## **SECTION I - PROGRAM ANNOUNCEMENT**

### **PROGRAM INFORMATION**

#### **PART I - PROGRAM DESCRIPTION**

Pursuant to the authorizing legislation, as amended by the FY 2007 appropriation, the IHS FY 2007 JVCP is being implemented using funds appropriated in FY 2007, as herein described below.

##### **A. STATUTORY AUTHORITY**

The statutory authority for the JVCP is contained in the Indian Health Care Improvement Act, Title III, Section 818(e), P.L. 94-437, as amended, as codified and implemented by 25 U.S.C. 1636h(e), and as further amended by language in the FY 2007 appropriation House Report 109-465.

##### **B. AUTHORIZATION**

The IHS, under the FY 2007 JVCP, is authorized to establish projects where American Indian and Alaska Native tribes can construct or acquire a tribally owned outpatient health care facility, in exchange for the IHS providing the initial equipment, then operating and maintaining the health care facility for 20 years under a no-cost lease.

##### **C. CONDITIONS OF AUTHORIZING LEGISLATION**

- ◆ The tribe must have the administrative and financial capabilities necessary to complete the acquisition in a timely manner.
- ◆ The tribe must expend tribal, private, or other available non-tribal funds for the acquisition.
- ◆ The tribe is to lease the tribally owned health care facility to the IHS for 20 years under a no-cost Government lease.
- ◆ In exchange, the IHS is to provide the initial equipment, then the supplies and staffing for the operation and maintenance of the health care facility for the lease period. Although the calculated RRM staffing number is determined based upon the user population projected 10 years into the future, the actual number of staff to be funded will be 85% of the calculated total RRM for the facility opening date.
- ◆ A tribe, who has entered into an agreement with the IHS under this program, who breaches or terminates without cause such agreement, will be liable to the U.S. Government for the amount paid by the Government.

## SECTION I - PROGRAM ANNOUNCEMENT

### D. FY 2007 PROGRAM CONCEPTS

- ◆ **INITIAL ELIGIBILITY:** Federally recognized tribes planning to construct or acquire an inpatient or outpatient health care facility are eligible.
- ◆ **FUNDING PLANS:** The FY 2007 JVCP was established when the Congress appropriated funding for the initial equipment. As joint venture projects are acquired, subsequent appropriations requests will address the funding needs for staffing, operations, and maintenance of the tribally owned health care facility being leased by the IHS.
- ◆ **ACQUISITION:** The new outpatient health care facility acquired pursuant to the JVCP may be through new construction, renovation of an existing health care facility, or the acquisition and renovation of another suitable facility.
- ◆ **PROJECT PRIORITY:** Priority is to be given to tribes that currently have no existing federally-owned health care facility. Additional priority is to be given to tribes who agree to fund the equipment portion of the project.
- ◆ **NO RETROACTIVE PROJECTS:** Projects that have been acquired already by a tribe will not be considered retroactively. Where new construction is involved, only projects that have not entered into a construction phase will be considered.
- ◆ **TRIBAL ABILITIES:** The tribe must be able to manage and fund the acquisition of the proposed project in a timely manner.
- ◆ **CONFORMANCE WITH IHS AREA MASTER HEALTH PLAN:** The proposed project is to be consistent with the applicable IHS Area Health Services-Facilities Master Plan, in order to maximize the efficient use of the funding.
- ◆ **PJD AND POR REQUIREMENTS:** Since IHS funding can support only space and staffing needs that can be verified under the existing IHS Health Facilities Construction Priority System methodology, a Program Justification Document (PJD), a Program of Requirements (POR), a combined Phases I and II Site Selection and Evaluation Report (SSER), which includes full compliance with National Environmental Policy Act (NEPA) requirements, and a Government cost estimate prepared in accordance with the IHS Facilities Budget Estimating System (FBES), will be required to be prepared in accordance with the planning criteria specified in the IHS health facilities planning process. The projected workload must be validated by the IHS data system. The IHS supported staffing requirements will be determined in accordance with the IHS Resource Requirements Methodology. These approved planning documents will be the basis for providing the initial equipment funding and for the space, staffing, and the operation of the health care facility under the lease.

## SECTION I - PROGRAM ANNOUNCEMENT

- ◆ **STAFF QUARTERS:** Any staff quarters needed to support the health care facility are to be a part of the project and are to be a part of the planning documents. All staff quarters approved in the planning documents are to be constructed and are to be available for use when the health care facility is ready for operation. However, the tribe will be the owner of the staff quarters and responsible for all costs for their construction and the subsequent operation and maintenance. Once constructed, staff quarters are to be self-supporting from revenues generated from the rental fees.

### E. SELECTION PROCESS

The selection of projects to participate in the IHS FY 2007 Joint Venture Construction Program (JVCP) involves (1) an application phase, (2) the preparation and submission of planning documents for IHS Headquarters approval, and (3) the negotiation and execution of a JVCP Agreement.

## SECTION I - PROGRAM ANNOUNCEMENT

### PART II - APPLICATION PHASE

There will be a two-step application phase.

## SECTION I - PROGRAM ANNOUNCEMENT

### PART III - EVALUATION CRITERIA FOR APPLICATIONS

#### A. PRE-APPLICATION (PART ONE)

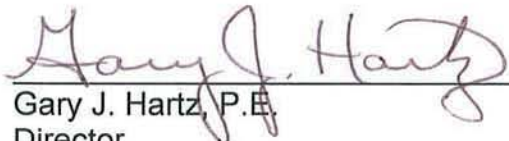

The Pre-Application will be reviewed for compliance with the eligibility requirements, including the FY 2007 requirements that priority be given to tribes who currently do not have existing federally owned health care facilities available for their use and/or agree to fund the equipment portion of the project. Using the scores recorded on the JVCP Phase I Data and Computation Forms, a rank order will be established for the Pre-Applications received.

#### B. FINAL APPLICATION (PART TWO)

An IHS - Tribal review panel will evaluate and rate the Final Applications using established rating factors. The applications will be rated on (1) relative need, (2) ability to fund project, (3) ability to manage project, and (4) ability to complete project on schedule.

### PART IV - PROJECT SELECTION

Final project selection occurs after all planning documents have been approved by the IHS and the joint venture agreement is executed after negotiations.

## **SELECTION PROCESS**

The selection of projects to participate in the IHS Joint Venture Construction Program (JVCP) involves (1) an application phase, (2) the preparation and submission of planning documents for IHS approval, and (3) the negotiation and execution of a JVCP Agreement.

**1.APPLICATION PHASE.** The application phase is in two parts:

- a. PRE-APPLICATION.** The first part of the Application Phase is in the form of a Pre-Application, which will be used to determine if the proposed project is eligible for consideration and has the potential for successful competitive selection under the JVCP, in compliance with the authorizing legislation, as amended by the fiscal year (FY) 2007 appropriation language. Tribes, having the top six ranking projects in the Pre-Application part of the application phase, will be requested to complete and submit Final Applications.
- b. FINAL APPLICATION.** The second part of the Application Phase includes a Final Application, where applicants will provide documentation of their administrative and financial capabilities to accomplish the proposed JVCP project. An evaluation panel will evaluate the Final Application packages to establish a ranking of applications at this stage.

**PUBLIC REPORTING BURDEN FOR INFORMATION COLLECTION  
(OMB Control Number: 1076-0136)**

Public reporting burden for the collection of information needed for the Pre-Application is estimated to average 16 hours per response and to average 40 hours per response for the Final Application, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. ***An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number.*** Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Indian Health Service Reports Clearance Officer, 12300 Twinbrook Parkway, Suite 450, Rockville, MD 20852-1006, marked to the Attention: PRA (1076-0136). **(DO NOT RETURN THE COMPLETED PARTS OF THE APPLICATION FOR THIS PROGRAM TO THIS ADDRESS.)**

## SECTION II - SELECTION PROCESS

- 1. PLANNING DOCUMENTS PHASE.** Tribes having projects selected as candidates for the JVCP will be requested to prepare, in concert with the applicable IHS Area, the planning documents required for the projects. The planning documents include the Program Justification Documents (PJD), Program of Requirements (POR), and Site Selection and Evaluation Reports (SSER), which are to be prepared in accordance with the IHS Technical Handbook for Environmental Health and Engineering, and submitted for IHS approval. (Note, joint venture projects have Federal involvement requiring full compliance with National Environmental Policy Act procedures for the reports that are required for the SSER, which is the same as those required for direct Federal projects.) It is anticipated that only two projects will be selected for FY 2007.
- 1. JVCP AGREEMENT.** Once the planning documents have been approved, the JVCP Agreements will be negotiated and executed. An agreement model will be provided to the selected candidates.

## CONTENT OF APPLICATIONS

### EXHIBIT IV INSTRUCTIONS FOR JVCP PHASE I DATA AND COMPUTATION FORM

#### INSTRUCTIONS FOR INDIAN HEALTH SERVICE JOINT VENTURE CONSTRUCTION PROGRAM PHASE I DATA AND COMPUTATION FORM

Projects in the Pre-Application part of the Application Phase will be competitively selected based on the need for additional space as reflected on the IHS Joint Venture Construction Program Priority System Phase I Data and Computation Form, which is provided in Exhibit II. Instructions, by line item number, for the completion of that form are below. Supporting tables follow the instructions.

#### PART 1 - JVCP SCORE CALCULATION

**A.** Enter the total **Projected User Population**, as provided by the IHS data system.

**B.** The **Required Space** is determined by the calculation of the average projected size in one of two ways, depending on the service provided.

If no inpatient services (beds) are included, it is equal to the sum of 200 m<sup>2</sup> plus 0.8 times the **Projected User Population** [Line A].

If inpatient services (beds) are included, it is equal to the sum of 5,500 m<sup>2</sup> plus 3.5 times the facility's **Inpatient Bed Days**.

**C.** The **Total Weighted Average Facility Age** is calculated in Part 2 of the form. Use Part 2 to list each and every component building in the health care facility complex, then, calculate the weighted age as indicated in the format.

**D. Existing Space** of IHS owned health care facilities is the total gross space in square meters (m<sup>2</sup>) of **all** permanent health care buildings listed on the IHS Real Property Inventory for the facility (all except staff quarters). For tribally owned health care facilities, the gross area used is to be validated by the cognizant IHS Area Facilities Manager.

**E.** The **Unit Cost to Replace** is calculated using the applicable outpatient facility unit cost figure times the location factor used in the current annual update for the IHS Facilities Budget Estimating System. Table A contains the current unit cost figures to be used. Table B contains the current location factors to be used.

## SECTION II - SELECTION PROCESS

**F.** For the **Cost to Repair**, when the replacement of an existing health care facility is being proposed, enter the costs to correct the deficiencies identified in the Facilities Engineering Deficiencies System (FEDS) for the codes listed in Line F, then enter the sum in the extreme right box. If FEDS costs are not available, costs generated by another condition survey for the same categories used for the FEDS in this form may be used. If no health care facility exists, or for a health care facility for which no FEDS or another survey has been completed, enter zero.

**G.** For cases where an existing health care facility applies, the **Unit Cost to Repair** equals the total FEDS [Line F] divided by the **Existing Space** [Line D]. If no health care facility exists, enter zero.

**H.** For cases where an existing health care facility applies, the **Condition Factor** equals the **Unit Cost to Repair** [Line G] divided by the **Unit Cost to Replace** [Line E]. If no health care facility exists, enter zero.

**I.** Determine the **Adjusted Existing Space** by multiplying the **Age and Condition Factor** (obtained from Table C) times the **Existing Space** [Line D] and subtracting that value from the **Existing Space** [Line D]. Using Table C, enter the value of Line H for **Condition Factor**, then the **Age of Facility** to read the **Age and Condition Factor**.

**J.** Obtain the **Urgency of Need Factor** from Table D. Using Table D, enter the value of Line B for **Required Space**, then, the value of Line I for the **Adjusted Existing Space** to read the **Urgency of Need Factor**. [ALTERNATE CALCULATION FOR SMALL FACILITIES: If Line I exceeds Line B, enter zero. If Line I is less than Line B but Table D indicates zero, assign a value of 1.00 for Line J.]

**K.** For the proposed standalone outpatient health care facility, enter the road **Distance** in kilometers (km) to the nearest health care facility having a level 1, 2, or 3 emergency room. If actual measured distances are not available, the most recent edition of the Rand McNally Road Atlas or a state road map are to be used in determining the distances. Document the source and if maps are used, provide legible copies of the applicable map excerpts, with appropriate map source credit.

**L.** Obtain the **Isolation Factor** from Table E. Using Table E, enter the value of Line K **Distance** to read the outpatient **Isolation Factor**.

**M.** To determine the **Need**, multiply 70 times the **Urgency of Need Factor** [Line J] times the **Isolation Factor** [Line L].

**N.** To factor in Tribal provision of equipment funds, multiply 30 times the % of the equipment funds the Tribe will provide.

## SECTION II - SELECTION PROCESS

O. To determine the **Joint Venture Construction Program Phase I Score**, multiply the sum of the **Need** [Line M] and **% Equipment Funding** [Line N] times the **Planning Completion Factor** from Table F times the **Financial Commitment Factor** from Table G.

### **PART 2 - WEIGHTED AVERAGE AGE OF HEALTH COMPLEX WORKSHEET**

For existing health centers having more than one structure in the standalone facility, enter each building component, its gross area and age, then calculate the weighted age of each portion of the total facility to come up with the total weighted average facility age. Also, enter the result on Line C of Part 1.

**SECTION II TABLES.** The below listed supporting tables follow in sequence.

Table A: Current Unit Cost for Replacing Health Care Facilities

Table B: Current Location Factors

Table C: Age and Condition Factor Table

Table D: Urgency of Need Table

Table E: Isolation Factor Table

Table F: Planning Completion Factor Table

Table G: Financial Commitment Factor Table

## SECTION II - SELECTION PROCESS

### TABLE A CURRENT UNIT COST FOR REPLACING HEALTH CARE FACILITIES

The estimated base unit cost (\$ per square meter) for the construction of a health care facility in June 2007, is:

1. \$1,712.00 for an outpatient facility.
2. \$2,594.00 for an inpatient facility.

Considering the planned completion year, determine the mid-point year of construction and adjust the appropriate figure shown above by an escalation factor of 0.03 per year to bring the unit cost up to the mid-point year.

The above cost does not include the cost for:

- a. A/E Design Fees
- b. A/E Fees Construction Documents
- c. Communication Design
- d. A/E Construction Administration
- e. A/E Construction Observation
- f. Demolition and abatement of existing structures
- g. Rough grading and site prep
- h. Roads and parking construction

APPLICATION REVIEW PROCESS  
FY 2007 JOINT VENTURE CONSTRUCTION PROGRAM  
INDIAN HEALTH SERVICE  
DEPARTMENT OF HEALTH AND HUMAN SERVICES**

**PRE-APPLICATION**

The Pre-Application will be reviewed and validated for compliance with the eligibility requirements as shown in Section I and the submission requirements as shown in Section II. Using the scores recorded on all of the JVCP Phase I Data and Computation Forms, a rank order will be established for the Pre-Applications received.

**FINAL APPLICATION**

The Office of Environmental Health and Engineering, Office of Public Health, at IHS Headquarters will establish a review panel to evaluate the Final Applications. This review panel will be chaired by a representative of the IHS Headquarters Division of Facilities Planning and Construction and have a membership consisting of one representative from the program services components of IHS Headquarters, one representative from the Division of Engineering Services, three representatives from three separate IHS Areas, and three representatives from three separate federally recognized tribes, for a total of nine.

**Rating and Scoring Procedures**

The four rating elements to be used to rate the Final Applications are: (1) Relative Need, (2) Ability to Fund Project, (3) Ability to Manage Project, and (4) Ability to Complete Project on Schedule. Below is the rating criteria to be followed:

## SECTION III - APPLICATION REVIEW PROCESS

1. **Relative Need:** Using the Need Score reflected in Line M of the IHS JVCP Phase I Data and Computation Form submitted with the Pre-Application, rank the projects from the highest score down. The Relative Need Score for each application becomes the basis for this Final Application Rating Factor; i.e., the applicant with the highest score for Line M will have a Rating Factor of 5. The remaining applicants will receive a Rating Factor calculated according to the following formula: [Relative Need = (Applicants score from Line M) ÷ (Score from Line M of highest ranking applicant) x 5].

The remaining three rating elements (2) Ability to Fund Project, (3) Ability to Manage Project, and (4) Ability to Complete Project on Schedule, are to be rated based on a one to five scoring system with one being the lowest score and five being the highest. Scores in this range may also be developed to one decimal place (tenths; e. g., 2.2 or 3.5, etc.) A general description of the rating elements is offered in the following table.

RATING FACTOR	DEGREE OF EFFORT OR PRIORITY	QUALITATIVE DESCRIPTION
1	Minimal	Fair
2	Moderately more than minimal	Good
3	Moderate	Excellent
4	Moderately less than high	Superior
5	High	Outstanding

2. **Ability to Fund Project:** Evaluate the information provided for the Project Budget Estimate and Financial Plan components of the Final Application, determine the applicant's ability to fund the project, and assign a rating factor between one and five.

3. **Ability to Manage Project:** Evaluate the information provided in the Project Management Plan component of the Final Application, determine the applicant's ability to manage the proposed project, and assign a rating factor between one and five.

4. **Ability to Complete Project on Schedule:** Evaluate the information provided for the Project Management Plan and Schedule components of the Final Application, determine the applicant's ability to complete the project on schedule, and assign a rating factor between one and five.

## SECTION III - APPLICATION REVIEW PROCESS

### Calculating Final Scores

After rating the proposals, the review team will apply a weight factor to each assigned rating to come up with the final ranking for this phase of the selection process, as follows:

<b>RATING ELEMENT</b>	<b>WEIGHT FACTOR (%)</b>
1. Relative Need	40
2. Ability to Fund Project	30
3. Ability to Manage Project	20
4. Ability to Complete Project on Schedule	10

After coming up with a weighted rating for each project, the review team members will provide the original rating sheets for each project to the team leader, who will rank the results and provide all documentation to the IHS Headquarters Division of Facilities Planning and Construction. Section III, Exhibit I, contains the format for a suggested Rating Sheets to be used by the team members. **Indian Entities Recognized and Eligible

States Bureau of Indian Affairs; Notice**

**DEPARTMENT OF THE INTERIOR****Bureau of Indian Affairs****Indian Entities Recognized and Eligible To Receive Services From the United States Bureau of Indian Affairs**

**AGENCY:** Bureau of Indian Affairs, Interior.

**ACTION:** Notice.

**SUMMARY:** This notice publishes the current list of 561 tribal entities recognized and eligible for funding and services from the Bureau of Indian Affairs by virtue of their status as Indian tribes. The list is updated from the notice published on November 25, 2005 (70 FR 71194).

**FOR FURTHER INFORMATION CONTACT:** Daisy West, Bureau of Indian Affairs, Division of Tribal Government Services, Mail Stop 4513-MIB, 1849 C Street, NW., Washington, DC 20240. *Telephone number:* (202) 513-7641.

**SUPPLEMENTARY INFORMATION:** This notice is published pursuant to Section 104 of the Act of November 2, 1994 (Pub. L. 103-454; 108 Stat. 4791, 4792), and in exercise of authority delegated to the Assistant Secretary—Indian Affairs under 25 U.S.C. 2 and 9 and 209 DM 8.

Published below is a list of federally acknowledged tribes in the contiguous 48 states and in Alaska.

The list does not include any additional new tribes. The updates are limited to several tribal name changes. To aid in identifying tribal name changes, the tribe's former name is included with the new tribal name. We will continue to list the tribe's former name for several years before dropping the former name from the list.

The listed entities are acknowledged to have the immunities and privileges available to other federally acknowledged Indian tribes by virtue of their government-to-government relationship with the United States as well as the responsibilities, powers, limitations and obligations of such tribes. We have continued the practice of listing the Alaska Native entities separately solely for the purpose of facilitating identification of them and reference to them given the large number of complex Native names.

Dated: March 7, 2007.

*Principal Deputy Assistant Secretary—Indian Affairs.*
