

a National Estuarine Research Reserve System program

Field and research-based professional development

integrating content, methods, and activities on

watersheds and estuaries

Waquoit Bay National Estuarine Research Reserve, Falmouth, Cape Cod, MA

July 9-12, 2012 plus follow up sessions fall, 2012 and spring, 2013

Designed for math and science teachers of grades 7-12

Others are welcome to apply

Aligned with state/national frameworks

Work with local scientists and experienced coastal educators.

Explore coastal habitats and carry out field studies.

Learn how to use real data and guide student investigations.

Try out Estuaries 101, web-based curriculum.

Workshop is free but space is limited so application is required by April 22.*

Lodging (if needed) and some meals will be provided.

Teachers will be awarded \$200 implementation mini grants, and \$150 of equipment.

3 graduate credits available from Framingham College for \$225 or 67.5 PDPs (free).

*** Application and course description are available at**
