Dear Ms. Dortch:

Deutsche Telekom and T-Mobile USA herewith submit some further information as a follow up to their submission of August 29, 2011. In that letter, Deutsche Telekom and T-Mobile USA indicated they were preparing some additional database reports responsive to questions posed by staff. The attached Highly Confidential disk contains:

1. In response to FCC roaming data request 1, a file titled “38_Supplement_Roaming_Inbound_Domestic.xlsx.” That file contains inbound roaming usage and charges for domestic partners by partner, BID region, 2G/3G, and month for Nov-10 through May-11. (Note that the total charges include text charges even though text usage is not included.)
2. In response to FCC roaming data request 2, a file titled “38_Supplement_Roaming_Outbound.xlsx.” That file contains outbound roaming usage and charges by partner, BID region, and month for Jan-11 through Apr-11.
3. In response to FCC roaming data request 3, a file titled “Spec38_Supplement_Roaming_Inbound_International.xlsx.” That file contains the inbound roaming usage and charges for international partners by partner, BID region, 2G/3G, and month for Nov-10 through May-11. (Note that charges are broken out for voice, data, and text, but text usage is not included.)
4. In response to FCC handset data request 1, a file titled “Handset Sales and Revenue_2007 to 2011 FINAL.xlsx.” The file contains records that pertain to all

The file contains a header row with field names that are self-explanatory.

populated for only those handsets where hearing aid compatibility has been submitted. A field value of -1 indicates that the FCC ID is unavailable.
