assets Held by Families by Type of Asset: 2004 and 2007

Median value in thousands of constant 2007 dollars (25.3 represents \$25,300). All dollar figures are adjusted to 2007 dollars using the "current methods" version of the consumer price index for all urban consumers published by U.S. Bureau of Labor Statistics. Families include one-person units; for definition of family, see text, Section 1. Based on Survey of Consumer Finances; see Appendix III]

B Base figure too small. ¹ Includes other types of financial assets, not shown separately. ² Checking, savings, and money market deposit accounts, money market mutual funds, and call accounts at brokerages. ³ Covers only those stocks and bonds that are directly held by families outside mutual funds, relievement accounts, and other managed assets. ⁴ Excludes money market mutual funds and indirectly held mutual funds and includes all other types of directly held pooled investment funds, such as traditional open-ended and closed-end mutual funds, real estate investment trusts, and hedge funds. ⁵ The tax-deferred retirement accounts consist of IRAS, Keogh accounts, and certain employer-sponsored accounts. Employer-sponsored accounts include 401(k), 403(b), and thrift saving accounts from current or past jobs; other current job plans from which loans or withdrawals can be made; and accounts from past jobs from which the family expects to receive the account balance in the future. ⁵ The value of such policies according to their current cash value, not their death benefit. ⁵ Includes personal annuities and trusts with an equity interest and managed investment accounts. ⁵ Percentiles of income distribution in 2007 dollars: 20th: \$20,600; 40th: \$36,500; 60th: \$372,000; 90th: \$98,200. Percentile: A value on a scale of zero to 100 that indicates the percent of a distribution that is equal to or below it. ⁵ Median value of financial asset for families holding such assets.

Table 1175. Household Debt-Service Payments and Financial Obligations as a Percentage of Disposable Personal Income: 1990 to 2010

[As of end of year, seasonally adjusted. Household debt service ratio is an estimate of the ratio of debt payments to disposable personal income. Debt payments consist of the estimated required payments on outstanding mortgage and consumer debt. The financial obligations ratio adds automobile lease payments, rental payments on tenant-occupied property, homeowners' insurance, and property tax payments to the debt service ratio]

Assets of assisted institutions	146.6	0.4	0.2	_	-	2.6	371.9	169.7	92.1

⁻ Represents zero. Z Less than \$50 million.¹ Does not include foreign branch assets.² Excludes foreign office deposits, which are uninsured.³ In general, insured deposits are total domestic deposits minus estimated uninsured deposits. Prior to September 30, 2009 insured deposits included deposits in accounts of \$100,000 or less, beginning September 30, 2009, insured deposits include deposits in accounts of \$250,000 or less. The Dodd-Frank Wall Street Reform and Consumer Protection Act temporarily provides unlimited coverage for noninterest bearing transaction accounts for two years begining December 31, 2010. Begining in the fourth quarter of 2010, estimates of insured deposits include the entire balance of noninterest bearing transaction accounts.⁴ DIF balance as percent of DIF-insured deposits.

¹ Net operating revenue equals net interest income plus noninterest income. Net operating revenue equals income excluding discretionary transactions such as gains or losses on the sale of investment securities and extraordinary items. Income taxes subtracted from operating income have been adjusted to exclude the portion applicable to securities gains or losses.² Net income (including securities transactions and nonrecurring items) as a percentage of average total assets.³ Net income as a percentage of average total equity capital.⁴ Interest income less interest expense as a percentage of average earning assets (i.e. the profit margin a bank earns on its loans and investments).⁵ Total loans and leases charged off (removed from balance sheet because of uncollectibility), less amounts recovered on loans and leases previously charged off.⁵ Noncurrent assets: the sum of loans, leases, debt securities and other assets that are 90 days or more past due, or in nonaccrual status. Other real estate owned, primarily foreclosed property.

Table 1181. FDIC-Insured Financial Institutions—Number of Offices and Deposits by State: 2009

[As of June 30 (7,675.6 represents \$7,675,620,000,000). Includes insured U.S. branches of foreign banks. The term "offices" includes both main offices and branches. "Banking office" is defined to include all offices and facilities that actually hold deposits, and does not include loan production offices, computer centers, and other nondeposit installations, such as automated teller machines (ATMs). Several institutions have designated home offices that do not accept deposits; these have been included to provide a more complete listing of all offices. The figures for each geographical area only include deposits of offices located within that area. Based on the Summary of Deposits survey!

Table 1182. U.S. Banking Offices of Foreign Banks-Summary: 1990 to 2010

[In billions of dollars, except as indicated (834 represents \$834,000,000,000). As of December. Covers the U.S. offices of foreign banking organizations that are located in the 50 states and the District of Columbia. Offices located in Puerto Rico, American Samoa, Guam, the Virgin Islands and other U.S.-affiliated insular areas are excluded. Foreign-owned institutions are those owned by a bank located outside of the United States and its affiliated insular areas. The U.S. offices of foreign banking organizations consist of U.S. branches and agencies of foreign banks and bank subsidiaries of foreign banking organizations. The latter are U.S. commercial banks of which more than 25 percent are owned by a foreign banking organization or where the relationship is reported as being a controlling relationship by the filer of the FR Y-10 (Report of Changes in Organizational Structure) report form]

Table 1184. Noncash Payments by Method of Payment and ATM Cash Withdrawals: 2006 and 2009

[95.2 represents 95,200,000,000. Based on two data collection efforts to estimate the annual number and value of significant types of noncash Estimates of check payments and ATM withdrawals were based on findings from the payments. Depository Institutions Based on two data collection efforts to estimate the annual number and value of significant types of noncash payments. Estimates of check payments and ATM withdrawals were based on findings from the Depository Institutions Payments Study (2010 DI study). Electronic payments volume estimates were based on findings from the Electronic Payments Study and supplemented by the 2010 DI study. The Depository Institutions Payments Study collected the number and value of different types of payments from deposit accounts at a representative, random sample of depository institutions. A total of 1,311 depository institutions (commercial banks, savings institutions, and credit unions) from a stratified random sample of 2,700 institutions provided data for the survey. The Electronic Payments Study estimated the number and value of electronic payments in the United States for calendar year 2009. Data were collected by surveying payment networks and card issuers. Of the 116 organizations asked to participate, 94 of the largest organizations provided data. Respondents to this study collectively accounted for an estimated 95.5 percent of the electronic transactions and 99.6 percent of the electronic payments value in the United States]

NA Not available. ¹ A debit card is a card that automatically deducts the amount of a purchase from the money in an account. ² A smart card is a type of payment card containing a computer chip which is set to hold a sum of money. As the card is used, purchases are subtracted from that sum. ³ Prepaid cards are cards that contain a stored value, or a value that has been paid up-front, allowing you to use the card much like cash. As you use the card, the prepaid value is drawn down. Examples are phone cards and gift cards. Smart cards are different from prepaid cards in that you can add money to the card at special machines designed for smart cards or sometimes at ATMs.

¹ The question on ATM cards asked whether any member of the household had an ATM card, not whether the member used it. The other questions asked about usage of other instruments. ² The question on software asked whether the respondent or spouse/partner uses any type of computer software to help in managing their money. ³ Low income is defined as less than 50 percent of the median household income; moderate income is 50 to 80 income is 80 to 120 percent of the median; and upper income is greater than 120 percent of the median. Each survey refers to income in the previous year. Median income was \$41,990 in 2000 and \$48,201 in 2006.

Table 1193. Characteristics of Conventional First Mortgage Loans for Purchase of Single-Family Homes: 2000 to 2010

[In percent, except as indicated (for purchase price, 234.9 represents \$234,900). Annual averages. Covers fully amortized conventional mortgage loans used to purchase single-family nonfarm homes. Excludes refinancing loans, nonamortized and balloon loans, loans insured by the Federal Housing Administration, and loans guaranteed by the Veterans Administration. Based on a sample of mortgage lenders, including savings and loans associations, savings banks, commercial banks, and mortgage companies!

Table 1194. Mortgage Originations and Delinquency and Foreclosure Rates: 1990 to 2010

[In percent, except as indicated (459 represents \$459,000,000,000). Covers one- to four-family residential nonfarm mortgage loans. Mortgage origination is the making of a new mortgage, including all steps taken by a lender to attract and qualify a borrower, process the mortgage loan, and place it on the lender's books. Based on the National Delinquency Survey which covers 45 million loans on one- to four-unit properties, representing between 80 to 85 percent of all 'first-lien' residential mortgage loans outstanding. Loans surveyed were reported by approximately 120 lenders, including mortgage bankers, commercial banks, and thrifts]

Table 1195. Delinquency Rates and Charge-Off Rates on Loans at Insured Commercial Banks: 1990 to 2010

[In percent. Annual averages of quarterly figures, not seasonally adjusted. Delinquent loans are those past due 30 days or more and still accruing interest as well as those in nonaccrual status. They are measured as a percentage of end-of-period loans. Charge-offs, which are the value of loans removed from the books and charged against loss reserves, are measured net of recoveries as a percentage of average loans and annualized. Includes only U.S.-chartered commercial banks]

Table 1203. U.S. Purchases and Sales of Foreign Bonds and Stocks, 1990 to 2010, and by Selected Country, 2010

In billions of dollars (31.2 represents \$31,200,000,000). Covers transactions in all types of long-term foreign securities by foreigners as reported to the Treasury International Capital Reporting System by banks, brokers, and other entities in the United States. Data cover new issues of securities, transactions in outstanding issues, and redemptions of securities. Includes transactions executed in the United States for the account of foreigners, and transactions executed abroad for the account of reporting institutions and their domestic customers. Data by country show the country of location of the foreign buyers and sellers who deal directly with reporting institutions in the United States. The data do not necessarily indicate the country of beneficial owner or issuer. The term "foreigner" covers all institutions and individuals domiciled outside the United States, including U.S. citizens domiciled abroad, and the foreign branches, subsidiaries, and other affiliates abroad of U.S. banks and businesses; the central governments, central banks, and other official institutions of foreign countries; and international and regional organizations. "Foreigner" also includes persons in the United States to the extent that they are known by reporting institutions to be acting on behalf of foreigners. Excludes acquisitions of foreign stocks through mergers that involve stock swaps. Including stock swaps, net sales of foreign securities was \$163 billion in 2010. Minus sign (-) indicates net sales by U.S. investors or a net inflow of capital into the United States)

Table 1205. Foreign Purchases and Sales of U.S. Securities by Type of Security, 1990 to 2010, and by Selected Country, 2010

[In billions of dollars (18.7 represents \$18,700,000,000). Covers transactions in all types of long-term domestic securities by foreigners as reported as reported to the Treasury International Capital Reporting System by banks, brokers, and other entities in the United States (except nonmarketable U.S. Treasury notes, foreign series; and nonmarketable U.S. Treasury bonds and notes, foreign currency series). Data by country show the country of domicile of the foreign buyers and sellers of the securities; in the case of outstanding issues, this may differ from the country of the original issuer. Excludes U.S. equities acquired through mergers and reincorporations that involve stock swaps and principal repayment flows on foreign holdings of U.S. government agency and corporate asset-backed securities (ABS). Including stock swaps and accounting for ABS repayment flows, net purchases of U.S. securities was \$716 billion in 2010. Minus sign (-) indicates net sales by foreigners or a net outflow of capital from the United States]

¹ Standard & Poor's Indices are market-value weighted and are chosen for market size, liquidity, and industry group representation. The S&P 500 index represents 500 large publicly-traded companies. The S&P MidCap Index tracks mid-cap companies. The S&P SmallCap Index consists of 600 domestic small-cap stocks. ² The Russell 1000 and 3000 indices show respectively the 1000 and 3000 largest capitalization stocks in the United States. The Russell 2000 index shows the 2000 largest capitalization stocks in the United States after the first 1000. ² Dow-Jones Wilship 5000 Composite Index (full-cap) measures the performance of all U.S. headquartered equity securities with readily available prices. Source: Dow-Jones & Company, Inc., New York, NY, *Dow-Jones Indexes*, (copyright). ⁴ Source: U.S. Council of Economic Advisors, *Economic Indicators*, monthly. ⁵ Aggregate cash dividends (based on latest known annual rate) divided by aggregate market value based on Wednesday closing prices. Averages of monthly figures. ⁵ Averages of quarterly ratios which are ratio of earnings (after taxes) for 4 quarters ending with particular quarter-to-price index for last day of that quarter.

Table 1223. Automobile Insurance—Average Expenditures Per Insured Vehicle by State: 2000 and 2008

[In dollars. Average expenditure equals total premiums written divided by liability car-years. A car-year is equal to 365 days of insured coverage for a single vehicle. The average expenditures for automobile insurance in a state are affected by a number of factors, including the underlying rate structure, the coverages purchased, the deductibles and limits selected, the types of vehicles insured, and the distribution of driver characteristics. The NAIC does not rank state average expenditures and does not endorse any conclusions drawn from this data]

¹ Based on the HO-4 renters insurance policy for tenants. Includes broad named-peril coverage for the personal property of tenants. ² Based on the HO-3 homeowner package policy for owner-occupied dwellings, 1–4 family units. Provides "all risks" coverage (except those specifically excluded in the policy) on buildings, broad named-peril coverage on personal property, and is the most common package written. ³ The Texas Insurance Commissioner promulgates residential policy forms which are similar but not identical to the standard forms.
