---

Dear Colleague,

The Editorial Board of the *International Journal of Applied Aviation Studies (IJAAS)* welcomes researchers, academicians, technical professionals, and other interested individuals and organizations to submit manuscripts on aviation relevant topics (Training, Human Factors, ATC, CRM, Safety Management Systems, etc.)

The *IJAAS*, a refereed publication of the FAA Academy in Oklahoma City, Oklahoma is published twice each year. Our readers are academicians, aviation professionals, and training specialists in the field of aviation. All articles withstand a blind review by a panel of at least three judges from the manuscript's area of focus.

*Manuscript:* Rather than follow the traditional process of supplying three copies of your manuscript, we prefer that you **send your manuscript via e-mail to the IJAAS** ([9amcamaijaas@faa.gov](mailto:9amcamaijaas@faa.gov)). We prefer that each manuscript be prepared in **Microsoft Word** (at present, we are using Microsoft Office 2007). **All graphics should be 300 dpi, .tif, .bmp, or .jpg.** Graphics that do not meet this standard may be returned to the authors for alteration. The graphics should be incorporated into the manuscript separately from the titles.

**Please provide an abstract (150 words or less) and a running header title (50 characters or less)** for your manuscript. Additionally, **include your address, telephone number, and e-mail address** after the names of the authors, and advise us if you want this information withheld during publication.

The manuscript should be 40 pages or less, double-spaced, and should conform to the standards of the **Publication Manual of the American Psychological Association (6th edition)**. We prefer italics rather than underlined titles or journal names.

*Permissions:* The editor assumes that all copied material has been included by permission of the original author or has been suitably cited.

*Regulations:* This journal publishes original work. We assume that you have not previously had this article published, nor submitted this article to another publication. In addition, we expect that each article has met the ethical standards of the American Psychological Association or suitable alternate during the treatment of your subjects.

This is a standing call for papers. Manuscripts will be considered in the order they are received.

**Manuscripts received by April 15 will be considered for the summer issue. The winter issue will accept submissions received by August 15.** Your submission should be sent via e-mail to: [9amcamaijaas@faa.gov](mailto:9amcamaijaas@faa.gov). If the total file size exceeds 10 mb, please call IJAAS's Managing Editor, Kay Chisholm, at (405) 954-3264.

Respectfully,

A handwritten signature in black ink that reads "Gary R. Condley". The signature is fluid and cursive, with a long horizontal line extending from the end of the name.

Gary R. Condley  
Publisher,  
Superintendent of the FAA Academy
