Ask a Librarian

QuestionPoint is a Cooperative Virtual Reference service developed by OCLC (Online Computer Library Center) and the U.S. Library of Congress and is supported by institutions worldwide. This digital, collaborative reference service is available 24 hours per day, 7 days per week and allows libraries and information centers to expand reference services with shared resources and subject specialists around the world. Questions submitted by patrons via this Web-based service may be referred to the Global Network or to the consortium of Defense (DoD) libraries for a response.

DTIC's Scientific and Technical Resources

The scope of DTIC's scientific and technical (S&T) collection covers all areas of defense research, including biological and medical science, environmental pollution and control, and behavioral and social science. The collection also contains Department of Defense (DoD) directives and instructions, budget information, conference and symposia proceedings, patents and patent applications, and other topics of interest to the defense community.

DTIC offers three Web sites for access to its resources and services: DTIC Online; DTIC Online Access Controlled; and DTIC Online Classified. Entrance to each site is based on an individual's registration level and provides the respective access and information coverage.

DTIC Online (Public) does not require registration and offers easy access to publicly accessible information from defense and federal Web sites.

DTIC Online Access Controlled requires registration and is a focal point for information on research and engineering activities within DoD. It is sponsored by Director, Defense Research and Engineering (DDR&E) and maintained by DTIC. Resources found here include:

- [DoD Sites and Collections](#)
- [DoD-Wide Science & Technology Search](#)

Current Awareness Products

DTIC offers a variety of free current awareness alerts and services to the public and our registered users. DTIC Online current awareness products include:

- **DTIC® Review** - Brings readers a sampling of selected full-text documents from the DTIC collection on a topic of current interest, as well as a bibliography and Internet addresses to other related references.
- **Open Architecture Initiative (OAI) RSS** - RSS is an acronym for Really Simple Syndication or Rich Site Summary. It is an XML-based method for distributing the latest news and information from a website that can be easily read by a variety of news readers or aggregators.
- **Scheduled Searches** - Provides registered users with the latest information in their subject areas of interest. DTIC's Technical Reports, Research Summaries, and Independent Research and Development (restricted to U.S. Government personnel) databases can be searched. Users determine if they want to periodically repeat searches that are particularly useful, and then schedule the searches to be executed on a regular, quarterly schedule. An initial search is executed, and the results (if available) are accessed and downloaded in PDF formats.
- **Free electronic technical reports** - Free electronic technical reports, DTIC's unclassified, uncontrolled, unlimited technical reports recently added to the DTIC technical reports database.

Interest Areas

Welcome to the Interest Area section of the DTIC Web site. These pages provide access to a very broad range of contacts, associations, blogs, conferences and research institutions appropriate to Science & Technology research communities.

This area is designed for the S&T research community, but is intended to be useful to anyone in the Department of Defense.

If you have comments on the content of any Interest Area Web page, please send them to the Interest Area manager of the specific page.

If you have suggestions for improvement or comments on this Web site, please forward them to ref@dtic.mil.

Interest Areas - Biomedical

Welcome to the Open Source Resources Page for the Biomedical Interest Area

This section of the DTIC Web site is designed to provide information on one of the many communities of interest served by DTIC.

Biomedical Technology Areas:

- Infectious Diseases of Military Importance**
 Protection against endemic infectious disease through development of risk knowledge, vaccines, and therapeutic agents.
- Military Operational Medicine**
 Countermeasures to occupational and environmental hazards, generates biomedical information to maximize operational health and safety, and provides biomedical products, materiel specifications, or information.
- Combat Casualty Care**
 Techniques and materiel supporting a continuum of care beginning with lifesaving interventions in forward echelons, extends through evacuation, and reduces long-term effects of combat injuries.
- Medical Radiological Defense**

Authorized Users Access More Information

But First You Must Register

If eligible, you will gain access to much more of the DTIC collection

To be eligible, you must meet one of the following criteria:

- Employee, contractor, or potential contractor of DoD
- Employee or contractor of the U.S. Government
- U.S. Government researcher or researcher funded by DoD
- Participant in the Small Business Innovation Research or Small Business Technology Transfer (SBIR/STTR) programs
- Faculty, staff, or student at Historically Black Colleges and

DoD Congressional Budget S&T Resources

DoD Congressional Budget Data

- Provides the President's Budget Request (PBR) and the congressional markups for DoD RDT&E, O&M, Procurement, and Personnel.
- DTIC makes PDF and Excel spreadsheet versions of the budget reports available after they are posted on the LOC Web site.

Welcome to the Defense Technical Information Center. You can access DoD Congressional Budget Data reports on this site after they are filed.

Disclaimer: The Congressional budget data on this site is derived from the Library of Congress' Web site. DTIC scans these reports and makes them available in PDF and Excel formats which are easier to manipulate. The content of these reports should be overlooked. The scanning process is described at <http://www.thomas.gov>.

Download: Select links in the table below. Selecting the report link will allow you to download the report.

What is a militarily critical technology?

“Technology or technologies essential to the design, development, production, operation, application, or maintenance of an article or service which makes or could make a significant contribution to the military potential of any country, including the United States. This includes, but is not limited to, design and manufacturing know-how, technical data, keystone equipment, and inspection and test equipment.” (Ref DODI 3020.46)

Copyright Guidance DTIC A-Z

DTIC® Guidelines for Determining Copy Rights

Purpose

Because R&D managers and STI information center staff are often uncertain about what to do with documents that come to them with copyright notices, these guidelines have been written to help managers and staff in determining Government rights in copyrighted works. However, they are not a substitute for professional legal advice: *Because the copyright law is complex and situation-based, consult your agency legal counsel with specific copyright questions.*

1) Is this a document authored by Government employees?

If yes, it is NOT COPYRIGHTED and the Government may reproduce and distribute the work.

2) Is this document a joint work by Government and non-Government authors?

If yes, the Government may reproduce and distribute works made jointly by non-Government parties and Government employees working within the scope of their Government jobs.

3) Is this a document produced by work done under Government contract?

If yes, the contractor usually owns the copyright and the Government has certain rights to the work. Generally the Government has unlimited or Government purpose rights and may reproduce and distribute the work.

4) Is this document the result of work done under a federally-funded grant?

If yes, the grantee usually owns the copyright and the Government has certain rights to the work. Generally the Government has unlimited or Government purpose rights and may reproduce and distribute the work.

5) Was this document received under an agreement, partnership or exchange?

Ordering From DTIC

To order products and services from DTIC®, **YOU MUST BE A REGISTERED USER.** To register, you must be a employee of the Federal Government or a Federal Government Contractor or Grantee. See DTIC's [eligibility requirements](#) for more information.

Order if not registered with DTIC

Those not registered with DTIC may obtain unclassified, unlimited DTIC reports from the National Technical Information Service at their prevailing cost. To find DTIC reports at NTIS, search by accession number. If the accession number is in the format AD0123456, remove the 0 after AD and search for AD123456.

National Technical Information Service (NTIS)
5285 Port Royal Road
Springfield, VA 22161
Phone: 1-800-553-NTIS (6847)
[NTIS Online Orders.](#)

Order from outside the U.S., if not registered with DTIC

Requests for information on pricing and availability must be sent to info@ntis.gov. NTIS also has arrangements with [international cooperating organizations](#) throughout the world to supply documents to overseas customers.

Search DTIC TR Getting Started

DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004

- **To find one or more terms: Type terms in the search box with an OR between the words.**

radar retrieves results that contain the term *radar*

homeland or *security* retrieves results that contain either the term *homeland* or the term *security* or both terms

NOTE: *homeland security* retrieves only results that contain both terms

- **To find a phrase or adjacent terms: Enclose the adjacent terms or phrase in quotes.**

“secretary of defense” retrieves results that contain the exact match of the phrase

Search DTIC TR Getting Started

DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004

- **Singular and Plural:** Lemmatization/Stemming: Presently automatically searches for singulars and plurals
- **Case and Punctuation:** Ignored
- **Boolean: Use AND, OR, NOT**

Do not encase terms in < >.

Do not use commas for Boolean OR

radar and sites will retrieve results that contain both the term *radar* and the term *sites*

disc or disk will retrieve results that contain either the term *disc* or the term *disk*

homeland not security will retrieve results that contain the term *homeland* but not the term *security*

Search DTIC TR Author Search

DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004

➤ Authors vary the forms of their names and are entered “as is” on submitted documents. Search an author’s name more than one way.

- Invert the name
- **Place quotes around the search statement (phrase)** Use no other punctuation

To find all versions of a name, it is recommended to use this broad search and leave out the middle initial since the author may not have used it.

“smith r” or “smith robert”

Smith, Robert

Smith, Robert Q

Smith, Robert Dale

Smiths, R

Smith, R S

Smith, R D

Smith, R Daniel

Smith, R Allen

Search DTIC TR Accession Number

DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004

- Accession Document (AD) number is assigned to each item added to the DTIC Technical Reports Collection for the purpose of identification, control, and retrieval.
 - Pack the number removing all spaces and punctuation and any characters after the 6-digit number.
 - For this site, AD denotes an accession number and is considered part of the number for searching.
 - All AD numbers consist of a total of 9 alphanumeric characters. This site adds the leading 0 (zero) to the older documents. You may find AD numbers listed in other documents without the leading 0 (zero) but to search this site, you must add the 0 (zero).
 - Examples:
 - Enter AD786753 as AD0786753
 - Enter AD-A346 513 as ADA346513
 - Enter A000009 as ADA000009

Search DTIC TR Nesting

DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004

➤ Nesting: Enclose or nest terms in parentheses to combine similar concepts.

- Examples:

(3d or 3-d or “3 dimensional” or “three dimensional”) and (imaging or display)

This will create a set containing any of the terms *3d or 3-d or 3 dimensional or three dimensional* and another set containing either of the terms *imaging or display*. The two sets will be combined so that at least one of the terms from each set appears in the citation.

DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004

MultiSearch

Advanced Search - Help

Advanced Search

- Advanced Search enables you to do field-specific searches for Full Record, Title, Author, Abstract, Affiliation and Date Range. You may also select the sources you would like to search.
- Entering a query in 'Full Record' will search the text of an entire bibliographic record. Generally, this will yield the most ranked results.
- To do a more specific search, enter search terms in any of the other fields. When more fields are included in a search, fewer ranked results may be returned but they tend to be ranked more highly. By using a combination of fields you can customize your search in a variety of ways.

Query Expressions

A query expression may consist of single term or you may construct a complex query using a combination of multiple terms, boolean operators, quoted phrases, parentheses and wildcards.

- **Multiple terms**

- Terms with no boolean operator specified will have AND applied by default.
*Example: A search on **frogs toads** will return results on both frogs and toads*

- **Boolean operators**

- The boolean operations AND, OR and NOT are used to construct complex queries. (Note: These operators are ignored within quoted phrases)
*Example: A search on **frogs AND toads** will return results where both frogs and toads appear; **frogs OR toads** will return results where either frogs or toads appear; **frogs NOT toads** will return results with frogs and without toads.*

- **Exact phrases**

- You can search for an exact phrase by enclosing the phrase in double quotation marks.
*Example: A search on **nitrate cycling** will return results where the term nitrate is immediately followed by the term cycling.*
- All wildcards, parentheses and boolean operators contained within a quoted phrase are ignored as operators but will be interpreted as literal characters in the phrase.

- **Parentheses**

- Using parentheses allows you to specify the order in which boolean expressions are evaluated.
*Example: **global ((climate change) OR warming)** will search for either global climate change or global warming; similarly, **((black holes) or (dark matter)) AND gravitation** will search for either black and holes and gravitation or dark and matter and gravitation.*

- **Wildcards**

DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004
