Application:

This bulletin is intended for Part 139 Airport Managers and State Aviation Directors in the States of Iowa, Kansas, Missouri and Nebraska

Background:

The FAA Aircraft Rescue and Firefighting Training DVD has been distributed to the Regional Offices and is enclosed with this bulletin (Contact Mike Mullen for a copy). This new training DVD has been designed to be incorporated into the initial and annual recurrent ARFF training program to supplement the site specific training. Other ARFF training programs are described in [AC 150/5210-17B, Programs for Training of Aircraft Rescue and Firefighting Personnel](#) (pdf). This ARFF training DVD replaces the CBT program previously distributed by the FAA on a 3 set CD program several years ago.

The FAA Airports website has a new ARFF page that lists all of the ARFF related Advisory Circulars, CertAlerts and Additional Resources. The new ARFF web page can be found at:

http://www.faa.gov/airports/airport_safety/aircraft_rescue_fire_fighting/

Action Required:

Please provide the enclosed ARFF training DVD to the personnel providing ARFF at your airport. The ARFF training curriculums will need to be revised to include the ARFF training DVD topics in place of the old CBT on the 3 set CD program for the portion of the training program addressing basic aircraft rescue and firefighting principles.

If you need additional copies of the ARFF training DVD, contact either, Mike Mullen, Lead Airport Certification Inspector, 816-329-2618 or Pat Haynes, Airport Certification Safety Inspector, 816-329-2621.
