Purpose

DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004

- Offers a unified interface to search DoD S&T and other information resources
- Provides the added value of having the sources organized on one site
- Allows users to search across many resources
- Allows users to customize the site

DTIC Online Access Controlled

DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004

- DTIC Online Access Controlled (DOAC) –
<https://www.dtic.mil>
 - Ability to search multiple collections
 - Combines the resources of Private STINET, TEMS and the R&E Portal
 - R&E Portal (<https://rdte.osd.mil>) has been shut down.
 - Private STINET and TEMS will continue to operate until all search functionality is present in the new system.

Who Can Access DOAC?

DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004

- Anyone who currently accesses:
 - Private STINET
 - TEMS

- DoDTechipedia users are eligible to register for DOAC. A prospective user must complete a separate registration.

Requirement:

**You may need to renew your account
or complete your registration**

https://www.dtic.mil

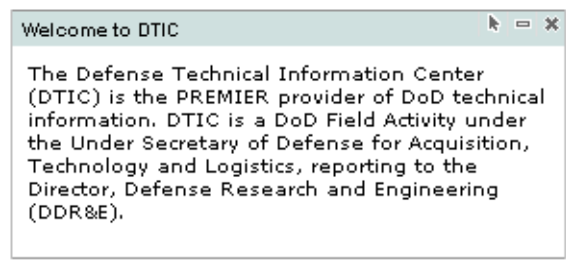

Home | About Us | Site Map | Contact Us

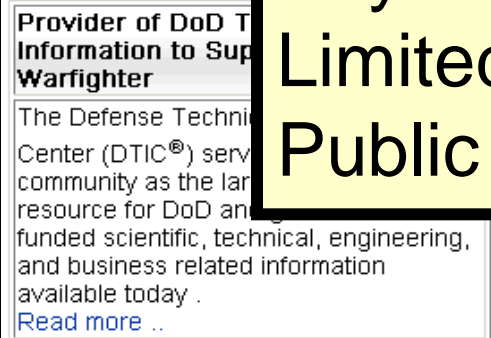

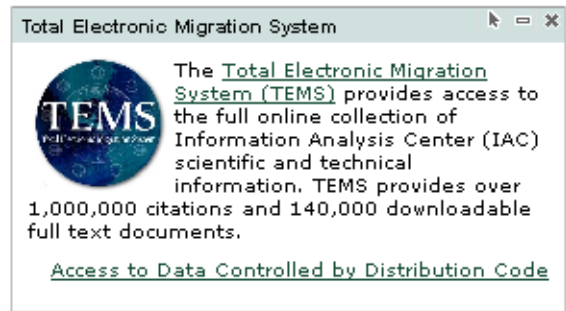

Look and feel similar for both systems:

▼ Acquisition

- Acquisition Web Sites**
Links to Acquisition Web sites.
- MCTL**
The Militarily Critical Technologies List (MCTL) is a process. The technologies included in the MCTL are those that are considered to be of major importance to the national defense.

▼ General Interest

- ASSIST**
Acquisition Streamlining & Standardization (ASSIST) provides specifications and standards in the acquisition process.
- British Library**
The British Library's journal and conference proceedings database.
- DoD Strategic Documents**
The DoD Strategic Documents database provides access to the Department of Defense's strategic documents.
- DTIC Review**
The DTIC Review brings its readers a sampling of documents from the DTIC database.
- DTIC SBIR/STTR Human Systems and Performance**
The DTIC Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) Human Systems and Performance database provides access to the Department of Defense's SBIR/STTR Human Systems and Performance database.
- IACs**
Information Analysis Centers (IACs) are centers of expertise in a specific area of science, technology, and engineering, and provide information to scientists, engineers, and program managers.
- JDEIS**
The Joint Doctrine, Education and Training Electronic Information System (JDEIS) is the primary authoritative source of joint doctrine, education, training and related information.

Preview [Close Window](#)

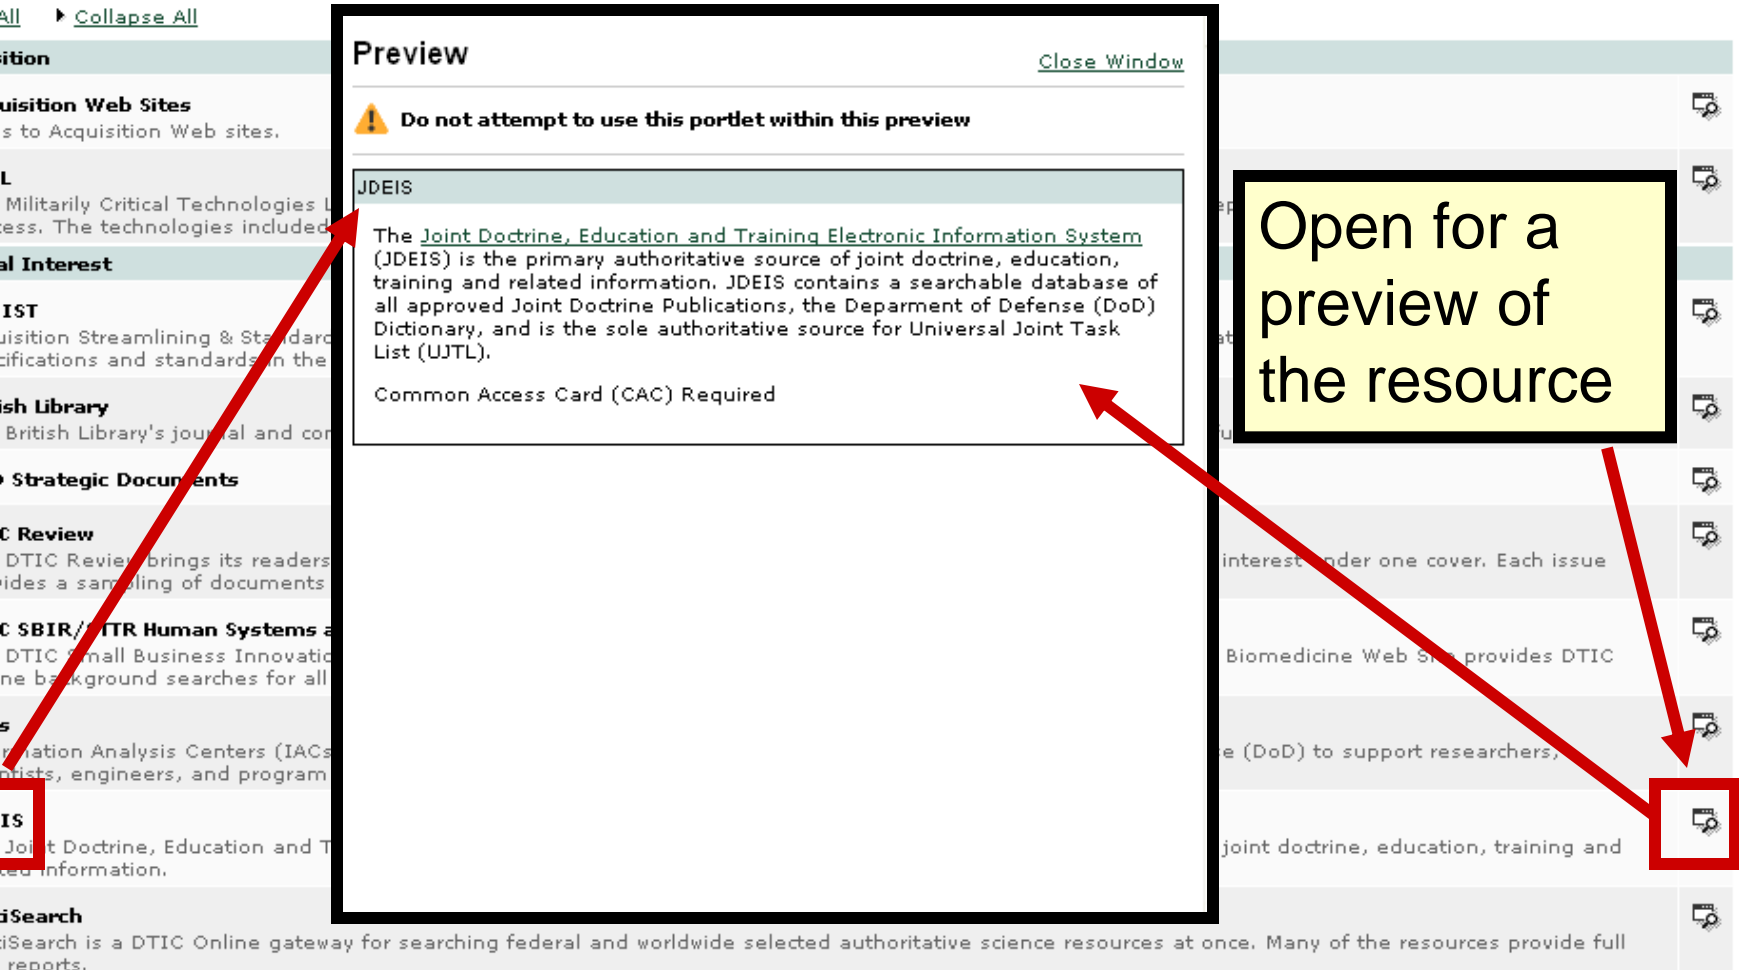

Do not attempt to use this portlet within this preview

JDEIS

The [Joint Doctrine, Education and Training Electronic Information System \(JDEIS\)](#) is the primary authoritative source of joint doctrine, education, training and related information. JDEIS contains a searchable database of all approved Joint Doctrine Publications, the Department of Defense (DoD) Dictionary, and is the sole authoritative source for Universal Joint Task List (UJTL).

Common Access Card (CAC) Required

Select and Add a Portlet

▼ [Expand All](#) ▶ [Collapse All](#)

▶ Acquisition

▼ General Interest

ASSIST
Acquisition Streamlining & Standardization Information System (ASSIST) provides access to current information associated with military and federal specifications and management of the Defense Standardization Program (DSP).

AULIMP
The Air University Library's Index to Military Periodicals (AULIMP) is a subject index to significant articles, news items, and editorials from English language military and periodicals. The Index contains citations since 1988.

British Library
The British Library's journal and conference proceedings collection provides access to a wide range of scientific, technical, and medical journals.

DoD Strategic Documents

DoDTechipedia
DoDTechipedia is DoD's first enterprise-wide, social-networking tool focused on technical information.

DTIC Review
The DTIC Review brings its readers the full-text of selected technical reports and documents from a DTIC collection on a specific topic of current interest.

DTIC SBIR/STTR Human Systems and Biomedicine Web Site
The DTIC Small Business Innovation Research/Small Business Technology Transitions (SBIR/STTR) Human Systems and Biomedicine Web Site provides DTIC Online Bibliography searches for all topics in these two subject areas from FY04 to Present.

EBSCO Academic Search
EBSCO Academic Search Complete is a database of articles and article citations from a wide range of academic subjects.

IACs
Information Analysis Centers (IACs) are research and analysis organizations that support program managers with expertise in all areas of Defense research and development.

JDEIS
The Joint Doctrine, Education and Training Electronic Information System (JDEIS) provides access to a wide range of electronic information on education, training and related topics.

Knovel Library
The Knovel Library combines authoritative reference content from major Sci-tech publishers including John Wiley & Sons, McGraw-Hill and Elsevier. This data is enhanced with analytical tools to help analyze and manipulate the data.

SCAMPI
Staff College Automated Military Periodicals Index (SCAMPI) provides access to a wide range of scientific, operational warfare, and operations other than military (OTM) information.

STCR Activities Calendar
The Reliance 21 Science & Technology Collaborative (STCR) Activities Calendar provides a listing of STCR activities and events.

Tools
Links to DTIC Tools

TopicLINKS
TopicLINKS is a gateway to scientific and technical information.

Wisconsin Project Risk Report
The Wisconsin Project on Nuclear Arms Control (WPNAC) Risk Report contains unclassified information about nuclear weapons and related issues.

DTIC's Scientific and Technical Resources

The scope of DTIC's scientific and technical (S&T) collection covers all areas of defense research, including biological and medical science, environmental pollution and control, and behavioral and social science. The collection also contains Department of Defense (DoD) directives and instructions, budget information, conference and symposia proceedings, patents and patent applications, and other topics of interest to the defense community.

DTIC offers three Web sites for access to its resources and services: DTIC Online; DTIC Online Access Controlled; and DTIC Online Classified. Entrance to each site is based on an individual's registration level and provides the respective access and information coverage.

[DTIC Online \(Public\)](#) federal Web sites.

[DTIC Online Access Controlled](#) within DoD. It is sponsored by the Department of Defense. Access Controlled information is available to authorized users only.

DTIC Online Access Controlled Privacy, Security and Copyright Policy

Privacy

The [Privacy Act of 1974 \(5. U.S.C. 552a\)](#) requires the Defense Technical Information Center (DTIC) to inform and assure users of our protection of any information we collect. The details that follow show how we handle information about user visits to our Web site.

This Web site is established by DTIC as a service specifically and exclusively available to registered DTIC users.

If you visit our site to read or download information, we automatically collect and store the following information about your visit:

- The name of the Internet domain (e.g., "xcompany.com" if you use a private Internet access account or "yourschool.edu" if you are connecting from a university's domain) and the IP address (a number automatically assigned to your computer when you are using the Internet) from which you access our site
- The type of browser and operating system used to access our site
- Successful and unsuccessful logins
- Your user name and the date and time you accessed our site
- The Internet address of the Web site from which you linked directly to our site
- The pages you visit, document and citation downloads or views, product orders, forms completed, and other requested information

MultiSearch Advanced Search - Help

Advanced Search

- Advanced Search enables you to do field-specific searches for Full Record, Title, Author, Abstract, Affiliation and Date Range. You may also select the sources you would like to search.
- Entering a query in 'Full Record' will search the text of an entire bibliographic record. Generally, this will yield the most ranked results.
- To do a more specific search, enter search terms in any of the other fields. When more fields are included in a search, fewer ranked results may be returned but they tend to be ranked more highly. By using a combination of fields you can customize your search in a variety of ways.

Query Expressions

A query expression may consist of single term or you may construct a complex query using a combination of multiple terms, boolean operators, quoted phrases, parentheses and wildcards.

• Multiple terms

- Terms with no boolean operator specified will have AND applied by default.
*Example: A search on **frogs toads** will return results on both frogs and toads*

• Boolean operators

- The boolean operations AND, OR and NOT are used to construct complex queries. (Note: These operators are ignored within quoted phrases)
*Example: A search on **frogs AND toads** will return results where both frogs and toads appear; **frogs OR toads** will return results where either frogs or toads appear; **frogs NOT toads** will return results with frogs and without toads.*

• Exact phrases

- You can search for an exact phrase by enclosing the phrase in double quotation marks.
*Example: A search on **nitrate cycling** will return results where the term nitrate is immediately followed by the term cycling.*
- All wildcards, parentheses and boolean operators contained within a quoted phrase are ignored as operators but will be interpreted as literal characters in the phrase.

• Parentheses

- Using parentheses allows you to specify the order in which boolean expressions are evaluated.
*Example: **global ((climate change) OR warming)** will search for either global climate change or global warming; similarly, **((black holes) or (dark matter)) AND gravitation** will search for either black and holes and gravitation or dark and matter and gravitation.*

• Wildcards

DoDTechipedia

DoDTechipedia is DoD's first enterprise-wide, social-networking tool focused on the science and technology community. Using a wiki format, DoDTechipedia's goal is to foster communication and collaboration among DoD scientists, researchers, program managers, acquisition professionals and warfighters that results in greater capability and more rapidly implemented solutions being deployed to the warfighter.

Access restricted to DTIC Registered users.

Announcements

Mark your calendars for the DTIC 2009 Conference to be held on 6-8 April at the Hilton Alexandria Old Town, Alexandria, Virginia. More information regarding this conference can be found on the Conference Web site located at <http://www.dtic.mil/dtic/annualconf/2009Home.html>.

R&E Database Search

The [Research and Engineering \(R&E\) Database Search](#) allows you to interrogate the data that the Services and Agencies submitted for the FY2006 and FY2007 DoD E-Gov Data Calls. In addition to the parameters you choose on the query screen, the search is limited by the distribution codes associated with your DTIC user account. The data displayed in results is as it was provided to DTIC, with the exception of the financial values, which have been normalized to all be \$K.

Title: FOR FUTURE DEFENSE TECHNOLOGY-TRDI OVERVIEW
Subject Keywords: JAPAN, PLANNING, DEFENSE, TECHNICAL RESEARCH, CAPABILITIES, TRENDS, NANOTECHNOLOGY, BIOTECHNOLOGY, SENSORS, ROBOTICS, TERRORISM, CYBER ATTACK, ANTHRAX, BALLISTIC MISSILES, NET-CENTRIC, NETWORK-CENTRIC, INTELLIGENCE, COUNTER-TERRORISM, THREAT, INTERNATIONAL PEACE COOPERATION, UNDERWATER AUTONOMY, UUV, UNMANNED UNDERWATER VEHICLE, COUNTERMEASURES, TANKS, ARMORED VEHICLES, XP-1, C-X, NEXT-GENERATION PATROL AIRCRAFT, NEXT-GENERATION CARGO AIRCRAFT, KONGO, JFTM-1, F2, SOFTWARE RADIO, JOINT TACTICAL RADIO SYSTEM, JTRS, PACAD, PALM-SIZED AUTOMATED CHEMICAL AGENT DETECTOR, EXCHANGE PROGRAMS
IAC Report Identification: 24742
Type: TECHNICAL BRIEFING
Location: SURVIAC Library
Personal Author(s): ISHIZUKA, Y
Publication Date: 14 Jul 2008
Copies: 1
Classification: UNCLASSIFIED
Performing Organization: MINISTRY OF DEFENSE JAPAN
Secondary Distribution: Approved for public release; distribution is unlimited.
Abstract: BRIEFING PRESENTS JAPAN'S TECHNICAL RESEARCH AND DEVELOPMENT INSTITUTE STRATEGIES FOR FUTURE DEFENSE TECHNOLOGIES, ORGANIZATION AND FEATURES, CURRENT MAJOR R&D ACTIVITIES, AND INTERNATIONAL COOPERATION ACTIVITIES. INCLUDES DISK CONTAINING VIDEO OF KONGO MISSILE DEFENSE DEMO.

Search

The **Energy Citations Database (ECD)** provides free access to over 2.6 million science research citations with continued growth through regular updates. There are over 221,000 electronic documents, primarily from 1943 forward, available via the database. Citations and documents are made publicly available by the U.S.

A Distributed Portal to Select Science and Technology Conference Proceedings

A SCIENCE Accelerator Resource

Search: [CLEAR](#) [SEARCH](#) [Get Widget](#)

Conference Collections

Welcome to the DOE Office of Scientific and Technical Information's (OSTI) Science Conference Proceedings Portal. This distributed portal provides access to science and technology conference proceedings and conference papers from a number of authoritative sites (professional societies and national labs, largely) whose areas of interest in the physical sciences and technology intersect those of the Department of Energy. Proceedings and papers from scientific meetings can be found in these fields, among others: particle physics, nuclear physics, chemistry, petroleum, aeronautics and astronautics, meteorology, engineering, computer science, electric power, fossil fuels. From here you can simultaneously query any or all of the listed organizations and collections for scientific and technical conference proceedings or papers. Simply enter your search term(s) in the "Search" box, check one or more of the listed sites (or check "Select All"), and click the "Search" button.

- American Association of Petroleum Geologists (AAPG)
- Association for Computing Machinery (ACM)
- American Chemical Society (ACS)
- Electric Power Research Institute (EPRI)
- Institute of Electrical & Electronics Engineers (IEEE)
- International Society for Optical Engineering (SPIE)

Quick Search

Advanced Search

Search Tools

Search

[Search Tips](#): All Fields are being searched.
For best results, use AND between terms, wildcard*, or "exact phrase"

DTIC Query Language (DQL)

DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004

DTIC Query Language (DQL) is a query language designed by DTIC to be more user friendly to develop fielded search strategies for advanced searching. Its purpose is to provide the functionality presently available in Private STINET and easier to use than the FAST query language.

title:(cats and dogs) and docdatetime >= 01 oct 2004

➤ Case and punctuation is ignored

➤ Boolean operators

AND – must include both terms

- *Land and sea*

OR – must include either term

- *SEA OR land*

NOT – must not include the term that follows

- *Land not sea*

NOTE: The default between terms is *AND*

- ***Land water* retrieves *land and water***

DTIC Query Language (DQL)

DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004

➤ Phrase

Search phrases using double quotes.

- “Digital Control of Exchange Interaction in a Spin-Based Silicon Quantum Computer”

➤ Proximity operator

Use *near#* where # is a number from 1 to 10. The number indicates how many words appear between two words.

- *Airpower near1 specifically*
 - Finds: *Will airpower, specifically helicopters, replace tanks in 2010?*
- *title: 2010 near10 tanks*
 - Finds: *Tanks for the Memories? Will Airpower, Specifically Helicopters, Replace Tanks in 2010?*

DTIC Query Language (DQL)

DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004

➤ Singulars and plurals

Lemmatization (Stemming) presently searches for singulars and plurals but will be expanded to include more suffixes. A search for any term should find its singular and plural.

- *Tank* also finds *tanks*

Double quotes will turn off lemmatization.

- “*tanks*” searches only for the word tanks and does not search for tank.

Lemmatization is not working in the Title and Author boxes on the More Search Options page.

DTIC Query Language (DQL)

DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004

➤ Truncation

Use the asterisk (*) to replace multiple character.

Use the question mark (?) to replace a single character.

- *Defen?e*
- **terror**
- *Un*able*

➤ Nesting

Use parentheses

➤ Exact descriptors

They are searched the same way as in Private STINET. Enter the descriptor surrounded by double quotes and Zs.

- *"zradarz"*

DTIC Query Language (DQL)

DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004

➤ Date format

The format for date searching should be *dd mmm yyyy* or *d mmm yyyy*

- *docdatetime: 01 jan 2000*
- *docdatetime: 1 jan 2000*

➤ Relational operators

- = (equal to)
- > (greater than)
- < (less than)
- >= (greater than or equal to)
- <= (less than or equal to)

DTIC Query Language (DQL)

DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004

➤ Relational operators

Only work for specific fields that are in date or number formats. Presently, only works in the field, *docdatetime*.

- *docdatetime=01 jan 2000*
- *docdatetime >= 01 jan 2000 and docdatetime < 01 jan 2001*

➤ Fielded searching

To limit a search to a field, use the field mnemonic and a colon.

- *title:radar* retrieves the term radar in the title.

To search more than one term in a field, surround the terms with parentheses.

- *title: (submarines and sonar)*

DTIC Query Language (DQL)

DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004

➤ Authors

Enter an author's name in quotes to find them as a phrase in the author field. Most of the DTIC Online collections have authors' names in the order ***lastname firstname/initial middle name/initial***. You can include punctuation or leave it out.

- *"Harris, Robert V., Jr."*
- *"nethercote, w c e"*
- *"Leras, Byran M." and "Heiden, Charles G"*
- ***author:(“Leras, Byran M.” and “Heiden, Charles G”)***

DTIC Query Language (DQL)

DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004

NOTE: USING QUOTES

- Use only dumb quotes " "
- Dumb quotes appear when you type in the search box.
- Smart quotes “ ” usually appear when typing in MS Word.
 - Use "dumb quotes"
 - Do not use “smart quotes”

DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004

DTIC Online Access Controlled (DOAC): 10 Resources for Your Toolbox

10 Resources for Your Tool Box

#1 – DTIC Technical Reports

DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004

Description

- The results of Defense-sponsored research, development, test and evaluation (RDT&E) and studies and analysis efforts.

Type of Information

- Find technical reports, conference proceedings, theses, and foreign open-source literature.

How to Access

- DOAC – <https://www.dtic.mil> for all TRs. Search at the drop down banner or select “More Search Options.” For more sophisticated searching, go to Private STINET.

Search Tips

- DTIC Online and DOAC, use the FAST search language: assumes “and” between words, use quotes for phrases, asterisk for truncation, etc. See online search tip guide.
- Private STINET, TR database uses the Verity search language: no quotes for phrases, asterisk for truncation, replace punctuation with space. See “Private STINET Handbook” for complete list.

10 Resources for Your Tool Box

#2 – TEMS

DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004

Description

- 1,200,000 citations and 250,000 full text documents from the IACs.

Type of Information

- Find IAC documents on a variety of topics: advanced materials & manufacturing, reliability, CBRN, information assurance, software engineering.

How to Access

- DOAC – Add as a portlet on the home page
- URL: <https://tems-iac.dtic.mil>

Search Tips

- Use Convera search language: use quotes for phrases, asterisk for truncation, and Boolean operators AND, OR, and NOT.
- Search TEMS and the DTIC technical reports collections together on the “More Search Options” page on DOAC.

10 Resources for Your Tool Box

#3 – DoDTechipedia

DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004

Description

- DoD wiki open to DoD employees, federal agency employees, and contractors for broad collaboration.
- For the rules of engagement, refer to the Guidelines document on the homepage.

Type of Information

- Share info. across the S&T community
- Wiki and blog feature; collaborate on projects
- Advertise capabilities
- Contribute to the Technology Discovery area or submit a Technology challenge
- View or post industry events.

How to Access

- DOAC – Add as a portlet on the home page.
- URL: <https://www.DoDTechipedia.mil>

Search Tips

- Search for subject or a name at the search box on the main page.
- Participate in a Webinar session. Contact marketing@dtic.mil.

10 Resources for Your Tool Box

#4 – RS & R&E Database

DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004

Description

- DoD Research in Progress
- Goals of the databases: to coordinate programs & eliminate duplication of effort.

Type of Information

- Research Summaries: 316,000 DoD ongoing & completed research & technology projects from 1965 to present.
- E-Gov/R&E Database: Data on R&E projects provided by the Army, Navy, and Air Force (labs) as of 2006.

How to Access

- DOAC – Link to “More Search Options” from the home page and select RS & R&E Database to search collections together using this search interface or use the hyperlink to go to each database separately.
- Add resource as a portlet on the home page. For Research Summaries, add the Private STINET portlet.

Search Tips

- DTIC Online and DOAC, use the FAST search language: assumes “and” between words, use quotes for phrases, asterisk for truncation. See online search tip guide.
- Private STINET, RS Database – Use the Verity search language: no quotes for phrases, asterisk for truncation, replace punctuation with space, etc. See “Private STINET Handbook” for the complete list.

10 Resources for Your Tool Box #5 – Save & Scheduled Searches

DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004

Description

- For the DTIC TR, RS and IR&D databases, receive an e-mail alert when new documents have been added for a scheduled saved search (electronic alert).

Type of Information

- Good way to keep informed of new documents that have been added to the TR, RS and IR&D databases on your interest areas.
- Schedule to receive the alerts: biweekly, monthly, or quarterly.

How to Access

- DOAC – Add Private STINET as a portlet.
- Do a search in the TR, RS, or IR&D database or Cross Database Search using Private STINET.
- From the search results screen, click on “Save This Search.” It saves the strategy not the results. Option to schedule the search for an alert.

Search Tips

- You can delete or modify saved searches.
- View Saved Searches from any search screen to retrieve a search or select the 'My Account' link on the Private STINET homepage.

10 Resources for Your Tool Box

#6 – RDDS Database

DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004

Description

- Research & Development Descriptive Summaries (RDDS)
- President's Budget Request (PBR), FY 2000 – FY 2011, for RDT&E programs in a narrative format.

Type of Information

- Use to identify Program Element number & obtain PDFs of R-2 (budget justification documents) for research, development, testing, and evaluation (RDT&E) programs. Includes current fiscal year data and out year fiscal year data if available.

How to Access

- DTIC Online & DOAC – S&T Resources, Budget and Planning.

Search Tips

- Search by program element (PE number), PE title, document text, fiscal year, and multiple services/agencies.
- Insert in “document text” field: model* and simulat*

#7 – Military Journals

DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004

Description

- AULIMP – Air University Library Index to Military Periodicals (A joint effort between DTIC and Air University Library.)
- SCAMPI – Staff College Automated Military Periodical Index (A joint effort between DTIC, Joint Forces Staff College Library (JFSC), and National Defense University Library (NDU).

Type of Information

- AULIMP – Subject index to articles, news items, and editorials from military and aeronautical periodicals. Brief citations, no abstracts, 1988 – present.
- SCAMPI – Subject index that focuses on joint operations, military history, operational warfare, military and naval art and science. Citations from 1985 – present. Includes links to some journals' Web sites.

How to Access

- DOAC – “More Search Options” – Journal Articles & Conference Proceedings .

Search Tips

- Boolean AND, OR NOT to combine terms
- Quotes for phrases, e.g., “naval science”
- ? for truncation, e.g., comput? Finds compute, computer, computations, etc.
- Parenthesis to group term, e.g., (“air power” or airpower) and “persian gulf war”

10 Resources for Your Tool Box #8 – Journal Article Database

DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004

Description

- ProQuest – Articles from over 2,575 periodicals including 84 military titles. 1,697 of the titles are available in full-text, full image format.

Type of Information

- Use ProQuest for more popular journal articles and citations. Barron's (full-text); New York Times; USA Today; and Wall Street Journal (citations and some abstracts)

How to Access

- DOAC – “More Search Options” – S&T Resources.

Search Tips

- Use quotes for phrases and an asterisk for truncation. Provides an alert service. Example search: “medical simulat*”

10 Resources for Your Tool Box

#9 – Community of Scholars

DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004 DoD Field Activity Since 2004

Description

- Provides authoritative information for than 1 million scholars and organizations around the world.
- 22,000 records representing more than \$33 billion in grants, fellowships, and prizes.

Type of Information

- Find experts in academia by specific area of study with name, address, affiliations, Web site, degrees, research interests & publications.
- International faculty at 4-year universities
- Domestic and international fellowships and grants from private and public sponsors

How to Access

- DOAC – “More Search Options”, S&T Resources.

Search Tips

- Search operators: Quotes for a phrase; use Boolean operators AND, OR, NOT; use an asterisk for truncation; use ? to replace a single character; and it is not case sensitive.
- Save a list of records to mark each record, update marked list, save, print, & email.
- Publications are listed below the Scholar profile.
